

IMPORTANT: Students must demonstrate full compliance with the Program's Compulsory Conditional Evidence Requirements prior to allocation of a clinical placement. Students who are deemed noncompliant with any outstanding items listed in this *Student Checklist* will not proceed to clinical placement, and consequently, will be unable to continue with their studies, thus extending the time to complete their program. It is the responsibility of students to ensure that their conditional evidence is current for the duration of their program.

Students are required to:

- Complete the *Compulsory Conditional Evidence Checklist* below and upload copies of the conditional evidence documents to your *PebblePad* portfolio.
- Upload copies of the conditional evidence documents to [InPlace](#) for verification by the Clinical Placement Unit (CPU).

Present conditional evidence documents to venue staff on the first day of clinical placement and or as requested by the venue.
