DEFINITIONS:

Subject Area and Catalogue Number
Class Number

A 4-letter subject area code plus a 4-digit catalogue number make up the course code, e.g. **BIOL 1033**. You can search for courses by using this code.

Enrolment Class

A class number is a unique number used to identify individual classes held during a specified study period. You can use class numbers to enrol, starting with the class number of the enrolment class.

Related Classes

An Enrolment Class is the first class you enrol in for a particular course. This can be a lecture (LEC), tutorial (TUT), workshop (WSH), practical (PRA) or external (EXT). There may be multiple enrolment classes to choose between. All other classes will be related to the enrolment class and will display once you select your enrolment class.

Auto Enrol Class

Related classes are other components (i.e. a tutorial or practical) that make up the course. In some cases you may be automatically enrolled into a particular related class that is associated with the enrolment class you selected.

In some courses, once you select the Enrolment Class, you are automatically enrolled (Auto-Enrol) in a second (related) class (e.g. by choosing a tutorial you are automatically enrolled into the lecture). You may still be required to select another related class to complete your enrolment.

Second Semester (Study Period 5)				
Subject Area	Catalogue Number	Course Name	Class numbers	Notes
EEET	1027	Electrical and Electronic Systems	Enrol into Seminar 51517 and 1 Practical and 1 Tutorial. Please refer to class timetable for Tutorial class numbers	
MENG	1012	Engineering Mechanics	Enrol into Seminar 51520 and 1 Workshop. Please refer to class timetable for Workshop class numbers	
MATH	1063	Mathematical Methods for Engineers 1	Enrol into Lecture 52071 and 1 Computer Practical And 1 Tutorial. Please refer to class timetable for class numbers	Mid-year entry students do this course instead of Mathematical Methods for Engineers 2 (MATH 1064)
ENGG	1004	Engineering Design and Innovation	Enrol into Lecture 52795, 1 Computer Practical and 1 Tutorial. Please refer to class timetable for Tutorial and Computer Practical class numbers	

NOTES:

1. The table above shows the full list of courses to be taken by a student undertaking a full-time load solely in this study period of the program.
2. Please ensure you check the course timetable to confirm the location and possible external mode offering for each course.
3. **If you have a Study Plan, please bring it to your enrolment session to assist with enrolment.**

EXTERNAL STUDENTS

Students studying off-campus. Administrative services for external students are located at [Campus Central](#).

External mode includes online, distance education, industry placement or directed research. Virtual classrooms are deemed to be an external mode of delivery. External mode does not normally include a face to face component, however some courses offered in external mode may require a small component of on-campus activity.

It is strongly recommended that you visit the Study Support webpage to gain valuable information regarding your studies.

PART-TIME STUDENTS

You can study part-time which means undertaking less than the load specified for full time status.

(Full-time load - The standard annual full-time load is 36 units or 1.0 EFTSL (Equivalent Full-Time Student Load). A student undertaking at least 75% of a full-time load for the academic year will be full-time for that year. A student who is undertaking at least 75% of a full-time load, for either the first half or second half of the year, will be full-time for that half year).

If you require further enrolment advice, please refer to the **contact details** listed on the first page or contact [Campus Central](#).
