Helping the homeless

Addressing the challenges faced by Adelaide's homeless is a complex issue that inspires passion, particularly for UniSA lecturer and researcher, Dr Katia Ferrar.

On any given night, more than 5,000 South Australians experience homelessness, and they experience unique barriers when it comes to accessing health services.

In partnership with The Salvation Army, Dr Ferrar spearheaded the development and launch of UniSA's Open Door Health Clinic, a facility offering pro bono physiotherapy and podiatry services to the homeless and people in crisis.

While working to improve health and wellbeing outcomes for at risk community members, the Clinic also delivers rewarding learning experiences for students, who work under the supervision of qualified clinical educators.

Students are able to develop an increased sense of social justice, become more adaptable in the delivery of health care services, and are exposed to the realities of communities in need.

Dr Ferrar is highly celebrated and has been recognised as the AMP Tomorrow Maker 2016, Winnovation Awards finalist 2017 and Unsung Hero of Science finalist 2018.

REAL-WORLD EXPERIENCE

Develop your skills and professional networks beyond the classroom. We partner with elite sporting teams, hospitals and community-based organisations, including the Calvary Wakefield Hospital, Adelaide United Football Club, SA Metropolitan Fire Service, and Helping Hand Aged Care to bring you practical, hands-on experience through a range of scholarships and placements. We also have unique collaborations with organisations like The Repat Foundation – The Road Home, which provide placement and learning opportunities for students across different health disciplines. Through this partnership, students use the power of sport to support wounded, injured and sick service personnel through our global-first Invictus Pathways Program.

FLYING HIGH

We have partnered with the Adelaide Football Club to provide opportunities for student placements and research collaborations. Students can apply their learnings in exercise and sport science in an elite sporting environment working alongside AFL sports scientists and high performance coaches. There are also opportunities to engage in sports research focusing on optimal player performance and injury prevention.

UNIQUE DEGREES

We offer South Australia's only degrees in pharmacy, pharmaceutical science and medical radiation science (medical imaging, radiation therapy and nuclear medicine). We also have the state's only fully-accredited undergraduate degrees in podiatry, physiotherapy, exercise and sport science, occupational therapy and clinical exercise physiology. You can also enrol in one of our unique double degrees, combining disciplines such as human movement with psychological science or nutrition and food sciences for a competitive edge in the growing health and wellness industry.

COMMUNITY CLINICS

Our on-campus community health clinics are open to the public and provide exceptional training for students during their studies. Physiotherapy, podiatry and exercise physiology students will gain hands-on experience by treating real patients under the supervision of highly-experienced health professionals. Services such as occupational therapy, dietetics, midwifery and general practice are also available.

HANDS-ON NURSING DEGREE

Study a top-ranking undergraduate nursing degree at UniSA. Take advantage of our practical approach to learning, including the most undergraduate placement hours in public and private hospitals and community organisations across South Australia. We also have a unique, simulated hospital environment located on campus, which includes authentic hospital wards, clinical units and community areas. You will learn under the guidance of practising clinicians and academics, and develop the confidence to work in real-world settings.

ENGAGE IN THE SCIENCES

Benefit from a learning experience rich in new knowledge, and join the global fight against illness and disease as an aspiring medical scientist, medical researcher or pharmacist. Strong teaching links with our internationally-renowned research groups, including the UniSA Cancer Research Institute and Centre for Cancer Biology, means that you'll learn from and work alongside award-winning researchers at the forefront of their profession. With state-of-the-art facilities and resources, you'll also gain valuable hands-on experience and prepare for a career in industry or research.

STEMfooty

We have teamed up with the Adelaide Football Club to show middle and senior school students how sport is linked to Science, Technology, Engineering and Mathematics (STEM). Our *STEMfooty* pilot program connects students with elite talent squads and explores how STEM can be applied to enhance player performance.

BIOMECHANICS LAB / Equipped with the latest motion capture technology, students learn about the science of biomechanics by analysing movement in 3D to help enhance human performance.

HORIZON HOSPITAL AND HEALTH SERVICE / Modelled on real health facilities, nursing and midwifery students learn in this clinician-led authentic simulated hospital and health service environment, and engage with residents of the virtual health community to develop their clinical knowledge and skills.

Become a global citizen

Develop the skills you need to work internationally and increase your career opportunities by studying a second language. Learn French, Italian, Japanese or English (as an Additional Language) through a Diploma in Languages. Access the Multimedia Languages Lab at Magill Campus and connect with native speakers from around the world in real-time. Graduate with an additional qualification by studying the diploma alongside your undergraduate degree.

unisa.edu.au/languages

Experience student life

Enjoy life beyond the classroom by getting involved in campus culture. Connect with new people at O-Week, keep active with UniSA Sport and on-campus fitness centres, or find your tribe with over 100 student clubs to choose from. Discover our wide range of events throughout the year and connect with our student association, USASA.

unisa.edu.au/studentexperience

Get career ready

Prepare for your future career from first year with support from our Career Services team. Access our online Career Hub for self-help resources, including tips on resume writing and an interview simulator. There are also professional and exclusive job listings. Connect with a career adviser for help with career mapping, attend industry events to build your professional networks, and walk in to one of our drop-in centres on campus for general careers advice.

unisa.edu.au/careers

Dr Tahnee Denning is enjoying national attention following a discovery made while completing her studies and research at UniSA. Investigating the oral absorption of drugs in the body, she noticed that the clay materials she was using were attracting fat droplets and soaking them under mimicked gut conditions.

"This behaviour immediately signalled we could be onto something significant – potentially a cure for obesity."

Tahnee's research career has taken her around the world, from Denmark to Belgium, and now to the United States.

"You don't have to be on the frontline of health care to help patients. I love knowing that my research could contribute towards smarter and more effective medicines."

Dr Tahnee Denning / **B. Pharmacy (Honours), B. Pharmaceutical Science and Doctor of Philosophy (PhD)** / **Postdoctoral Researcher, University of Kansas** / **Endeavour Postgraduate Scholarship recipient**

PRACTICAL LEARNING

UniSA offers over 200 world-class degrees across a wide range of discipline areas. You will learn in a highly practical environment. Take the opportunity to complete an internship or placement during your studies, learning from experts in a real-world setting. Build your networks and graduate career-ready with the skills required of tomorrow's professionals.

TOP RANKING TEACHERS

Make your study experience relevant and learn from highly qualified academics and industry professionals. In fact, UniSA is Australia's best young university for teaching quality (2018 *THE Young University Rankings*).

WORLD-CLASS FACILITIES

Study in modern, purpose-built facilities across all six UniSA campuses. Learn with the latest industry-standard tools and technologies that will take you from the classroom into the workplace. This includes state-of-the-art laboratories, collaborative learning areas, creative studios, workshops and simulation spaces.

**No.1 IN SA FOR
EMPLOYER
SATISFACTION**

*QILT: 2018 Employer Satisfaction
Survey, Overall Satisfaction
Indicator – National Report*

RISING SUN PICTURES

"UniSA graduates are overall passionate and engaged learners, who can successfully adapt to different clinical environments and cultures while still putting theory into practice. Not only can they learn a specific skill set, but have the ability to think innovatively and question the perceived norms."

Juanita Ielasi | General Manager,
Calvary Wakefield Hospital and
Calvary Rehabilitation Hospital

POWERFUL PARTNERSHIPS

We collaborate with over 2,500 companies worldwide to bring our students placement, project, research and work opportunities. Connect with industry professionals during your studies and benefit from curriculum informed by the latest industry practices.

REAL RESEARCH

Our research is innovative and inspired by challenges. We produce new knowledge that provides solutions to industry, businesses and the wider community. Explore cutting-edge insights in your chosen degree, influenced by our world-class research outcomes.

GETTING TO CAMPUS

Jump on the tram

Take advantage of the new city tram service operating along North Terrace for a convenient ride between City East and City West campuses or stop at other destinations along the way including the new Royal Adelaide Hospital and the UniSA Cancer Research Institute. Visit the Adelaide Metro website for more information.

adelaidemetro.com.au

Student Lounge @ City East

Mawson Lakes Campus

Admissions information

NATIONAL POLICE CERTIFICATE AND DEPARTMENT FOR HUMAN SERVICES CHILD-RELATED CLEARANCE

All students in the Division of Health Sciences who, as part of their program, undertake activities where interaction with patients/the public is required, such as in field or clinical placements/visits and in University clinics and gyms, must demonstrate that they have a current National Police Certificate (NPC) through SAPOL (or their home state police service) and a current Department of Human Services (DHS) Child-Related Clearance, which is valid for the duration of the program. The National Police Check will list disclosable court outcomes that may prevent clinical placement involvement.

STUDENT REGISTRATION

All students enrolled in a program leading to professional registration must be registered with the relevant national board. The student registration process is undertaken by the University to the Australian Health Practitioner Regulation Agency (AHPRA) after enrolment. No fees apply.

IMMUNISATION REQUIREMENTS

In order to progress to clinical placement you must be screened and provide evidence of your immunisation status. Immunisation is a mandatory requirement across all healthcare placement providers. Non-compliance with the Health Care Workers Immunisation Policy Directive will prevent you from progressing to a placement. Additional requirements may apply.

UNDERGRADUATE

Your tertiary learning and career starts with undergraduate study.

To explore our 200+ degrees, visit unisa.edu.au/study

To learn more about how to apply, visit unisa.edu.au/apply

Prerequisites: none

Assumed knowledge: none

Become a Registered Nurse and make a positive contribution to the healthcare sector. Develop the knowledge, clinical skills and attitudes needed for professional practice in a range of settings. Benefit from a strong focus on theory and practical experience, including access to our unique clinician-led, hospital and health service on campus, which includes authentic hospital wards, clinical units and community areas. Be prepared to meet healthcare delivery requirements for the 21st century and respond to Australian

and international healthcare priorities and trends. Focus on four key areas of nursing practice during your studies, including collaborative and therapeutic practice, critical thinking and analysis, professional practice, and provision and coordination of care. Learn about cultural competence, evidence-based practice, mental health, primary health, professional communication, and safety and quality. Complete over 1,000 placement hours starting in your first year of study. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

Note: Students will be required to hold a current National Police Certificate and Department of Human Services Child-Related Clearance. See admissions information. Students must meet the Fitness to Practice in Clinical Placements' requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS

Registered nurses can work in a variety of healthcare settings, including:

Hospitals / primary health and community support services / aged and rehabilitative care / schools / home care services / drug and alcohol treatment centres / community health organisations

Assumed knowledge: none

Prepare for a highly rewarding career in maternity care and women's health as a Registered Midwife. Develop the knowledge and practical skills to support women through pregnancy, labour, birth and postnatal care. Benefit from a strong focus on theory and hands-on experience to prepare you for clinical practice. As an

international profession with different birthing practices all over the world, you will learn how political, socio-cultural, economic and technological factors influence midwifery practice. Learn in our clinician-led, authentic simulated hospital and health service on campus, which incorporates a midwifery and paediatric unit, and technologies such as a birthing manikin. Complete comprehensive placement hours and be actively involved in 30 births during your studies, along with the pre and post-birth care of at least 100 women, and following 15 women through continuity of care experiences. Graduate with the academic requirements needed for registration as a Midwife with the Nursing and Midwifery Board of Australia (NMBA).

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10. Students must meet the Fitness to Practice in Clinical Placements' requirements. For more information, visit unisa.edu.au/health/ftp

Note 2: This program has a pathway to enable midwives who have not practised for between five and ten years to fulfil the re-entry to practice requirements (eligibility criteria applies).

CAREERS

Midwives can work in a variety of healthcare settings, including:

Hospitals / community services / rural and remote healthcare / home-based services / health agencies / private consulting

YOU MIGHT ALSO LIKE

Study South Australia's only degree in pharmacy and prepare for a career as a Registered Pharmacist. Be equipped to prepare, supply and monitor medicines across a variety of settings including community pharmacy, hospitals, aged care, military services, rural care, and more. Study a degree accredited by the Australian Pharmacy Council and benefit from a university with over 50 years' experience in delivering pharmacy education. Focus on key study areas such as biological, chemical and pharmaceutical sciences; ethical pharmacy practice; trialling and regulation of medicines; drug information and advice; preparing, studying and monitoring medicines and their use; and pharmaceutical research methods. Access state-of-the-art learning spaces, including the new pharmacy practice suite

and purpose-built laboratories in the \$247 million UniSA Cancer Research Institute. Complete field placements in community and hospital-based pharmacy settings. Following graduation, you will satisfy the academic requirements for registration as a Pharmacist with the Pharmacy Board of Australia (PBA), which is also determined by a period of supervised training. Enhance your career by exploring the option of a double degree with the Bachelor of Pharmaceutical Science – *academic criteria applies*.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

Graduate with honours in just four years and prepare for a career as a medical scientist focusing on diagnostic pathology or research. Learn to play a vital role in the welfare of patients by supporting clinicians in the diagnosis, management and treatment of disease, conducting research into causes and cures of disease, and developing improved methods for disease detection. Build fundamental knowledge in biochemistry, microbiology, immunology, molecular pathology, haematology and histopathology. Develop the skills to perform a range of diagnostic tests including cross-matching for blood transfusions; identifying the organisms that cause infections and food poisoning; screening for cancer cells; and detecting genes responsible for disease. Gain valuable practical experience in our on-campus laboratories and through field placements across areas of public and private pathology. As part of your honours, you can tailor your studies with additional courses in research development or an advanced clinical placement. Graduate with a degree accredited by the Australian Institute of Medical Scientists (AIMS). and be eligible for membership. You can also apply for membership with the Australasian Association of Clinical Biochemists (AACB) and Australian Society for Microbiology (ASM).

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

 Intakes: Feb	

PROGRAM CODE: **IHBY** | SATAC CODE: **4BH008**

Prerequisites: none

Assumed knowledge: none

Designed for students who have completed a relevant bachelor degree, this one-year honours program is focused on furthering your research skills in biomedical, pharmaceutical, biological and chemical sciences. Contribute to the development of new knowledge in a chosen specialisation area. Explore the latest research methodologies, learn to prepare research proposals, and increase your awareness of ethical research practice. Complete an advanced research project during your studies, which demonstrates your ability to collect data, prepare a thesis, reference, publish and present your findings. Work closely with world-class researchers at the UniSA Cancer Research Institute and the Centre for Cancer Biology, an alliance between UniSA and SA Pathology. Continue your learning and research through additional postgraduate studies.

CAREERS

Laboratory research assistants and technicians can work in a variety of specialised roles in settings such as:

Research laboratories / research institutes / pharmaceutical companies / biopharmaceutical companies / hospital laboratories

ENTRY REQUIREMENTS

- This program is available to students who have successfully completed a relevant bachelor degree in biomedical, pharmaceutical, nutrition or natural sciences or equivalent qualification, and have met the required Grade Point Average (GPA).
- After applying through SATAC, students will receive a notification to contact the Program Director to discuss program requirements, possible supervisors and potential research projects.

Prerequisites: none

Assumed knowledge: SACE Stage 2 Biology, SACE Stage 2 Chemistry

Study South Australia's only degree in podiatry. Prepare for a career as a podiatrist, responsible for diagnosing and treating disorders of the foot, ankle and lower leg. Learn to provide quality care for sports injuries, orthotics, children, and foot and heel pain. Develop fundamental knowledge through core courses in human anatomy, human physiology, pain management, pharmacology and biomechanics. Gain valuable real-world experience by completing 1,000 clinical placement hours. Further develop your knowledge and expertise in our on-campus podiatry clinics under the supervision of practising clinicians, as well as our Manufacturing Lab where you will learn how to make orthotics. Graduate with the eligibility to apply for registration as a Podiatrist with the Podiatry Board of Australia.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. The University will also process the required registration with AHPRA. See page 10.

Note 2: High achieving students may be considered for the Bachelor of Podiatry (Honours) program in their third year of study.

CAREERS

Registered podiatrists can work in a variety of settings, including:

Private practice / clinics / hospitals / community health centres / aged care / sports clinics / occupational health services

YOU MIGHT ALSO LIKE

- Bachelor of Physiotherapy (Honours)

Podiatry Practice 400

Clinical Biomechanics 401
Podiatry Practice 401
Podiatry Research Project 401

"I have had a variety of placement opportunities throughout my degree. I was able to travel to Kiribati, a small Pacific island, regional and rural settings such as APY Lands, Broken Hill, Whyalla, Yorke Peninsula, Wilcannia, Tibbooburra, along with various metropolitan hospitals. I also enjoyed working in the UniSA podiatry clinics because of the close feedback and support provided by the clinical staff, and the chance to work alongside my fellow peers."

**Thomas Fitzpatrick,
podiatry student**

"An interest in how the human body works and what motivates people to overcome obstacles and challenges led me to study occupational therapy. It's really rewarding to see people achieve their goals and improve their quality of life. I love working in a paediatric occupational therapy clinic, Motivate Kids, where I use play techniques as a form of therapy."

**Natalie Waterman,
occupational
therapy graduate**

SACE Stage 2 Physics

Graduate with honours and prepare for a career as a registered physiotherapist in just four years. Develop the capability to assess, treat and prevent human movement disorders, enabling people to lead more functional lives, as a first contact professional or a valued member of an allied healthcare team. Focus on various areas of practice and treatments across sports, musculoskeletal, cardiorespiratory and neurological conditions. Study courses in human anatomy, human physiology, physiotherapy studies,

pharmacology, exercise physiology, and pain sciences. Learn practical skills through clinical placements in real-world settings, including our on-campus physiotherapy clinics. Complete either a research stream focusing on methods and ethics, or a professional stream of advanced coursework from third year. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a Physiotherapist with the Physiotherapy Board of Australia. You will also be eligible for membership with the Australian Physiotherapy Association.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. The University will also process the required registration with AHPRA. See page 10.

Note 2: The Master of Physiotherapy (Graduate Entry) is available for students from other health-related bachelor degrees seeking a pathway into physiotherapy. See page 26.

Prerequisites: none

Assumed knowledge: none

Study South Australia's only medical radiation science degree and prepare for a career as a qualified diagnostic radiographer. Learn how to produce high quality medical images with various technologies and types of radiation to monitor and diagnose injury and illness. Be prepared to work across general radiography practice such as X-rays, fluoroscopy, theatre or emergency imaging. Focus on core courses in anatomy, physiology, pathology and radiation physics during your studies. Practise in fully functioning X-ray suites located on campus, equipped with the latest tools and technologies. Apply concepts of professional practice through 1,750+ clinical placement hours, which begin in your second year of study. Participate in regular pre-clinical preparation workshops in your final year to further extend your skills as you move into advanced areas of practice. After graduation you will be eligible to apply for general registration with the Medical Radiation Practice Board of Australia (MRPBA).

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

Note 2: High achieving students may be considered for the Bachelor of Medical Radiation Science (Honours) (Medical Imaging) program in third year.

CAREERS

Medical imaging professionals can work in a variety of settings, including:

Hospitals / private practice / defence / research and development

You may also gain employment in specialist areas such as:

Ultrasound / interventional imaging / magnetic resonance imaging / computed tomography

“I chose to study medical imaging because I could follow my passion for sciences and technology but also work closely with people. It is amazing to think that we are utilising radiation that is undetectable to the human eye to create images that can possibly save someone’s life.”

Jenny Han, medical radiation science (medical imaging) student

Study South Australia’s only medical radiation science degree and prepare for a career as a qualified radiation therapist. Learn to work alongside radiation oncologists and medical physicians to plan and deliver individual radiation treatments to patients. Develop the skills to use dedicated radiotherapy treatment planning software, to model doses and operate radiation equipment. Focus on core courses in anatomy, physiology, pathology and radiation physics during your studies. Gain practical experience in our purpose-built, state-of-the-art Virtual Environment Radiotherapy Training (VERT) suite on campus and complete 1,800 clinical placement hours starting in your second year of study. Take part in regular pre-clinical preparation workshops in your final year to further extend your skills as you move into advanced areas of practice. After graduation, you will be eligible to apply for general registration with the Medical Radiation Practice Board of Australia (MRPBA).

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

Study the only double degree of its kind in South Australia and develop your expertise in the areas of exercise and sport science, psychology, counselling, and behavioural research. Study core courses in human anatomy, exercise physiology, human movement and nutrition; and explore the relationship between psychology and physical activity. Develop the skills to provide counselling to athletes, deliver rehabilitation services, and enhance the physical and mental wellbeing of individuals, groups and communities. Learn in state-of-the-art facilities on campus including the High Performance Sport Centre, Exercise Physiology Clinic, Environmental Chamber, Exercise Physiology Lab, Biomechanics Lab and a fully-equipped Health and Fitness Centre. Complete practical placements across a range of industry settings including schools and sporting clubs. Graduate with a degree accredited by Exercise and Sport Science Australia (ESSA) and be eligible for registration as an Accredited Exercise Scientist through ESSA. This degree is also accredited by the Australian Psychology Accreditation Council (APAC) and graduates can apply for fourth year psychology programs, as well as level 1 membership with the Australian Counselling Association – *criteria applies*.

Note 1: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS) and complete a one-day Child Safe Environments course. Some placements may also require students to have a current driver's licence, National Police Check, Responding to Abuse and Neglect training, or a recognised First Aid Certificate.

Note 2: To become a professional practising or research psychologist, students must continue their studies through a one year Bachelor of Psychology (Honours) and then a two-year Master of Psychology (Clinical) or Doctor of Philosophy (PhD).

Unisa College pathways: Foundation Studies or Diploma in Health

Prerequisites: none

Assumed knowledge: none

Develop your understanding of the impact that exercise and physical activity has on people – biologically, psychologically and socially. Tailor your degree to your interests and career goals through primary streams in Health and Physical Education or Exercise and Sport Science with the ability to choose a secondary study stream in a wide range of other study areas. Build strong foundational knowledge in core areas such as human anatomy and physiology; the sociology of health and physical activity; growth and motor development; and group and team psychology. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics, and motor learning. Graduate with the skills to complete client screenings, conduct laboratory and field testing, design and implement exercise and training programs, and interpret scientific research. Learn in state-of-the-art facilities such as the High Performance and Exercise Physiology Clinic, Environmental Chamber, and fully-equipped Health and Fitness Centre located on campus. Complete an industry placement during your studies. Package this degree with a Master of Teaching (Secondary) to become a health and physical education teacher.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

CAREERS

Depending on your course selection, your career options can include:

Sport development officer / nutrition adviser / sports coach / outdoor education instructor / recreation activities coordinator / teacher (with further study)

Study a double degree combining your passion for health and exercise with nutrition. Become an expert in nutrition and food sciences and be ready to improve the health, fitness and overall wellbeing of individuals and communities. Study core courses in human anatomy, physiology, health and physical activity, and fitness and lifestyle management. Tailor your studies by choosing specialist courses that interest you most, covering areas such as sports coaching, outdoor education and health promotion. Learn in modern, purpose-built facilities on campus including a High Performance Sport Centre, Exercise Physiology Clinic, Environmental Chamber, and a dedicated nutrition and food sciences hub. Gain valuable practical experience through an industry placement. Graduate with the ability to apply for registration with the Nutrition Society of Australia as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of experience. You can also go on to study the Master of Teaching (Secondary) to become a health and physical education teacher.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

Prerequisites: none

Assumed knowledge: none

Study South Australia's only double degree in human movement and psychological science. Develop a holistic understanding of the impact that physical activity has on human biology, psychology and social development. Explore core areas such as human anatomy, growth and motor development, exercise physiology, nutrition, and group and team psychology, along with fitness and lifestyle management, biomechanics, cognitive psychology, counselling foundations and developmental psychology. Learn in state-of-the-art facilities on campus including the Exercise Physiology Clinic, Environmental Chamber, Exercise Physiology Lab, Biomechanics Lab and a fully-equipped Health and Fitness Centre. Gain valuable practical experience by completing practical work placements during your studies. This degree is accredited by the Australian Psychology Accreditation Council (APAC) and graduates can also apply for fourth year psychology programs, as well as level 1 membership with the Australian Counselling Association – criteria applies.

Note 1: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS) and complete a one-day Child Safe Environments course. Some placements may also require students to have a current driver's licence, National Police Check, Responding to Abuse and Neglect training, or a recognised First Aid Certificate.

Note 2: To become a professional practising or research psychologist, students must continue their studies through a one-year Bachelor of Psychology (Honours) and then a two-year Master of Psychology (Clinical) or Doctor of Philosophy (PhD).

Prerequisites: none

Assumed knowledge: none

Package a degree in human movement with postgraduate studies in education to become a secondary health and physical education teacher. Build strong foundational knowledge in core areas such as human anatomy and physiology; the sociology of health and physical activity; growth and motor development; and group and team psychology. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics, and motor

learning. Tailor your studies through a wide range of elective courses covering topics such as outdoor education, sports coaching and health promotion. Focus on adolescent learning with the ability to teach health and physical education to Year 12 and science up to Year 10. Depending on your final year electives, you may also be qualified to teach Outdoor Education to Year 12 and key Learning Areas within the Australian Curriculum including English, mathematics, humanities and social sciences, or languages. Benefit from highly practical learning, completing supervised placements totalling more than 60 days across both programs in a range of educational settings.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10. Additional requirements apply for the Master of Teaching (Secondary), visit unisa.edu.au/eds-requirements

Note 2: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

CAREERS

Health and physical education teacher (up to Year 12) / science teacher (up to Year 10) / sport development officer / outdoor education instructor / sports coach / recreation activities coordinator

Study South Australia's only degree that will qualify you as an accredited exercise physiologist in just four years. Discover how to use exercise management to prevent disease onset and treat a range of cardiovascular, respiratory, metabolic, neurologic, musculoskeletal and cancer conditions. Study core courses in anatomy, physiology, biomechanics, motor learning and control, exercise and sport psychology, and exercise programming and nutrition. You will also complete specialised training in pathophysiology, clinical exercise assessment and prescription, and occupational rehabilitation. Learn in our state-of-the-art exercise physiology, biomechanics and anatomy laboratories. Provide clinical services in our High Performance Sport Centre and Exercise Physiology Clinic located on campus. Complete more than 600 placement hours across a range of clinical settings. Graduate with honours and a degree accredited by Exercise and Sport Science Australia (ESSA). You will also be eligible to apply to ESSA for recognition as an Accredited Exercise Physiologist and Accredited Exercise Scientist.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

CAREERS

Accredited exercise physiologists can work in a variety of settings, including:

Hospitals / general practices / private clinics / health and fitness facilities / workplace and population health services / exercise, sports and biomedical science research

“While you may learn theory in the classroom, it is another thing to see it in practice. I was able to go on site visits to Golden North ice cream, Ingham’s, National Foods, and the West End Brewery, as well as complete a work placement at Rymill Winery in the Coonawarra. Through these experiences I was able to see how an actual production plant is operated.”

Scott Woollett, nutrition and food sciences graduate

Prerequisites: none

Assumed knowledge: none

Launch a career in the growing food and nutrition industry. Learn to develop innovative foods; promote and manage diets and lifestyles; and conduct meaningful research for enhanced wellbeing. Explore the fundamentals of both nutrition and food sciences in your first two years of study then select one as a formal study stream in your third year, which aligns to your interests and career goals. Develop a strong body of knowledge in biology, food chemistry, microbiology, physiology and consumer education. Study in a dedicated learning hub on campus, including a purpose-built Sensory Laboratory, Microbiology Laboratory and Commercial Kitchen. Benefit from our strong links with the food industry and community, and attend field trips to some of South Australia's major nutrition and food providers. Graduates are eligible to apply for professional membership with the Australian Institute of Food Science and Technology (AIFST). Graduates are also eligible to apply to the Nutrition Society of Australia for registration as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of experience.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

LANGUAGES**Diploma in Languages**

unisa.edu.au/languages

Explore your interests or advance your career by learning another language. Study the Diploma in Languages alongside your undergraduate degree or as a standalone postgraduate qualification. Learn French, Italian, Japanese or English (as an Additional Language). Access the Multimedia Languages Lab at Magill Campus, where you can connect with native speakers from around the world in real-time. Develop your proficiency in listening, speaking, reading and writing in your chosen language, along with your understanding of the related culture and society. Take the opportunity to study in the country of your chosen language through our exchange or in-country study programs.

ENTRY REQUIREMENTS

- This program is open to all students who have completed or are enrolled in a bachelor degree at the University of South Australia or any other Australian university.
- This program is also open to students who have completed or are currently enrolled in a bachelor or master degree, or equivalent qualification, from an approved higher education institution outside of Australia.
- For postgraduate students, this program can be completed as a standalone qualification.

PHYSIOTHERAPY AND OCCUPATIONAL THERAPY**Master of Physiotherapy (Graduate Entry)**

unisa.edu.au/physiotherapy

 City East Campus	 Intakes: Feb
 On-campus	 Commonwealth supported*
 2 years full-time	

PROGRAM CODE: **IMPE** | SATAC CODE: **4CM106**

*see page 36 for more information

Designed for students who have completed a health-related bachelor's degree, this program will provide you with the requirements to practise as a registered physiotherapist in just two extra years of study. Develop the capability to assess, treat

and prevent human movement disorders, enabling people to lead more functional lives, as a first contact professional or a valued member of an allied healthcare team. Focus on various areas of practice and treatments across sports, musculoskeletal, cardiorespiratory and neurological conditions. Learn practical skills while on field placements in real-world settings, including our on-campus physiotherapy clinics. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a Physiotherapist with the Physiotherapy Board of Australia. You will also be eligible for membership with the Australian Physiotherapy Association.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. The University will also process the required registration with AHPRA. See page 10.

CAREERS

Registered physiotherapists can work in a variety of settings, including:

Private practice / clinics / sporting clubs / gyms / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities / women's health / paediatric services

ENTRY REQUIREMENTS

- Bachelor degree or higher from a recognised Australian or New Zealand higher education institution completed in the last ten years with a minimum Grade Point Average (GPA) of 5.5.
- Applicants must also have successfully completed set prerequisite courses. For more information, visit unisa.edu.au/physio-ge

YOU MIGHT ALSO LIKE

"This qualification encouraged me to think independently and pushed me beyond my comfort zone when treating a patient. My placement at West Adelaide Football Club gave me first-hand experience managing players with acute injuries and providing rehabilitation for them so they can return to play as soon, and safe, as possible. The teaching staff are also very experienced and dedicated to lifelong learning – it's been a very enriching experience."

Shi Hui Wong, advanced clinical physiotherapy (sports) graduate

Further your knowledge and expertise in clinical physiotherapy practice. Study a flexible qualification and choose a tailored stream in clinical neuroscience, occupational health and safety or paediatrics; or focus specifically on musculoskeletal or sports physiotherapy. You will complete core courses in evidence-based practice, advanced clinical theory and advanced clinical practice. Complete supervised placements in an environment tailored to your needs and be mentored by advanced clinicians in your specific area of practice. You can also engage with patients in our physiotherapy clinics located on campus. Benefit from flexible learning options with a blend of on-campus and online study and part-time options available. The Sports program is accredited by the Sports Professional Practice Standards Committee of the Australian Physiotherapy Association and graduates are eligible for titled membership with Sports Physiotherapy Australia. The Musculoskeletal program is accredited by the Australian Physiotherapy Association national group, Musculoskeletal Physiotherapy Australia, and graduates are eligible for titled membership.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

CAREERS

These programs are designed for registered physiotherapists seeking to further their knowledge and skills working in settings such as:

Amateur and elite sport / private practice / clinics / gyms / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities / women's health / paediatric services / research

ENTRY REQUIREMENTS

- Bachelor degree in physiotherapy, or equivalent entry-level qualification, from a recognised higher education institution; and
- A minimum of ten months full-time, or equivalent, physiotherapy practice in a relevant field following completion of the professional entry level qualification; and
- Met the eligibility requirements for registration as a physiotherapist, or limited registration under supervision, with AHPRA.

Advanced Physiotherapy Practice 2

Master of Occupational Therapy (Graduate Entry)

unisa.edu.au/occupational-therapy

City East Campus	Intakes: Feb
On-campus	Commonwealth supported*
2 years full-time	

PROGRAM CODE: **IMOG** | SATAC CODE: **4CM107**

*see page 36 for more information

Designed for students who have completed a health-related bachelor's degree, this program will provide you with the requirements to practise as a registered occupational therapist in just two extra years of study. Learn how to assist people in managing constraints caused by injury or illness, as well as emotional, developmental, environmental, societal, age-related and psychological limitations. Benefit from highly practical learning with over 1,000 placement hours. Develop strong foundational knowledge in occupational science, occupational therapy practice and human neuroscience, along with critical communication and problem-solving skills. Graduate with a qualification accredited by the Occupational Therapy Council (Australia & New Zealand) Ltd. The program is also approved by the World Federation of Occupational Therapists and the Occupational Therapy Board of Australia for professional registration as an Occupational Therapist in Australia.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. The University will also process the required registration with AHPRA. See page 10.

CAREERS

Occupational therapists can work in a variety of settings, including:

Hospitals / private practice / community health services / rehabilitation centres / aged care facilities / community services / home care services / local council services / government departments / schools

ENTRY REQUIREMENTS

- Bachelor degree or higher from a recognised higher education institution completed in the last ten years with a minimum Grade Point Average (GPA) of 5.
- Applicants must also have successfully completed set prerequisite courses. For more information, visit unisa.edu.au/occupational-therapy

YOU MIGHT ALSO LIKE

MEDICAL RADIATION SCIENCE

Master of Medical Sonography

Nested with:

- Graduate Diploma in Medical Sonography (IGSO)

unisa.edu.au/medical-radiation

 City East Campus

 Intakes: Feb, Jul

 Online

 Commonwealth supported*

 1.5 years full-time

 part-time study available

PROGRAM CODE: **IMSO** | SATAC CODE: **4CM049**

*see page 36 for more information

Designed for medical radiation and other allied health professionals, this program will prepare you for a career as a qualified medical sonographer or allow you to upskill if you are already a qualified medical sonographer. Choose to study areas of interest including fetal echocardiography, obstetrics, advanced musculoskeletal sonography, management and ethics, or research. Acquire critical thinking and analytical skills for effective practice and foundational research skills. Develop advanced technical skills and a strong understanding of health science, physics, anatomy and pathology, and pursue a clinical project or research pathway in your final year. Complete 2,200 hours of supervised ultrasound scanning and clinical examinations during your studies. Benefit from flexible learning through online and part-time study. Graduates are eligible to apply for full professional accreditation with the Australian Sonographer Accreditation Registry (ASAR) for General Sonography, with evidence of scanning experience required.

CAREERS

Qualified medical sonographers can work in a variety of settings, including:

Hospitals / private practice / government agencies / education

ENTRY REQUIREMENTS

- This program is open to qualified medical radiation professionals with a recognised bachelor degree or a Graduate Diploma in Medical Sonography; accredited sonographers; or applicants with a recognised bachelor degree or higher with a minimum Grade Point Average (GPA) of 5.
- Additional entry requirements apply, including set prerequisite courses which must have been studied in the last ten years. For more information, visit unisa.edu.au/sonography

YOU MIGHT ALSO LIKE

- Graduate Certificate in Breast Imaging
- Graduate Diploma in Medical Sonography
- Master of Health Services Management

LEVEL 3

RESEARCH PATHWAY

Qualitative Design for Nursing, Midwifery and Health Research OR Quantitative Design for Nursing, Midwifery and Health Research
AND Minor Thesis 1
Health Science Minor Thesis 2

PROJECT PATHWAY

Minor Thesis 1 OR Allied Health Research
Evidence Translation
Plus 13.5 Units of electives chosen from the following:

- Fetal Echocardiography
- Advanced Musculoskeletal Sonography
- Health Ethics
- Research for Advancing Nursing, Midwifery and Health Care
- Health Science Advanced Skill Project
- Health Science Advanced or Extended Practice Report
- Breast Sonography
- Managing Employee Performance and Rewards
- Advanced Obstetric and Gynaecologic Sonography
- Qualitative Design for Nursing, Midwifery and Health Research
- Quantitative Design for Nursing, Midwifery and Health Research

This program is only available part-time and through online delivery. Theory examinations can be completed at external exam centres; however all students are required to attend clinical assessments on campus. Applicants are also responsible for organising their own training position in an ultrasound department in order to complete the required scanning experience.

Graduate Certificate in Breast Imaging

unisa.edu.au/medical-radiation

 City East Campus

 Intakes: Feb, Jul

 Online

 Commonwealth supported*

 0.5 years full-time

 part-time study available

PROGRAM CODE: **ICBR** | SATAC CODE: **4GC039**

*see page 36 for more information

Study the only accredited program of its type in Australia and New Zealand. Extend your qualifications as a diagnostic radiographer or other relevant health professional with specialist knowledge and skills in breast imaging and ultrasound. Focus on core courses in sonography physics and instrumentation, mammography, breast sonography and professional issues for sonographers. Complete supervised training during your studies, complemented by in-depth theoretical learning and a professional workshop in mammography delivered by Breastscreens SA. Enjoy flexible learning with the program offered online and part-time over a 12-month period. Graduates are eligible to apply for full professional accreditation with the Australian Sonographer Accreditation Registry (ASAR) for Breast Sonography, with evidence of scanning experience required.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

CAREERS

Breast sonographer and mammographers can work in hospital settings and private practice.

ENTRY REQUIREMENTS

- This program is open to qualified medical radiation professionals with a recognised bachelor degree in medical radiation or equivalent qualification; or applicants with a recognised relevant allied health degree, or Graduate Certificate in Medical Sonography or equivalent qualification, or eligibility for accreditation as a diagnostic radiographer with the Australian Health Practitioner Regulation Agency (AHPRA).

Graduate Certificate in Nursing (Bridging and Re-entry)

unisa.edu.au/nursing-midwifery

 City East Campus	 Intakes: Feb, Sept
 On-campus	 A\$13,500* indicative 2019
 0.5 years full-time	

PROGRAM CODE: **ICNB** | SATAC CODE: **4GC087**

*see page 36 for more information

Designed for previously registered nurses in Australia, this program will help you develop the knowledge and skills to re-enter the workforce. Gain an in-depth understanding of the Australian healthcare system, along with key legal and ethical principles relating to nursing, mental health, Aboriginal health, acute aged care and nursing research. Learn about the development of professional and inter-professional communication and relationships. Explore the life span approach to physical examination, primary healthcare and disease prevention, and caring for clients with complex conditions. Access our unique clinician-led, hospital and health service on campus, which includes authentic hospital wards, clinical units and community areas. Gain valuable practical experience by completing a six-week supervised placement in a clinical setting. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10. Students must meet the Fitness to Practice in Clinical Placements' requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS

Registered nurses can work in a variety of healthcare settings, including:

Hospitals / clinics / primary health services / community support services / aged care / rehabilitative care / schools / home care / drug and alcohol treatment centres / community health organisations / palliative care / youth services

ENTRY REQUIREMENTS

- Nurses educated in Australia need to provide a letter of approval from the Australian Health Practitioner Regulation Agency (AHPRA) on behalf of the Nursing and Midwifery Board of Australia (NMBA) to undertake a NMBA approved bridging program. The referral must be current for the duration of the program and be obtained by the applicant.
- For more information, visit unisa.edu.au/bridging-reentry

**see page 36 for more information*

Extend your nursing qualifications to the professional level required for endorsement as a nurse practitioner. Learn advanced knowledge and skills in health assessment, diagnosis, investigative procedures, and prescribing and evaluating treatments and medications. You will also build competencies in designing research relevant to the role, context and client populations. Explore the legal, ethical and professional issues associated with the role of a nurse practitioner in both autonomous and multi-disciplinary practice. Complete internship courses where you will work collaboratively with a Clinical Support Team at your current workplace to assess your clinical competency. Benefit from flexible learning through a blend of on-campus and online delivery, along with part-time study. Graduate with a qualification accredited by the Australian Nursing and Midwifery Accreditation Council and approved

by the Nursing and Midwifery Board of Australia (NMBA). You will also satisfy the academic requirements for endorsement as a Nurse Practitioner with the NMBA.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10. Students must meet the Fitness to Practice in Clinical Placements' requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS

Qualified nurse practitioners can work across both hospital and community settings.

ENTRY REQUIREMENTS

- Applicants must hold a current general registration as a Registered Nurse with the NMBA;
- Hold a postgraduate qualification from a recognised higher education institution in a relevant clinical field; and
- Completed a minimum four years' full-time equivalent experience as a Registered Nurse, including two years' full-time equivalent as a Registered Nurse in a clinical field and two years' full-time equivalent at an advanced practice level in the same clinical field.
- Additional criteria applies. For more information, visit unisa.edu.au/nurse-practitioner

 A\$14,350* indicative 2019

 0.5 years full-time

 *part-time study available*

PROGRAM CODE: **ICHP** | SATAC CODE: **4GC081**

**see page 36 for more information*

Designed for healthcare professionals seeking to further their qualifications, this program will provide you with the non-clinical knowledge and skills to provide clinical teaching in a range of professional health or education settings. Explore the latest educational theories and practices, as well as various types of educational programs and assessments for the development of contemporary health workers. Develop the ability to plan and use a range of educational strategies to facilitate learning in both clinical and other education settings. Benefit from flexible learning with the program delivered online and through part-time study over a 12-month period.

CAREERS

Health professionals specialising in clinical education can work in:

Hospitals / aged care facilities / disability services / consultancy / public health departments / government / healthcare foundations

ENTRY REQUIREMENTS

- Bachelor degree in a health science area from a recognised higher education institution or equivalent qualification; and
- Minimum one year of full-time, or equivalent, work/professional/clinical experience in a health science related area, following completion of the undergraduate degree.

YOU MIGHT ALSO LIKE

- Graduate Certificate in Population Health Practice

FURTHER STUDY

- Master of Research (Population Health Practice)
- Master of Health Services Management
- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE

FIRST YEAR

Teaching and Learning Strategies for Health Professional Education
Educational Assessment for Health Professionals
Foundations of Learning and Teaching for Health Professionals

Students may complete their studies online or on-campus. This program is delivered through part-time study only.

PROGRAM CODE: **IMHM** | SATAC CODE: **4CM211**

1.5 years with Advanced Standing

PROGRAM CODE: **IMHM** | SATAC CODE: **4CM215**

**see page 36 for more information*

Graduate with a unique postgraduate qualification that will prepare you for a wide variety of leadership and management positions across the healthcare and ageing sectors. Study a blend of health and business related courses with a contemporary health management focus. Develop critical skills in management, administration, leadership, communication, project management and financial management. Build your knowledge in providing overall strategic direction and management to services and organisations; developing, implementing and monitoring procedures, policies and standards for medical, allied health and administrative staff; coordinating and administering health and welfare programs and clinical services; and controlling administrative operations such as reporting and budget planning. Gain valuable practical experience by completing a major project targeting a real-world health management issue. Benefit from a curriculum influenced by world-class business and management research.

CAREERS

Clinical manager/ practice manager / aged care director / health and welfare services manager / medical administrator / hospital administrator / primary health organisation manager

ENTRY REQUIREMENTS

- Bachelor degree from a recognised higher education institution. Some applicants may be eligible for Advanced Standing and can complete the program in 1.5 years full-time study or equivalent part-time study.

FURTHER STUDY

- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE

FIRST YEAR

Business Analytics and the Data-driven Organisation
Managing Change
Foundations of Public Health Epidemiology
Workplace Health and Safety Management

Workplace Learning and Development
Responsible Leadership in Health
People, Leadership and Performance
Evaluation in Public and Community Health

SECOND YEAR

Service Management
Project Management for Business
Business Ethics
Accounting for Health Management

Performance Review and Health Economics
Health Ethics
Capstone in Health Services Management

Students may be required to undertake a combination of on-campus or online study. Students may be required to attend on-campus lectures, tutorials and practicals.

RESEARCH

Make a positive and lasting contribution to your field through a research degree.

Master of Research (Population Health Practice)

unisa.edu.au/health-science

Masters by Research | PROGRAM CODE: **IMPU**

Complete a body of original research focusing on population health under the supervision of experienced researchers, and in collaboration with industry partners.

"I love interacting with incredibly smart people working in academia and the pharmaceutical industry, and we all have the common goal of improving patient health and quality of life. My research has allowed me to travel around the world, and focuses on creating new tablet and capsule formulations to help improve the use of various drugs that are either currently on the market or in drug discovery pipelines."

Tahnee Denning, Doctor of Philosophy (PhD)

Investigate the patterns, causes and effects of health and disease in a defined population group. Learn alongside active researchers who are involved in real-world population and public health initiatives. Benefit from a strong focus on authentic, enquiry-based learning in order to develop new knowledge that will have a meaningful impact on the health industry and wider community. Present your research findings through publications and conference presentations. Take the opportunity to work with world-class researchers from the Centre for Population Health Research (CPHR) based at the South Australian Health and Medical Research Institute (SAMHRI); the Alliance for Research in Exercise, Nutrition and Activity (ARENA); the International Centre for Allied Health Evidence (iCAHE); and Body in Mind (BiM).

ENTRY REQUIREMENTS

Applicants must satisfy the entry requirements set by the University's Research Degrees Committee. You may be eligible for admission if you have an:

- Honours degree or a bachelor degree with honours; or
- Relevant bachelor degree or equivalent qualification of at least three years with a minimum credit average; or
- Appropriate master's degree; or
- No tertiary qualifications, but can demonstrate research capabilities through evidence of professional work experience in the field of proposed study and by relevant quality publications.

FURTHER STUDY

- Doctor of Philosophy (PhD)

Masters by Research Doctor of Philosophy

DIVISION OF HEALTH SCIENCES

- School of Health Sciences
- School of Nursing and Midwifery
- School of Pharmacy and Medical Sciences

Masters by Research | PROGRAM CODE: **IMHC**

Doctor of Philosophy | PROGRAM CODE: **IPHD**

Achieve research-based outcomes aimed at improving the health and wellbeing of individuals, groups and communities. Be mentored and supervised by some of Australia's leading scientists in world-class facilities including the \$247 million UniSA Cancer Research Institute. Connect with our health and medical researchers, who are focused on preventing illness, improving

health systems and services, creating more effective therapies, and advancing health equality. Choose to focus on a discipline that interests you most including areas such as cell biology, vaccine development, allied health, nutrition, neuroscience, epidemiology, therapeutics and more.

DISCIPLINE AREAS

- Aboriginal Health
- Cancer
- Healthy Lifestyles
- Neuroscience and Mental Health
- Pharmaceuticals
- Population Health

For more information on disciplines and areas of research, visit unisa.edu.au/health/research

ENTRY REQUIREMENTS

Masters by Research

- Bachelor degree of at least three years in a relevant discipline with a minimum credit average; or
- Honours 1, Honours 2, Honours 3 or an appropriate master's degree or equivalent qualification; or
- No tertiary qualifications (some discipline areas only) with demonstration of research capabilities via assessment of relevant quality publications and professional experience.

Doctor of Philosophy (PhD)

- Honours 1, Honours 2A, or an appropriate master's degree or equivalent qualification.

Alternative entry

- Other postgraduate and undergraduate degrees may be considered for admission into the Masters by Research or Doctor of Philosophy (PhD) with demonstration of research capabilities via assessment of relevant quality publications and professional experience.

Eligibility for entry into a research degree is also subject to an assessment of the proposed research, supervisor availability, and any University or research-specific eligibility requirements.

Minimum entry requirements for undergraduate bachelor and associate degrees

APPLYING WITH YEAR 12

Applicants are required to have successfully completed the South Australian Certificate of Education (SACE) with:

- a competitive Selection Rank (ATAR); AND
- the fulfilment of the program's prerequisite requirements (where applicable).

Applicants may also be eligible to compete for entry if they have completed the program's prerequisite requirements and have completed one of the following:

- an interstate or overseas qualification considered by the University as equivalent to SACE; or
- the International Baccalaureate Diploma with a minimum score of 24 points.

ADJUSTMENT FACTORS

Universities in South Australia include ATAR-related adjustment factors (previously known as bonus points) for Australian high school students applying for entry into university via the following schemes:

- **The Universities Equity Scheme** – provides additional points for students coming from specified schools, as well as individuals experiencing disadvantage.
- **The Universities Language, Literacy and Mathematics Adjustment Scheme** – provides additional points for students who successfully complete a language other than English, or specified English and Mathematics subjects.

unisa.edu.au/adjustmentfactors

GUARANTEED ENTRY

UniSA offers guaranteed entry into many programs for domestic Year 12 and VET students. If your Selection Rank (ATAR) or VET award meets the UniSA Guaranteed Entry score for that program, you have met the prerequisites and any other program specific entry requirements, and you have listed the program as your first preference, you are in. It's guaranteed. Please note application timelines may apply.

unisa.edu.au/guaranteed

ADMISSIONS PATHWAYS

Entering your chosen program straight from high school is not the only pathway into UniSA. Applicants may also meet the minimum requirements to apply for entry (via competitive selection) through one of the following pathways:

Higher Education Study – completion of at least half a year of full-time equivalent study at UniSA or a recognised higher education institution. You can apply using your Grade Point Average (GPA).

Higher Education Diploma – completion of a higher education diploma from UniSA College (applicable programs listed on each bachelor program in this guide), the South Australian Institute of Business and Technology (SAIBT), or another recognised higher education institution.

Special Entry – a competitive Special Tertiary Admissions Test (STAT) score. A personal competencies statement or relevant employment experience may also be considered for some programs.

Vocational Education Training (VET) – applicants may be eligible for entry with the completion of an award from TAFE or another Registered Training Organisation at AQF Certificate IV or above.

UniSA College – there are a variety of pathway options offered through UniSA College, including diplomas and the Foundation Studies program.

Alternative Pathways – there are a range of alternative pathways including bridging qualifications offered through SAIBT and Eynesbury.

Open Universities Australia – completion of at least four Open Universities Australia (OUA) courses at an undergraduate level or higher.
unisa.edu.au/pathways

BEFORE APPLYING

All applicants should check and ensure that they meet all entry and prerequisite requirements before applying. For more information on entry requirements, visit:

unisa.edu.au/study

SUPPORT SERVICES

UniSA offers a full range of support services, including career advice, disability and inclusion services, and counselling. For more information, contact (08) 8302 2376 or visit:

unisa.edu.au/studentsservices

SCHOLARSHIPS

UniSA offers a range of scholarships and grants to support students from all walks of life. Each year, 2,500 students benefit from scholarships at UniSA, providing financial assistance as well as valuable work experience, mentoring opportunities and even overseas travel. For more information and to check the eligibility criteria, visit:

unisa.edu.au/scholarships

HOW TO APPLY

Applications to most programs at UniSA are administered through the South Australian Tertiary Admission Centre (SATAC). For more information, visit:

unisa.edu.au/apply

For UniSA Online degrees apply directly at, unisaonline.edu.au

FEES

All domestic undergraduate students at the University of South Australia are in Commonwealth-supported places. Students in these places pay a contribution of their fees depending on the program chosen and the contribution band in which those courses are classified (see table below). The amount of your student contribution also depends on the unit value of your courses of study.

As per the Australian Government guidelines, the student contribution amounts for 2019 are:

BAND	AREA OF STUDY	STUDENT CONTRIBUTION <i>For one year of full-time load (1 EFTSL)</i>
1	Humanities, behavioural science, social studies, foreign languages, visual and performing arts, clinical psychology, nursing and education	\$6,566
2	Computing, built environment, health, engineering, surveying, agriculture, Mathematics, statistics, science	\$9,359
3	Law, dentistry, medicine, veterinary science, accounting, administration, economics, commerce	\$10,958

Some postgraduate programs are also Commonwealth-supported (or CSP), while others are full fee-paying; this is listed on applicable programs. For programs under 1.0 year full-time study, fees are listed as the whole program fee (indicative of 2019). For programs over 1.0 years full-time study, fees are listed based on the cost per annum (indicative of 2019). For more information on fees including eligibility for Commonwealth-supported places, deferring your student contribution through HECS-HELP or FEE-HELP loans, please visit:

unisa.edu.au/fees
