

# **2020 Enrolment Advice**

# Program Enrolment Advice Session: No Program Enrolment Advice Session

PROGRAM CODE	LBSC	YEAR LEVEL	1 Mid-Year	
PROGRAM NAME	Bachelor of Science			
ACADEMIC PLAN	Undergraduate	CAMPUS	Mawson Lakes	
<b>CAMPUS CENTRAL</b> (Please contact Campus Central if you need help with enrolling or have any queries about the information on this form)	Campus Central Mawson Lakes Ground floor, C Building <u>ask@campuscentral.unisa.edu.au</u> 1300 301 703	<b>CONTACT DETAILS</b> (if you have any other queries)	UniSA STEM <u>NBEenquiries@unisa.edu.au</u> 8302 3000	

# **DEFINITIONS:**

Subject Area and Catalogue Number	A 4-letter subject area code plus a 4-digit catalogue number make up the course code, e.g. <b>BIOL 1033</b> . You can search for courses by using this code.
Class Number	A class number is a unique number used to identify individual classes held during a specified study period. You can use class numbers to enrol, starting with the class number of the enrolment class.
Enrolment Class	An Enrolment Class is the first class you enrol in for a particular course. This can be a lecture (LEC), tutorial (TUT), workshop (WSH), practical (PRA) or external (EXT). There may be multiple enrolment classes to choose between. All other classes will be related to the enrolment class and will display once you select your enrolment class.
Related Classes	Related classes are other components (i.e. a tutorial or practical) that make up the course. In some cases you may be automatically enrolled into a particular related class that is associated with the enrolment class you selected.
Auto Enrol Class	In some courses, once you select the Enrolment Class, you are automatically enrolled (Auto-Enrol) in a second (related) class (e.g. by choosing a tutorial you are automatically enrolled into the lecture). You may still be required to select another related class to complete your enrolment.
External Class	The external class number will be listed in the Classes column below. This number is the only enrolment class number you need to enter in 'Manage my Enrolment' when enrolling.

Second Semester (Study Period 5)							
Subject Area	Catalogue Number	Course Name	Class numbers	Notes			
MATH	1040	<u>Statistics for</u> <u>Laboratory Sciences</u>	Enrol into 1 Lecture Class 51244 <b>and</b> 1 Tutorial <b>and</b> Workshop Please refer to <u>class timetable</u> for Tutorial class numbers	Program Note 1			
		Science Major A – Course 2		Please see table below			
		Science Major B – Course 2		Please see table below			
		Elective 2		Program Note 3			

	Major in Applied Physics	Major in Biology	Major in Chemistry	Major in Environmental Systems	Major in Mathematics
1	PHYS 1007-	BIOL 1007 -	CHEM 1006 –	ENVT 1013 - Environment: A	MATH 1054 -
	Applied Physics 1	BIOIOGY A	Chemistry 100	Human Perspective	
2	PHYS 1008 -	BIOL 1012 -	CHEM 1007 -	BIOL 1014 - <u>Biodiversity for</u>	MATH 1055 -
	Applied Physics 2	<u>Biology B</u>	Chemistry 101	the Environment	<u>Calculus 2</u>
3	PHYS 2002 - Physics of	BIOL 2045 -	CHEM 2028 -	BIOL 1015 -	MATH 1056 -
	Materials and Technology	Life on Earth A	Synthetic Chemistry	Sustainable Ecosystems	Linear Algebra
4	PHYS 2003 -	BIOL 2046 -	CHEM 2026 -	BIOL 2023 -	MATH 2027 -
	Computational Science 1	<u>Life on Earth B</u>	Structure Determination	Ecology	<b>Fundamentals of Real</b>
			and Analysis		Analysis
5	PHSY 2004 -	BIOL 3026 - <u>Human</u>	CHEM 2029 -	ENVT 3016 - Environmental	MATH 2023 -
	Applied Physics 4	Ecology & Global	Advanced Synthetic	Interpretation and	Differential Equations 1
		<u>Change</u>	<u>Chemistry</u>	Community Engagement	
6	PHYS 3004 -	BIOL 3027 - <u>Global</u>	CHEM 2027 -	ENVT 3020 -	MATH 3013 -
	Modern Physics OR	Change and Human	Advanced Structure	Environmental Conflict and	Mathematical Sciences
	PHSY 2005 -	<u>Health</u>	Determination and	Public Consultation	<u>Project</u>
	Computational Science 2		Analysis		
7	EEET 4046 - <u>Optical</u>	BIOL 3031 -	CHEM 3020 -	ENVT 3028 -	MATH 3040 -
	Communications OR	Research Elective	Molecules-to-Materials:	<b>Restoration Ecology</b>	Topics in Mathematics 1
	PHYS 3001 -	<u>Project</u>	Foundations for		
	Lasers and Optics		Nanochemistry		
8	PHSY 3002 -	Biology course	BIOL 3031 -	ENVT 2004 - Park and	MATH 3038 -
	Applied Science Project	(Program Note 7)	Research Elective Project	Wilderness Management	Multivariable Calculus

#### NOTES:

1. The table above shows the full list of courses to be taken by a student undertaking a full-time load solely in this year of the program.

2. Please ensure you check the course timetable to confirm the location and possible external mode offering for each course.

# **PROGRAM NOTES:**

- Students who intend to take a major in Mathematics should enrol in Statistical Methods (MATH 1068) instead of Statistics for Laboratory Sciences (MATH 1040) and Mathematical Communication (MATH 2024) instead of Professional and Technical Communication (COMM 1065). Students who intend to take a major in Biology or Chemistry may enrol in Quantitative Methods in Health (MATH 1065) instead of Statistics for Laboratory Sciences (MATH 1040).
- 2. Students must select two science majors, with each major totaling not less than 36 units. The majors will each include at least three advanced (level three) courses and will generally proceed sequentially over the three years of the program. Prerequisites will normally apply as the student progresses.
- 3. Elective courses: (a) For at least two of the electives the student must select science courses as approved by the Program Director. These courses may extend the student's majors or be from complementary science disciplines. (b) For one elective course the student must select a University-wide elective from any discipline. (c) Besides the elective chosen in (b) above, no more than three other elective courses may be at an introductory level. Students are advised to seek advice from the Program Director concerning the levels of courses.
- 4. Students who wish to apply for subsequent entry to an honours program offered by the Division of Information Technology, Engineering and the Environment or the Division of Health Sciences should complete extra courses in the area of the relevant major and should seek advice about the selection of these courses from the Program Director.
- 5. Other majors may be available in addition to those listed in the program schedule. Students who are interested in taking a major in another area of science should consult the Program Director.
- 6. SACE Stage 2 Physics and Mathematical Methods is assumed knowledge for the Major in Applied Physics; SACE Stage 2 Chemistry is assumed knowledge for the Major in Biology; SACE Stage 2 Chemistry is assumed knowledge for the Major in Chemistry; and SACE Stage 2 Mathematical Methods is assumed knowledge for the Major in Mathematics/Statistics.
- 7. Students must select a course from Group 2 in the listing of courses for the Biology major available on the UniSA website.

# **EXTERNAL STUDENTS**

Students studying off-campus. Administrative services for external students are located at Campus Central.

**External mode** includes online, distance education, industry placement or directed research. Virtual classrooms are deemed to be an external mode of delivery. External model does not normally include a face to face component, however some courses offered in external mode may require a small component of on-campus activity.

It is strongly recommended that you visit the Study Support webpage to gain valuable information regarding your studies. <u>https://i.unisa.edu.au/students/student-support-services/study-support/</u>

# PART TIME STUDENTS

You can study part-time which means undertaking less than the load specified for full-time status.

(Full-time load - The standard annual full-time load is 36 units or 1.0 EFTSL (Equivalent Full-Time Student Load). A student undertaking at least 75% of a full-time load for the academic year will be full-time for that year. A student who is undertaking at least 75% of a full-time load, for either the first half or second half of the year, will be full-time for that half year).

If you require further enrolment advice, please refer to the contact details listed on the first page or contact Campus Central.
