YOUR CAREER STARTS AT UniSA

Healthcare and social assistance is Australia’s largest and fastest growing industry, employing more than 1.5 million people.

Australia is a global leader in biotechnology and pharmaceuticals, with $1.3 billion invested nationally in medical innovation initiatives to support clinical trials and industry research programs.

South Australian State Budget 2018–19.

Over $1.2 billion has been committed to healthcare initiatives in South Australia, including community health services and hospital upgrades.

South Australian State Budget 2018–19.
Play an important role in shaping the wellbeing of communities as a health professional. Benefit from interactive learning, highly respected clinical teaching staff, and the latest research and practice. Get hands-on experience by completing fieldwork and clinical placement opportunities. Access purpose-built facilities including a wide range of laboratories and simulated hospital and health service environments located on campus.

Helping the homeless

Addressing the challenges faced by Adelaide’s homeless is a complex issue that inspires passion, particularly for UniSA lecturer and researcher, Dr Katia Ferrar.

On any given night, more than 5,000 South Australians experience homelessness, and they experience unique barriers when it comes to accessing health services.

In partnership with The Salvation Army, Dr Ferrar spearheaded the development and launch of UniSA’s Open Door Health Clinic, a facility offering pro bono physiotherapy and podiatry services to the homeless and people in crisis.

While working to improve health and wellbeing outcomes for at risk community members, the Clinic also delivers rewarding learning experiences for students, who work under the supervision of qualified clinical educators.

Students are able to develop an increased sense of social justice, become more adaptable in the delivery of health care services, and are exposed to the realities of communities in need.

Dr Ferrar is highly celebrated and has been recognised as the AMP Tomorrow Maker 2016, Winnovation Awards finalist 2017 and Unsung Hero of Science finalist 2018.

REAL-WORLD EXPERIENCE

Develop your skills and professional networks beyond the classroom. We partner with elite sporting teams, hospitals and community-based organisations, including the Calvary Wakefield Hospital, Adelaide United Football Club, SA Metropolitan Fire Service, and Helping Hand Aged Care to bring you practical, hands-on experience through a range of scholarships and placements. We also have unique collaborations with organisations like The Repat Foundation – The Road Home, which provide placement and learning opportunities for students across different health disciplines. Through this partnership, students use the power of sport to support wounded, injured and sick service personnel through our global-first Invictus Pathways Program.

FLYING HIGH

We have partnered with the Adelaide Football Club to provide opportunities for student placements and research collaborations. Students can apply their learnings in exercise and sport science in an elite sporting environment working alongside AFL sports scientists and high performance coaches.

There are also opportunities to engage in sports research focusing on optimal player performance and injury prevention.

UNIQUE DEGREES

We offer South Australia’s only degrees in pharmacy, pharmaceutical science and medical radiation science (medical imaging, radiation therapy and nuclear medicine). We also have the state’s only fully-accredited undergraduate degrees in podiatry, physiotherapy, exercise and sport science, occupational therapy and clinical exercise physiology. You can also enrol in one of our unique double degrees, combining disciplines such as human movement with psychological science or nutrition and food sciences for a competitive edge in the growing health and wellness industry.
COMMUNITY CLINICS
Our on-campus community health clinics are open to the public and provide exceptional training for students during their studies. Physiotherapy, podiatry and exercise physiology students will gain hands-on experience by treating real patients under the supervision of highly-experienced health professionals. Services such as occupational therapy, dietetics, midwifery and general practice are also available.

HANDS-ON NURSING DEGREE
Study a top-ranking undergraduate nursing degree at UniSA. Take advantage of our practical approach to learning, including the most undergraduate placement hours in public and private hospitals and community organisations across South Australia. We also have a unique, simulated hospital environment located on campus, which includes authentic hospital wards, clinical units and community areas. You will learn under the guidance of practising clinicians and academics, and develop the confidence to work in real-world settings.

ENGAGE IN THE SCIENCES
Benefit from a learning experience rich in new knowledge, and join the global fight against illness and disease as an aspiring medical scientist, medical researcher or pharmacist. Strong teaching links with our internationally-renowned research groups, including the UniSA Cancer Research Institute and Centre for Cancer Biology, means that you’ll learn from and work alongside award-winning researchers at the forefront of their profession. With state-of-the-art facilities and resources, you’ll also gain valuable hands-on experience and prepare for a career in industry or research.

STEMfooty
We have teamed up with the Adelaide Football Club to show middle and senior school students how sport is linked to Science, Technology, Engineering and Mathematics (STEM). Our STEMfooty pilot program connects students with elite talent squads and explores how STEM can be applied to enhance player performance.
Become a global citizen

Develop the skills you need to work internationally and increase your career opportunities by studying a second language. Learn French, Italian, Japanese or English (as an Additional Language) through a Diploma in Languages. Access the Multimedia Languages Lab at Magill Campus and connect with native speakers from around the world in real-time. Graduate with an additional qualification by studying the diploma alongside your undergraduate degree.

unisa.edu.au/languages

Experience student life

Enjoy life beyond the classroom by getting involved in campus culture. Connect with new people at O-Week, keep active with UniSA Sport and on-campus fitness centres, or find your tribe with over 100 student clubs to choose from. Discover our wide range of events throughout the year and connect with our student association, USASA.

unisa.edu.au/studentexperience

Get career ready

Prepare for your future career from first year with support from our Career Services team. Access our online Career Hub for self-help resources, including tips on resume writing and an interview simulator. There are also professional and exclusive job listings. Connect with a career adviser for help with career mapping, attend industry events to build your professional networks, and walk in to one of our drop-in centres on campus for general careers advice.

unisa.edu.au/careers

Dr Tahnee Dening is enjoying national attention following a discovery made while completing her studies and research at UniSA. Investigating the oral absorption of drugs in the body, she noticed that the clay materials she was using were attracting fat droplets and soaking them under mimicked gut conditions.

“This behaviour immediately signalled we could be onto something significant – potentially a cure for obesity.”

Tahnee’s research career has taken her around the world, from Denmark to Belgium, and now to the United States.

“You don’t have to be on the frontline of health care to help patients. I love knowing that my research could contribute towards smarter and more effective medicines.”

Dr Tahnee Dening | B. Pharmacy (Honours), B. Pharmaceutical Science and Doctor of Philosophy (PhD) | Postdoctoral Researcher, University of Kansas | Endeavour Postgraduate Scholarship recipient

GETTING TO CAMPUS

Jump on the tram

Take advantage of the new city tram service operating along North Terrace for a convenient ride between City East and City West campuses or stop at other destinations along the way including the new Royal Adelaide Hospital and the UniSA Cancer Research Institute. Visit the Adelaide Metro website for more information.

adelaidemetro.com.au
Campus Connector

We run a free bus service between Magill and Mawson Lakes campuses to make travelling easier for students who need to make the journey, or live in surrounding suburbs. There is even free Wi-Fi on board! Go online for full timetable and route details.

unisa.edu.au/campusconnector
Admissions information

NATIONAL POLICE CERTIFICATE AND DEPARTMENT FOR HUMAN SERVICES CHILD-RELATED CLEARANCE

All students in the Division of Health Sciences who, as part of their program, undertake activities where interaction with patients/the public is required, such as in field or clinical placements/visits and in University clinics and gyms, must demonstrate that they have a current National Police Certificate (NPC) through SAPOL (or their home state police service) and a current Department of Human Services (DHS) Child-Related Clearance, which is valid for the duration of the program. The National Police Check will list disclosable court outcomes that may prevent clinical placement involvement.

STUDENT REGISTRATION

All students enrolled in a program leading to professional registration must be registered with the relevant national board. The student registration process is undertaken by the University to the Australian Health Practitioner Regulation Agency (AHPRA) after enrolment. No fees apply.

IMMUNISATION REQUIREMENTS

In order to progress to clinical placement you must be screened and provide evidence of your immunisation status. Immunisation is a mandatory requirement across all healthcare placement providers. Non-compliance with the Health Care Workers Immunisation Policy Directive will prevent you from progressing to a placement. Additional requirements may apply.

UNDERGRADUATE

Your tertiary learning and career starts with undergraduate study.

To explore our 200+ degrees, visit unisa.edu.au/study

To learn more about how to apply, visit unisa.edu.au/apply

Pathways: Foundation Studies or Diploma in Health (UniSA College)
Prerequisites: none
Assumed knowledge: none

Become a Registered Nurse and make a positive contribution to the healthcare sector. Develop the knowledge, clinical skills and attitudes needed for professional practice in a range of settings. Benefit from a strong focus on theory and practical experience, including access to our unique clinician-led, hospital and health service on campus, which includes authentic hospital wards, clinical units and community areas. Be prepared to meet healthcare delivery requirements for the 21st century and respond to Australian and international healthcare priorities and trends. Focus on four key areas of nursing practice during your studies, including collaborative and therapeutic practice, critical thinking and analysis, professional practice, and provision and coordination of care. Learn about cultural competence, evidence-based practice, mental health, primary health, professional communication, and safety and quality. Complete over 1,000 placement hours starting in your first year of study. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA)

Note: Students will be required to hold a current National Police Certificate and Department of Human Services Child-Related Clearance. See admissions information. Students must meet the Fitness to Practice in Clinical Placements' requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS

Registered nurses can work in a variety of healthcare settings, including:
- Hospitals / primary health and community support services / aged and rehabilitation care / schools / home care services / drug and alcohol treatment centres / community health organisations

YOU MIGHT ALSO LIKE
- Bachelor of Midwifery
- Bachelor of Social Work
- Bachelor of Early Childhood Education (Honours)

FURTHER STUDY
- Graduate Certificate in Nursing – various specialisations
- Graduate Diploma in Mental Health Nursing
- Master of Nursing
- Master of Health Services Management
- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE

FIRST YEAR – knowledge, skills and attitudes for understanding
- Being a Health Professional
- Human Body 1
- Global and National Health

SECOND YEAR – knowledge, skills and attitudes for intervention
- Health of Older Adults
- Scientific Basis of Clinical Practice
- Experiential Learning Activity: Preparation for Clinical Practice Practicum 1

THIRD YEAR – knowledge, skills and attitudes for professional practice
- Experiential Learning Activity: Extension to Practice Practicum 4

Forthcoming...
“Studying nursing is deeply rewarding on a personal level. As a nurse you become a critical part of the community. During my degree, I valued the professional knowledge and advice that the lecturers and clinical staff were always willing to share in order to guide me.”

Joshua Bauschke, nursing graduate

UniSA College pathways: Foundation Studies
Prerequisites: none
Assumed knowledge: none

Prepare for a highly rewarding career in maternity care and women’s health as a Registered Midwife. Develop the knowledge and practical skills to support women through pregnancy, labour, birth and postnatal care. Benefit from a strong focus on theory and hands-on experience to prepare you for clinical practice. As an international profession with different birthing practices all over the world, you will learn how political, socio-cultural, economic and technological factors influence midwifery practice. Learn in our clinician-led, authentic simulated hospital and health service on campus, which incorporates a midwifery and paediatric unit, and technologies such as a birthing manikin. Complete comprehensive placement hours and be actively involved in 50 births during your studies, along with the pre and post-birth care of at least 100 women, and following 15 women through continuity of care experiences. Graduate with the academic requirements needed for registration as a Midwife with the Nursing and Midwifery Board of Australia (NMBA).

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10. Students must meet the Fitness to Practice in Clinical Placements’ requirements. For more information, visit unisa.edu.au/health/ftp.

Note 2: This program has a pathway to enable midwives who have not practised for between five and ten years to fulfil the re-entry to practice requirements (eligibility criteria applies).

CAREERS
Midwives can work in a variety of healthcare settings, including:
- Hospitals / community services / rural and remote healthcare / home-based services / health agencies / private consulting

YOU MIGHT ALSO LIKE
- Bachelor of Nursing
- Bachelor of Medical Radiation Science (Medical Imaging)
- Bachelor of Early Childhood Education (Honours)

FURTHER STUDY
- Graduate Certificate in Perinatal Mental Health
- Master of Midwifery
- Master of Health Services Management
- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE
FIRST YEAR – Introduction to Midwifery Practice
- Foundations of Midwifery
- Human Body 1
- Normal Pregnancy and Childbirth
- Experiential Learning Activity: Midwifery Foundation Practicum 1

SECOND YEAR – Developing Midwifery Competence
- Complex Care across the Childbirth Continuum
- Fetal and Maternal Pathophysiology
- Experiential Learning Activity: Midwifery Development Practicum 2

THIRD YEAR – Transition to Midwifery Professional Practice
- Complex Care of the Neonate
- Pharmacology and Diagnostics for Midwives
- Experiential Learning Activity: Midwifery Development Practicum 3

Note: Students may be required to undertake a combination of on-campus or online study. Students may be required to attend on-campus lectures, tutorials and practicals.
PHARMACY, LABORATORY MEDICINE AND MEDICAL SCIENCE

Bachelor of Pharmaceutical Science

unisa.edu.au/pharmacy

Study the only degree of its kind in South Australia. Develop the skills to work in areas such as drug discovery, manufacturing and production, clinical trials, regulatory affairs, and pharmaceutical sales and marketing. Build your understanding of fundamental sciences and then focus specifically on key areas such as pharmaceutical sciences, biological sciences, drug discovery and development, and commercialisation. You can also choose from a range of electives to tailor your studies, covering areas such as research and development, manufacturing and pharmaceutical chemistry, and drug development and business (including sales, marketing, legal, regulatory and drug information). Access purpose-built laboratories on campus and in the $247 million UniSA Cancer Research Institute. Complete an industry project or placement during your degree. Be eligible for membership with the Royal Australian Chemical Institute (RACI) and other relevant professional bodies such as AusBiotech. Explore the option of a double degree with the Bachelor of Pharmacy (Honours) – academic criteria applies.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child Related Clearance. See page 10.

CAREERS
Pharmaceutical science professionals can work in a variety of areas, including:
- Drug regulation / laboratory research / clinical trials / research and development / sales and marketing

YOU MIGHT ALSO LIKE

Study South Australia’s only degree in pharmacy and prepare for a career as a Registered Pharmacist. Be equipped to prepare, supply and monitor medicines across a variety of settings including community pharmacy, hospitals, aged care, military services, rural care, and more. Study a degree accredited by the Australian Pharmacy Council and benefit from a university with over 50 years’ experience in delivering pharmacy education. Focus on key study areas such as biological, chemical and pharmaceutical sciences; ethical pharmacy practice; trialling and regulation of medicines; drug information and advice; preparing, studying and monitoring medicines and their use; and pharmaceutical research methods. Access state-of-the-art learning spaces, including the new pharmacy practice suite.
and purpose-built laboratories in the $247 million UniSA Cancer Research Institute. Complete field placements in community and hospital-based pharmacy settings. Following graduation, you will satisfy the academic requirements for registration as a Pharmacist with the Pharmacy Board of Australia (PBA), which is also determined by a period of supervised training. Enhance your career by exploring the option of a double degree with the Bachelor of Pharmaceutical Science – academic criteria applies.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

### PROGRAM CODE: IHBL | SATAC CODE: 414491
UniSA College pathways: Foundation Studies or Diploma in Health

Prerequisites: SACE Stage 2 Biology, or SACE Stage 2 Chemistry, or SACE Stage 2 Physics.

Assumed knowledge: none

Graduate with honours in just four years and prepare for a career as a medical scientist focusing on diagnostic pathology or research. Learn to play a vital role in the welfare of patients by supporting clinicians in the diagnosis, management and treatment of disease, conducting research into causes and cures of disease, and developing improved methods for disease detection. Build fundamental knowledge in biochemistry, microbiology, immunology, molecular pathology, haematology and histopathology. Develop the skills to perform a range of diagnostic tests including cross-matching for blood transfusions, identifying the organisms that cause infections and food poisoning; screening for cancer cells, and detecting genes responsible for disease. Gain valuable practical experience in our on-campus laboratories and through field placements across areas of public and private pathology. As part of your honours, you can tailor your studies with additional courses in research development or an advanced clinical placement. Graduate with a degree accredited by the Australian Institute of Medical Scientists (AIMS), and be eligible for membership. You can also apply for membership with the Australasian Association of Clinical Biochemists (AABC) and Australian Society for Microbiology (ASM). Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

### CAREERS
Medical laboratory scientists can work in a wide range of areas, including:

- Diagnostic pathology / histopathology / forensic science / immunology / virology / transfusion science / haematology / cytology / clinical biochemistry / medical microbiology / research / product manufacturing / public health management / veterinary medicine / academia

### YOU MIGHT ALSO LIKE
- Bachelor of Pharmacy (Honours)
- Bachelor of Medical Science
- Bachelor of Medical Radiation Science (Medical Imaging)

"The areas of pathology and research were always of interest to me. My study tour to Myanmar gave me a great insight into the health sector in developing countries, which has inspired me to be one day be involved in the quality improvement of laboratory work across the globe."

Karen Gyedu, laboratory medicine student
It’s extremely enjoyable having practical sessions using state-of-the-art technology in the new UniSA Cancer Research Institute. The degree integrates many aspects of chemistry, biology, maths and marketing, giving me a great understanding of the pharmaceuticals industry. Becoming a pharmaceutical science professional excites me, knowing that the work we do has the potential to revolutionise the treatment for diseases and improve the wellbeing of patients across the globe.

FUNDAMENTAL KNOWLEDGE AND SKILLS

Podiatry is a unique profession, combining knowledge and skills from many disciplines. Podiatrists are responsible for diagnosing and treating disorders of the foot, ankle and lower leg. This includes conditions like infections, orthotics, children, foot and heel pain. Podiatrists also learn about human physiology, pain management, pharmacology and biomechanics. They develop fundamental knowledge through courses in human anatomy, human physiology, pain management, pharmacology and biomechanics. They gain valuable real-world experience by completing 1,000 clinical placement hours. Further development of knowledge and expertise is achieved through clinical podiatry clinics under the supervision of practising clinicians. Podiatrists are registered with the Podiatry Board of Australia and must maintain their registration through lifelong learning and professional development.

ENTRY REQUIREMENTS
- This program is available to students who have successfully completed a relevant bachelor degree in biomedical, pharmaceutical, biological and chemical sciences or equivalent qualification, and have met the required Grade Point Average (GPA).
- After applying through SATAC, students will receive a notification to contact the Program Director to discuss program requirements, possible supervisors and potential research projects.

FOURTH YEAR
- Clinical Biomechanics 400
- Podiatry Clinical Studies 400
- Podiatry Practice 400
- Clinical Biomechanics 401
- Podiatry Practice 401
- Podiatry Research Project 401

Study South Australia’s only degree in podiatry. Prepare for a career as a podiatrist, responsible for diagnosing and treating disorders of the foot, ankle and lower leg. Learn to provide quality care for sports injuries, orthotics, children, foot and heel pain. Develop fundamental knowledge through core courses in human anatomy, human physiology, pain management, pharmacology and biomechanics. Gain valuable real-world experience by completing 1,000 clinical placement hours. Further develop your knowledge and expertise in our on-campus podiatry clinics. Supervised by practising clinicians, as well as our Manufacturing Lab where you will learn how to make orthotics. Graduate with the eligibility to apply for registration as a Podiatrist with the Podiatry Board of Australia.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. The University will also process the required registration with AHPRA. See page 10.

Note 2: High achieving students may be considered for the Bachelor of Podiatry (Honours) program in their third year of study.

CAREERS
Registered podiatrists can work in a variety of settings, including:
- Private practice
- Clinics / hospitals / community health centres / aged care / sports clinics
- Occupational health services

YOU MIGHT ALSO LIKE
- Bachelor of Physiotherapy (Honours)
- Bachelor of Occupational Therapy (Honours)
- Bachelor of Medical Radiation Science (Medical Imaging)
- Bachelor of Nursing

“Tibooburra, along with various metropolitan hospitals. I also enjoyed working in the UniSA podiatry clinics because of the close feedback and support provided by the clinical staff, and the chance to work alongside my fellow peers.”

Thomas Fitzpatrick, podiatry student

“...throughout my degree. I was able to travel to Kiribati, a small Pacific island, regional and rural settings such as APY Lands, Broken Hill, Whyalla, Yorke Peninsula, Wilcannia, Tibooburra, along with various metropolitan hospitals. I also enjoyed working in the UniSA podiatry clinics because of the close feedback and support provided by the clinical staff, and the chance to work alongside my fellow peers.”

Thomas Fitzpatrick, podiatry student
An interest in how the human body works and what motivates people to overcome obstacles and challenges led me to study occupational therapy. It’s really rewarding to see people achieve their goals and improve their quality of life. I love working in a paediatric occupational therapy clinic, Motivate Kids, where I use play techniques as a form of therapy.

Natalie Waterman, occupational therapy graduate

Bachelor of Physiotherapy (Honours)

Prerequisites: none
Assumed knowledge: SACE Stage 2 Biology, SACE Stage 2 Physics

Graduate with honours and prepare for a career as a registered physiotherapist in just four years. Develop the capability to assess, treat and prevent human movement disorders, enabling people to lead more functional lives, as well as work towards being a first contact professional or a valued member of an allied healthcare team. Focus on various areas of practice and treatments across sports, musculoskeletal, cardiorespiratory and neurological conditions. Study courses in human anatomy, human physiology, physiotherapy studies, pharmacology, exercise physiology, and pain sciences. Learn practical skills through clinical placements in real-world settings, including our on-campus physiotherapy clinics. Complete either a research stream focusing on methods and ethics, or a professional stream of advanced coursework from third year. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a Physiotherapist with the Physiotherapy Board of Australia. You will also be eligible for membership with the Australian Physiotherapy Association.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. The University will also process the required registration with AHPRA. See page 10
Note 2: The Master of Physiotherapy (Graduate Entry) is available for students from other health-related bachelor degrees seeking a pathway into physiotherapy. See page 26

CAREERS
Registered physiotherapists can work in a variety of settings, including:
Private practice / clinics / sporting clubs / gyms / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities / women’s health / paediatric services

YOU MIGHT ALSO LIKE
• Health / paediatric services

Graduate with honours and prepare for a career as an accredited occupational therapist in just four years. Learn to help people of all ages to maintain and improve their movements and day-to-day activities. Develop the skills to assist people in managing personal, environmental and task limitations caused by injury or illness. Focus on areas such as human anatomy, human physiology, human neurosciences, growth and lifespan development, psychology, occupational science, and sociology. Gain valuable practical experience through 1,000 dedicated placement hours in a variety of settings under the supervision of a practising occupational therapist. Choose a professional or research stream in your final year of study. Graduate with a degree that has been approved by the World Federation of Occupational Therapists and the Occupational Therapy Board of Australia, and accredited by the Occupational Therapy Council (Australia & New Zealand) Ltd.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. The University will also process the required registration with AHPRA. See page 10
Note 2: The Master of Occupational Therapy (Graduate Entry) is available for students from other health-related bachelor degrees seeking a pathway into occupational therapy. See page 27.

Prerequisites: none
Assumed knowledge: none

Study South Australia’s only medical radiation science degree and prepare for a career as a qualified diagnostic radiographer. Learn how to produce high quality medical images with various technologies and types of radiation to monitor and diagnose injury and illness. Be prepared to work across general radiography practice such as X-rays, fluoroscopy, theatre or emergency imaging. Focus on core courses in anatomy, physiology, pathology and radiation physics during your studies. Practise in fully functioning X-ray suites located on campus, equipped with the latest tools and technologies. Apply concepts of professional practice through 1,750+ clinical placement hours, which begin in your second year of study. Participate in regular pre-clinical preparation workshops in your final year to further extend your skills as you move into advanced areas of practice. After graduation you will be eligible to apply for general registration with the Medical Radiation Practice Board of Australia (MRPBA).

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 60

Note 2: High achieving students may be considered for the Bachelor of Medical Radiation Science (Honours) (Medical Imaging) program in third year.

CAREERS
Medical imaging professionals can work in a variety of settings, including:
• Hospitals / private practice / defence / research and development
• You may also gain employment in specialist areas such as:
  - Ultrasound / interventional imaging / magnetic resonance imaging / computed tomography

YOU MIGHT ALSO LIKE
• Bachelor of Medical Radiation Science (Radiation Therapy)
• Bachelor of Medical Radiation Science (Nuclear Medicine)
• Bachelor of Physiotherapy (Honours)

“I chose to study medical imaging because I could follow my passion for sciences and technology but also work closely with people. It is amazing to think that we are utilising radiation that is undetectable to the human eye to create images that can possibly save someone’s life.”

Jenny Han, medical radiation science (medical imaging) student
Bachelor of Medical Radiation Science (Nuclear Medicine)

Study South Australia's only medical radiation science degree and prepare for a career as a nuclear medicine technologist. Learn how to prepare and administer radioactive substances to evaluate the function of an organ or body system in order to diagnose and treat disease. Focus on core courses in anatomy, physiology, pathology and radiation physics during your studies. Access industry-standard nuclear medicine software on campus to practise image manipulation and analyse patient data. Complete 1,800 clinical placement hours, which begin in your second year of study. Take part in regular pre-clinical preparation workshops in your final year to further extend your skills as you move into advanced areas of practice. After graduation, you will be eligible to apply for general registration with the Medical Radiation Practice Board of Australia (MRPBA).

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

SPORT, HUMAN MOVEMENT, CLINICAL EXERCISE PHYSIOLOGY

Bachelor of Exercise and Sport Science

Study South Australia's only fully-accredited degree in exercise and sport science. Develop a deep understanding of the impact that exercise and physical activity has on the biological, physical and social aspects of human life. Learn how to design and deliver exercise programs to improve clients' health and wellbeing, perform client screenings, conduct laboratory and field testing, and appraise and interpret scientific research. Be guided by some of Australia’s leading exercise scientists and experts in the field.

Study core courses in human anatomy and physiology, sociology of health and physical activity, growth and motor development, and exercise and health psychology. Access state-of-the-art facilities including the High Performance and Exercise Physiology Clinic, Environmental Chamber, and fully equipped Health and Fitness Centre located on campus. Gain valuable practical experience by completing industry placements across a range of settings including schools and elite sporting clubs. Graduate with a degree accredited by Exercise and Sport Science Australia (ESSA) and be eligible for registration as an Accredited Exercise Scientist.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

CAREERS

Exercise scientist / strength and conditioning coach / high performance coach / physical training specialist / health coach / athletic trainer / sport and fitness coordinator

- Personality Psychology
- Professional Practice in Exercise Science
- Clinical and Abnormal Psychology
- Counselling Interventions
- Applied Exercise and Sport Science
- Specialist Psychology Course 3

## CAREERS

- Sports coach / strength and conditioning coach / exercise scientist / sport development officer / researcher / sports counsellor or psychologist (with further study)

## FURTHER STUDY

- Bachelor of Human Movement, Bachelor of Psychological Science (Counselling and Interpersonal Skills)
- Bachelor of Exercise and Sport Science
- Bachelor of Nutrition and Food Sciences
- Bachelor of Occupational Therapy (Honours)
- Bachelor of Physiotherapy (Honours)

## PROGRAM CODE: IBHT | SATAC CODE: 414231

**UnISA College pathways:** Foundation Studies or Diploma in Health

- **Prerequisites:** none
- **Assumed Knowledge:** none

Develop your understanding of the impact that exercise and physical activity has on people – biologically, psychologically and socially. Tailor your degree to your interests and career goals through primary streams in Health and Physical Education or Exercise and Sport Science with the ability to choose a secondary study stream in a wide range of other study areas. Build strong foundational knowledge in core areas such as human anatomy and physiology, the sociology of health and physical activity; growth and motor development; and group and team psychology. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics, and motor learning. Graduate with the skills to complete client screenings, conduct laboratory and field testing, design and implement exercise and training programs, and interpret scientific research. Learn in state-of-the-art facilities such as the High Performance and Exercise Physiology Clinic, Environmental Chamber, and fully-equipped Health and Fitness Centre located on campus. Complete an industry placement during your studies. Package this degree with a Master of Teaching (Secondary) to become a health and physical education teacher.

**Note:** Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child Related Clearance. See page 10.

**CAREERS**

Depending on your course selection, your career options can include:

- Sport development officer / nutrition adviser / sports coach / outdoor education instructor / recreation activities coordinator / teacher (with further study)

Package a degree in human movement with postgraduate studies in education to become a secondary health and physical education teacher. Build strong foundational knowledge in core areas such as human anatomy and physiology; the sociology of health and physical activity; growth and motor development; and group and team psychology. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics, and motor learning. Tailor your studies through a wide range of elective courses covering topics such as outdoor education, sports coaching and health promotion. Focus on adolescent learning with the ability to teach health and physical education to Year 12 and science up to Year 10. Depending on your final year electives, you may also be qualified to teach Outdoor Education to Year 12 and key Learning Areas within the Australian Curriculum including English, mathematics, humanities and social sciences, or languages. Benefit from highly practical learning, completing supervised placements totalling more than 60 days across both programs in a range of educational settings.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10. Additional requirements apply for the Master of Teaching (Secondary). Visit [unisa.edu.au/eds-requirements](http://unisa.edu.au/eds-requirements)

Note 2: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

### CAREERS

Health and physical education teacher (up to Year 12) / science teacher (up to Year 10) / sport development officer / outdoor education instructor / sports coach / recreation activities coordinator

**YOU MIGHT ALSO LIKE**

- Bachelor of Human Movement
- Bachelor of Physiotherapy (Honours)
- Bachelor of Human Movement, Bachelor of Psychological Science (Counselling and Interpersonal Skills)

DEGREE STRUCTURE

FIRST YEAR
- Physiology Essentials 100
- Human Anatomy 100
- Foundations of Health
- Functional Activity and Physical Health
- Life Span Growth and Motor Development
- Societal Issues in Clinical Exercise Physiology
- Research Methods and Statistics

SECOND YEAR
- Motor Control and Learning
- Exercise Physiology 1
- Human Nutrition
- Exercise Delivery
- Biomechanics of Human Movement
- Exercise Physiology 2
- Health, Exercise and Sport Psychology
- Exercise Prescription

THIRD YEAR
- Practice Education in Exercise Delivery
- Pain Mechanisms and Management
- Applied Exercise and Sport Science (Honours)
- Elective 1
- Clinical Exercise Assessment
- Clinical Basis of Chronic Disease Management
- Clinical Studies for Exercise Physiology
- Elective 2

FOURTH YEAR
- Exercise Physiology Studies for Workplace Evaluation
- Health and Exercise Science Honours Project OR Health Studies Honours Thesis
- Clinical Exercise Physiology Practicum 1
- Clinical Exercise Physiology Practicum 2
- Clinical Exercise Physiology Practicum 3

NUTRITION AND FOOD SCIENCES, AND HEALTH SCIENCE

Bachelor of Nutrition and Food Sciences

unisa.edu.au/nutrition-food-sciences

City East Campus
On-campus
3 years
Full-time
Intakes: Feb

City East Campus
Selection Rank ........ 70.45
Guaranteed Entry: Selection Rank .......... 80.00
Honours available
Part-time study available

PROGRAM CODE: IBNF | SATAC CODE: 414291

Unisa College pathways: Foundation Studies or Diploma in Health
Prerequisites: none
Assumed knowledge: none

Launch a career in the growing food and nutrition industry. Learn to develop innovative foods; promote and manage diets and lifestyles; and conduct meaningful research for enhanced wellbeing. Explore the fundamentals of both nutrition and food sciences in your first two years of study then select one as a formal study stream in your third year, which aligns to your interests and career goals. Develop a strong body of knowledge in biology, food chemistry, microbiology, physiology and consumer education. Study in a dedicated learning hub on campus, including a purpose-built Sensory Laboratory, Microbiology Laboratory and Commercial Kitchen. Benefit from our strong links with the food industry and community, and attend field trips to some of South Australia’s major nutrition and food providers. Graduates are eligible to apply for professional membership with the Australian Institute of Food Science and Technology (AIFST). Graduates are also eligible to apply to the Nutrition Society of Australia for registration as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of experience.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

CAREERS
Nutritionist / food scientist / food technician / health promotion officer / product developer / food safety adviser / food lab technician / flavour technologist / wellness coach / research scientist

“While you may learn theory in the classroom, it is another thing to see it in practice. I was able to go on site visits to Golden North ice cream, Ingham’s, National Foods, and the West End Brewery, as well as complete a work placement at Rymill Winery in the Coonawarra. Through these experiences I was able to see how an actual production plant is operated.”

Scott Woollett, nutrition and food sciences graduate
Prepare for a career working with populations and communities to make a positive difference in the lives of others. Cultivate a range of skills aimed at improving and promoting health and wellbeing outcomes. Develop your knowledge and contribute to the research and education around preventing disease and illness. Complete 200+ hours of industry placements and projects; choose a minor or a set of elective courses; or take the opportunity to study overseas. Benefit from a curriculum aligned to the Foundation Competencies for Public Health Graduates in Australia and the Aboriginal and Torres Strait Islander Health Curriculum Framework, giving you a transferrable skill set. Graduates are eligible for membership with the Public Health Association of Australia (PHAA) and other relevant professional bodies.

**Note:** Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10.

**CAREERS**
Project and research officer / health policy analyst / health promotion officer / research assistant / wellness and lifestyle coordinator / community development worker / women’s health officer / clinical trials coordinator / data analyst

**YOU MIGHT ALSO LIKE**
- Bachelor of Human Movement
- Bachelor of Health Science (Nutrition and Exercise)
- Bachelor of Community Health

**FURTHER STUDY**
- Master of Health Services Management
- Master of Occupational Therapy (Graduate Entry)
- Graduate Certificate in Population Health Practice
- Graduate Certificate in Health Science (Clinical Education)
- Masters by Research
- Doctor of Philosophy

**DEGREE STRUCTURE**

### FIRST YEAR
- Introduction to Public Health Practice and Research Health Systems and Services
- Aboriginal Australian: Culture and Colonisation
- Physiological Health Essentials 100
- Health Promotion Concepts
- Introduction to Evidence Based Practice and Research in Health Sciences
- Human Anatomy 100
- First Peoples’ Health

### SECOND YEAR
- Marketing for Health and Wellbeing
- Evaluation in Public Health
- Sociological Perspectives in Public Health
- Building Healthy Public Policy
- Designing and Managing Health Projects
- Science and Politics of Preventive Health
- Aboriginal Public Health Practice and Research
- Minor Course 1 OR Elective

### THIRD YEAR
- Epidemiological Principles and Methods
- Public Health and Wellbeing Practice
- Minor Course 2 OR Elective
- Minor Course 3 OR Elective
- Applied Public Health Practice and Research Health Ethics
- Minor Course 4 OR Elective

**Bachelor of Health Science (Nutrition and Exercise)**
unisaonline.edu.au/nutrition-exercise

**100% online**

**Intakes:** Jan, Apr, Jul, Sept

**Unisa Online**

**3 years full-time**

**PART-TIME STUDY AVAILABLE**

**PROGRAM CODE: XBNE**

**Time commitment:** 30–15 hours per week per course

**Pathways:**
- Literacy and Numeracy Test with relevant work experience (UniSA Online), or Foundation Studies or Diploma in Health (UniSA College)

**Prerequisites:** none

**Assumed Knowledge:** none

**STUDY ON DEMAND**

Study a 100% online nutrition and exercise degree designed specifically for flexible learning. Develop the knowledge and skills to support community health and wellbeing through a holistic approach to good nutrition and physical activity. Explore the effects that food, nutrition, health and exercise have on the biological, psychological and social aspects of life. Examine diets and lifestyles for optimum health and their associations with nutrient intake, energy output and obesity. You will also learn how to maximise physical performance for active people. Access online support services seven days a week, view learning resources 24/7 and log in to the interactive online environment anywhere, anytime, and on any device. Benefit from flexible study with no need to attend lectures or come on campus – all courses and assessments are delivered online. Scholarships and grants are also available for eligible students.

**CAREERS**
Health and wellness consultant / nutrition and exercise consultant / corporate health and wellness adviser / health promotion officer / active and healthy ageing adviser

**CHECK YOUR CREDIT**
Fast-track your degree and receive credit for past study and/or work experience.

**HOW TO APPLY**
1. Check your eligibility at unisaonline.edu.au/eligibility
2. Gather your relevant documents
3. Complete your application and send through your documents

Aply directly at unisaonline.edu.au or call 1800 531 962

**SECOND YEAR**

**Body in Motion 1**
Human Nutrition
- Theory of Exercise Testing and Prescription 1
- Nutrition and Exercise Biochemistry

**Body in Motion 2**
- Theory of Exercise Testing and Prescription 2
- Lifespan Nutrition Elective

**THIRD YEAR**

**Food Safety, Quality and Security**
Professional Communication to Work in the Health Industry
- Psychology of Exercise, Sport and Health
- Project Management for Health and Wellness
- Food as Medicine
- Nutrition for Exercise and Performance
- Elective 2
- Applications in Nutrition and Exercise

---

**Bachelor of Community Health**
unisaonline.edu.au/community-health

**100% online**

**Intakes:** Jan, Apr, Jul, Sept

**Unisa Online**

**3 years full-time**

**PART-TIME STUDY AVAILABLE**

**PROGRAM CODE: XBCH**

**Time commitment:** 30–15 hours per week per course

**Pathways:**
- Literacy and Numeracy Test with relevant work experience (UniSA Online), or Foundation Studies or Diploma in Health (UniSA College)

**Prerequisites:** none

**Assumed Knowledge:** none

**STUDY ON DEMAND**

Study a 100% online community health degree designed specifically for flexible learning. Explore your passion for wellness and develop specialised non-clinical knowledge and skills in community health. Focus on key healthcare priorities such as mental health, disability services and aged care. Learn about the National Disability Insurance Scheme (NDIS) and the opportunities to help shape the health and wellbeing of communities. Gain valuable practical experience by working on real-world community health projects. Access online support services seven days a week, view learning resources 24/7 and log in to the interactive online environment anywhere, anytime, and on any device. Benefit from flexible study with no need to attend lectures or come on campus – all courses and assessments are delivered online. Scholarships and grants are also available for eligible students.

**CAREERS**
Community health worker / community development officer / health support worker / disability support coordinator / aged care coordinator / project officer / health policy analyst / youth worker

**ENTRY REQUIREMENTS**

- This program is open to all students who have completed or are enrolled in a bachelor degree at the University of South Australia or any other Australian university.
- This program is also open to students who have completed or are currently enrolled in a bachelor or master degree, or equivalent qualification, from an approved higher education institution outside of Australia.
- For postgraduate students, this program can be completed as a stand-alone qualification.

**DEGREE STRUCTURE**

**FIRST YEAR**
- Critical Approaches to Online Learning (The Social World)
- Foundations of Human Biology 1
- Psychology Concepts
- Foundations of Human Biology 2
- Exploring Global and National Health
- First Peoples’ Health
- Introduction to Mental Health

**SECOND YEAR**
- Lifespan Growth and Motor Development
- Professional Communication to Work in the Health Industry
- Foundations of Nutrition and Health
- Health Promotion
- Health Law, Ethics and Policy
- Age Friendly Environments
- Project Management for Health and Wellness
- Elective

**THIRD YEAR**
- Public Health
- Supporting Dignity through Enablement
- Disability and Ageing: Diversity and Discrimination
- Case Management for Consumer Directed Care in Disability and Aged Care
- Transition to Employment
- Community Health Project 1
- Community Health Project 2
- Elective

**POSTGRADUATE**

Take your career to the next level and develop your knowledge further through postgraduate study.

- To explore our 200+ degrees, visit unisa.edu.au/study
- To learn more about how to apply, visit unisa.edu.au/apply

**ENTRY REQUIREMENTS**

- Bachelor degree or higher from a recognised Australian or New Zealand higher education institution completed in the last ten years with a minimum Grade Point Average (GPA) of 5.5.
- Applicants must also have successfully completed prerequisite courses. For more information, visit unisa.edu.au/physio-ge

**YOU MIGHT ALSO LIKE**

- Master of Occupational Therapy (Graduate Entry)

**FURTHER STUDY**

- Master of Advanced Clinical Physiotherapy
- Master of Advanced Clinical Physiotherapy (Sports)
- Master of Advanced Clinical Physiotherapy (Musculoskeletal)
- Master of Health Services Management
- Masters by Research
- Doctor of Philosophy (PhD)

**DESIGN Requirements**

- Designed for students who have completed a health-related bachelor’s degree, this program will provide you with the requirements to practise as a registered physiotherapist in just two extra years of study. Develop the capability to assess, treat and prevent human movement disorders, enabling people to lead more functional lives, as a first contact professional or a valued member of an allied healthcare team. Focus on various areas of practice and treatments across sports, musculoskeletal, cardiorespiratory and neurological conditions. Learn practical skills while on field placements in real-world settings, including our on-campus physiotherapy clinics. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a Physiotherapist with the Physiotherapy Board of Australia. You will also be eligible for membership with the Australian Physiotherapy Association.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. The University will also process the required registration with AHPRA. See page 10.

**CAREERS**

Registered physiotherapists can work in a variety of settings, including:

- Private practice / clinics / sporting clubs / gyms / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities / women’s health / paediatric services

**PROGRAM CODE: IMPE | SATAC CODE: 4CM106**

Further your knowledge and expertise in clinical physiotherapy practice. Study a flexible qualification and choose a tailored stream in clinical neuroscience, occupational health and safety or paediatrics, or focus specifically on musculoskeletal or sports physiotherapy. You will complete core courses in evidence-based practice, advanced clinical theory and advanced clinical practice. Complete supervised placements in an environment tailored to your needs and be mentored by advanced clinicians in your specific area of practice. You can also engage with patients in our physiotherapy clinics located on campus. Benefit from flexible learning options with a blend of on-campus and online study and part-time options available. The Sports program is accredited by the Sports Professional Practice Standards Committee of the Australian Physiotherapy Association and graduates are eligible for titled membership with Sports Physiotherapy Australia. The Musculoskeletal program is accredited by the Australian Physiotherapy Association national group, Musculoskeletal Physiotherapy Australia, and graduates are eligible for titled membership.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child Related Clearance. See page 10.

CAREERS

These programs are designed for registered physiotherapists seeking to further their knowledge and skills working in settings such as:

Amateur and elite sport / private practice / clinics / gyms / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities / women’s health / paediatric services / research

ENTRY REQUIREMENTS

- Bachelor degree in physiotherapy, or equivalent entry-level qualification, from a recognised higher education institution, and
- A minimum of ten months full-time, or equivalent, physiotherapy practice in a relevant field following completion of the professional entry-level qualification; and
- Met the eligibility requirements for registration as a physiotherapist, or limited registration under supervision, with AHPRA.

Professional Issues for Sonographers
Ultrasound Physics and Instrumentation
Mammography
Breast Sonography

This program requires the completion of a logbook with supervised ultrasound experience for breast sonography. Applicants are responsible for organizing their own training position in an ultrasound department in order to complete the required scanning experience. Please also note that this program is only available part-time through online delivery, but will require some on-campus intensive/seminar components.
NURSING AND MIDWIFERY

Graduate Certificate in Nursing

Degrees:
- Graduate Certificate in Nursing
- Graduate Certificate in Nursing (Critical Care Nursing)
- Graduate Certificate in Nursing (Cardiovascular Nursing)
- Graduate Certificate in Nursing (Health and Ageing)
- Graduate Certificate in Nursing (Nurse Education)

unisa.edu.au/nursing-midwifery

Further your nursing qualifications and professional expertise through postgraduate study. Develop essential leadership and management skills. Tailor your studies by selecting a specialisation in an area that interests you most. Benefit from flexible learning with the program offered online and part-time over a 12-month period.

CAREERS
Depending on your chosen specialisation, you career options can include:
- Critical care nurse / cardiovascular nurse / aged care nurse / nurse educator / policy adviser

ENTRY REQUIREMENTS
- Bachelor degree in nursing from a recognised higher education institution or equivalent qualification, or
- Completed hospital-based training as a Registered Nurse
- Applicants must also hold a Current Practising Certificate as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA) and have completed a minimum of one year clinical experience as a Registered Nurse

Additional entry criteria applies depending on your chosen specialisation. Go online for more details.

FURTHER STUDY
- Graduate Diploma in Mental Health Nursing
- Graduate Diploma in Perinatal Mental Health
- Master of Nursing
- Master of Nursing (Nurse Practitioner)
- Master of Health Services Management
- Masters by Research
- Doctor of Philosophy (PhD)

DECREE STRUCTURE

INDICATIVE OF NURSING PROGRAM

FIRST YEAR
Critical Perspectives on Nursing and Health Services
9 units to be chosen from the courses below:
- Leadership and Management in Nursing and Health Contexts
- Teaching and Learning Strategies for Health Professional Education
- Educational Assessment for Health Professionals
- Ageing in Contemporary Society
- Therapeutic Encounters in Mental Health

Students may be required to undertake a combination of on-campus or online study.

Graduate Certificate in Nursing (Bridging and Re-entry)

unisa.edu.au/nursing-midwifery

Designed for previously registered nurses in Australia, this program will help you develop the knowledge and skills to re-enter the workforce. Gain an in-depth understanding of the Australian healthcare system, along with key legal and ethical principles relating to nursing, mental health, Aboriginal health, acute aged care and nursing research. Learn about the development of professional and inter-professional communication and relationships. Explore the life span approach to physical examination, primary healthcare and disease prevention, and caring for clients with complex conditions. Access our unique clinician-led, hospital and health service on campus, which includes authentic hospital wards, clinical units and community areas. Gain valuable practical experience by completing a six-week supervised placement in a clinical setting. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHSS) Child-Related Clearance. See page 10. Students must meet the Fitness to Practice in Clinical Placements’ requirements. For more information, visit unisa.edu.au/bridging-reentry

Further your nursing qualifications and expertise through postgraduate studies in mental healthcare. Gain an in-depth understanding of the practical skills needed to assess and deliver care to people experiencing mental illness. Gain the ability to design intervention and evaluation strategies for patients from diverse backgrounds. Explore the psychological and behavioural sciences, co-morbidities, pharmacology and provision of family support within mental health. Develop professional interviewing and assessment skills, and knowledge of broader support services. Complete an industry placement in a healthcare setting during your studies. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

CAREERS
Registered nurses can work in a variety of healthcare settings, including:
- Hospitals / Clinics / primary health services / community support services / aged care / rehabilitative care / schools / home care / drug and alcohol treatment centres / community health organisations / palliative care / youth services

ENTRY REQUIREMENTS
- Nurses educated in Australia need to provide a letter of approval from the Australian Health Practitioner Regulation Agency (AHPRA) on behalf of the Nursing and Midwifery Board of Australia (NMBA) to undertake a NMBA-approved bridging program. The referral must be current for the duration of the program and be obtained by the applicant.
- For more information, visit unisa.edu.au/bridging-reentry

FURTHER STUDY
- Graduate Certificate in Nursing – various specialisations
- Graduate Diploma in Mental Health Nursing
- Graduate Diploma in Perinatal Mental Health
- Master of Nursing
- Master of Health Services Management

Explore the life span approach to physical examination, primary healthcare and disease prevention, and caring for clients with complex conditions. Access our unique clinician-led, hospital and health service on campus, which includes authentic hospital wards, clinical units and community areas. Gain valuable practical experience by completing a six-week supervised placement in a clinical setting. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHSS) Child-Related Clearance. See page 10. Students must meet the Fitness to Practice in Clinical Placements’ requirements. For more information, visit unisa.edu.au/bridging-reentry

Further your nursing qualifications and expertise through postgraduate studies in mental healthcare. Gain an in-depth understanding of the practical skills needed to assess and deliver care to people experiencing mental illness. Gain the ability to design intervention and evaluation strategies for patients from diverse backgrounds. Explore the psychological and behavioural sciences, co-morbidities, pharmacology and provision of family support within mental health. Develop professional interviewing and assessment skills, and knowledge of broader support services. Complete an industry placement in a healthcare setting during your studies. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

Further your nursing qualifications and professional expertise through postgraduate study. Develop essential leadership and management skills. Tailor your studies by selecting a specialisation in an area that interests you most. Benefit from flexible learning with the program offered online and part-time over a 12-month period.

CAREERS
Depending on your chosen specialisation, you career options can include:
- Critical care nurse / cardiovascular nurse / aged care nurse / nurse educator / policy adviser

ENTRY REQUIREMENTS
- Bachelor degree in nursing from a recognised higher education institution or equivalent qualification, or
- Completed hospital-based training as a Registered Nurse
- Applicants must also hold a Current Practising Certificate as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA) and have completed a minimum of one year clinical experience as a Registered Nurse

Additional entry criteria applies depending on your chosen specialisation. Go online for more details.
Advance your nursing career by further developing your knowledge, practical skills and understanding of evidence-based practice. Prepare for senior leadership or governance roles in clinical practice, policy, research, education or management. Learn to identify and investigate questions, issues and challenges that will improve and inform healthcare practice, knowledge and research outcomes. Explore global issues, trends and practices that impact the delivery of nursing and health services through independent research. Be supported throughout your studies by world-class researchers, as well as academics and industry-experienced clinicians. Take your research further by completing doctoral studies following completion of the master’s program. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

**CAREERS**

Mental health nurses can work across a variety of settings, including:
- Hospitals / emergency departments / acute inpatient units / rehabilitation services / justice system / community health services

**ENTRY REQUIREMENTS**
- Bachelor degree in nursing or equivalent qualification from a recognised higher education institution; or
- Completed hospital-based training as a Registered Nurse.
- Applicants must also hold a Current Practising Certificate as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA), a current National Police Certificate (through SAPOL or their home state police service), Department of Human Services (DHS) Child-Related Clearance, and submit a Statement of Employment to the University before an offer will be made.

**YOU MIGHT ALSO LIKE**
- Graduate Certificate in Perinatal Mental Health
- Graduate Diploma in Mental Health

**DEGREE STRUCTURE**

**FIRST YEAR**
- Perspectives in Mental Health Nursing
- Theoretical Approaches to Mental Health Nursing Practice
- Therapeutic Encounters in Mental Health Nursing Practice
- Consolidation of Mental Health Nursing Practice

This program can be studied online, however students may be required to attend on-campus workshops and assessments.

**Master of Nursing**

unisa.edu.au/nursing-midwifery

- City East Campus
- Intakes: Feb
- On-campus / Online
- Commonwealth supported*
- 15 years full-time
- 15 years part-time study available

**PROGRAM CODE:** IMNI  |  **SATAC CODE:** 4CM053

*see page 36 for more information

**FURTHER STUDY**
- Master of Health Services Management
- Masters by Research
- Doctor of Philosophy (PhD)

**ENTRY REQUIREMENTS**
- Bachelor degree or higher in nursing from a recognised higher education institution with a minimum Grade Point Average (GPA) of 5.
- Applicants must also hold a Current Practising Certificate as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA); and
- Completed a minimum two years of clinical experience as a Registered Nurse.

**CAREERS**

This program is designed for registered nurses seeking to further their qualifications and can lead to senior roles in:
- Leadership / governance / healthcare policy / education / management / consultancy / development / research

**NOTE:**
- Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Child-Related Clearance. See page 10. Students must meet the Fitness to Practice in Clinical Placements’ requirements. For more information, visit unisa.edu.au/health/ftp

“...“The program allowed me to experiment with solutions to solve actual problems I was having as a novice educator. I now work as a Flight Nurse Midwife Educator in clinical aviation safety with NSW Air Ambulance, delivering evidence-based education programs to my staff. I am also currently working on a project to design and develop a state-wide curriculum for all clinicians involved in NSW health retrieval.”

Mark Holmes, nursing (nurse education) graduate
Master of Nursing (Nurse Practitioner)
unisa.edu.au/nursing-midwifery

- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE

FIRST YEAR
- Research for Advancing Nursing, Midwifery and Health Care
- Qualitative Design for Nursing, Midwifery and Health Research
- Quantitative Design for Nursing, Midwifery and Health Research

Nursing or Midwifery Minor Thesis 1
Nursing or Midwifery Minor Thesis 2

This program can be studied online, however all students are required to attend some on-campus workshops and assessments.

PHARMACY

Graduate Certificate in Pharmacy Practice
Nested with:
- Master of Clinical Pharmacy (IMCM)

unisa.edu.au/pharmacy

City East Campus
Intakes: Feb, Jul

Online
Commonwealth supported* $ 0.5 years full-time

PROGRAM CODE: ICPH | SATAC CODE: 4GC059
*see page 36 for more information

Designed for graduate and registered pharmacists, this qualification focuses on developing specialised skills in contemporary pharmacy practice. You can complete the UniSA Pharmacy Intern Training Program to become a registered practising pharmacist, or use the qualification to gain specialist training and skills in selected areas of pharmacy practice. Study advanced training in patient assessment, clinical tests, pharmacotherapeutics, evidence-based medicine, health economics, ethics, law and communication. Be mentored by practising pharmacists and academics who are leaders in their field. Benefit from strong links to internationally-renowned research groups, along with the UniSA Cancer Research Institute and the Centre for Cancer Biology. Learn at your own pace with flexible online study available.

CAREERS
This program is designed for pharmacists seeking to further their expertise and can lead to specialised careers in:
- Hospital and community settings / primary care / drug development testing, manufacturing, evaluation and quality control / drug regulation / research / academia

ENTRY REQUIREMENTS
This program is available to both registered pharmacists and pharmacy graduates that have not yet registered with the Australian Health Practitioner Regulation Agency (AHPRA).

Registered pharmacists
- Applicants are required to be a Registered Pharmacist with AHPRA

Pre-registration (intern)
- Applicants are required to have:
  - A bachelor degree in pharmacy or graduate entry level master of pharmacy from a university that is accredited by the Australian Pharmacy Council (APC) in Australia or New Zealand; and
  - Obtained or applied for provisional registration through AHPRA

FURTHER STUDY
- Master of Clinical Pharmacy
- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE

PRE-REGISTRATION PATHWAY
- Social and Ethical Issues in Health
- Advanced Pharmacy Practice
- Plus two of the following 3 courses:
  - Advanced Pharmacotherapeutics (Mental Health)
  - Advanced Pharmacotherapeutics (Diabetes)
  - Introductory Epidemiology

REGISTERED PHARMACIST PATHWAY
- Applied Clinical Pharmacy
- Advanced Pharmacotherapeutics (Mental Health)
- Advanced Pharmacotherapeutics (Diabetes)
- Introductory Epidemiology

This program is available online, but will require some on-campus assessment. This program is delivered through part-time study only.

Master of Clinical Pharmacy
unisa.edu.au/pharmacy

City East Campus
Intakes: Feb, Jul

Online
A$23,500 pa* 15 years full-time

PROGRAM CODE: IMCM | SATAC CODE: 4CM038
*see page 36 for more information

Develop the advanced knowledge and skills to provide specialist pharmaceutical services. Take a leading role in drug product selection and providing specialist drug information and education to patients and healthcare providers. Learn to effectively monitor a patient’s therapy and critically evaluate clinical research. Study key areas such as clinical pharmacy practice, epidemiological concepts, pharmaceuticals, and research methods and biostatistics. Be mentored by practising pharmacists and academics who are leaders in their field. Benefit from strong links to internationally-renowned research groups along with the UniSA Cancer Research Institute and the Centre for Cancer Biology. Learn at your own pace with flexible online and part-time study available.
CAREERS
This program is designed for registered pharmacists seeking to further their expertise and can lead to specialised careers in settings, including:
- Hospital and community settings / clinical environments / clinical research / academia / specialist drug information and education programs

ENTRY REQUIREMENTS
- Bachelor degree in pharmacy or equivalent qualification;
- Registration as a pharmacist with the Pharmacy Board of Australia (PBA) or for permanent residents not practising in Australia, be a Registered Pharmacist in their current country of residence; and
- Experience in a direct patient care environment.

FURTHER STUDY
- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE
FIRST YEAR
- Applied Clinical Pharmacy
- Introductory Epidemiology
- Advanced Pharmacotherapeutics (Mental Health)
- Advanced Pharmacotherapeutics (Diabetes)
- Advanced Pharmacotherapeutics 1
- Advanced Pharmacotherapeutics 2
- Advanced Pharmacotherapeutics 3A
- Research Methods and Biostatistics

SECOND YEAR
- Medicine Management Clerkship
- Clinical Pharmacy Research Project

This program is available online, but will require an on-campus or field placement and some on-campus assessment.

LABORATORY MEDICINE

Graduate Certificate in Surgical Pathology Preparation
unisa.edu.au/laboratory-medicine

Online
0.5 years full-time
Intakes: Feb

$ Commonwealth supported*
✓ part-time study available

PROGRAM CODE: ICSP | SATAC CODE: 4GC052
*see page 36 for more information

Develop your knowledge and expertise through a specialised qualification in surgical pathology designed for professionals working in an anatomical pathology laboratory. Complete advanced training in the dissection, sampling and preparation of tissues for histopathological examination and diagnosis. Undertake specialised training in specimen recording, data storage and retrieval, standard operating procedures, equipment use, occupational health and safety, and macro and microphotography. Combine online coursework and learning in a virtual classroom with supervised training in your workplace.

CAREERS
This program can extend your career in surgical pathology across the following settings:
- Private practice / hospitals / forensic pathology departments / pharmaceutical companies / veterinary medicine / public health departments / research laboratories / education institutions

ENTRY REQUIREMENTS
- Bachelor degree or diploma in biomedical science, medical laboratory science or equivalent; and
- Major in or completed advanced studies in laboratory histopathology; and
- On-going access to a NATA-accredited (or NPACC-recognised) pathology laboratory (to fulfil supervisory requirements)

FURTHER STUDY
- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE
FIRST YEAR
- Tissue Structure in Health and Disease
- Surgical Pathology Project
- Surgical Pathology Workbook

Students complete their studies online and are not required on-campus. This program is delivered through part-time study only.

HEALTH SCIENCE

Graduate Diploma in Mental Health
unisa.edu.au/nursing-midwifery

City East Campus
Intakes: Feb, Jul
On-campus/ Online
0.5 years full-time
✓ part-time study available

PROGRAM CODE: IGME | SATAC CODE: 4GD047
*see page 36 for more information

Advance your knowledge as a healthcare professional with postgraduate studies focused on mental health. Gain practical skills needed to assess and deliver care to people experiencing mental health problems and mental illness. Explore the psychosocial and behavioural sciences, comorbidity and pharmacology within mental health along with key legal and ethical considerations. Develop professional interviewing and assessment skills, and knowledge of broader support services. Complete an industry placement in a healthcare setting during your studies. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

CAREERS
Mental health professionals can work across a variety of settings, including:
- Public mental health services / rehabilitation centres / aged care facilities / youth services / community health services / private mental health services

ENTRY REQUIREMENTS
- Relevant bachelor degree or equivalent qualification from a recognised higher education institution
- Registered Nurses seeking employment in the area of mental health should apply for entry into the Graduate Diploma in Mental Health Nursing. See page 30.

YOU MIGHT ALSO LIKE
- Graduate Certificate in Perinatal Mental Health
- Graduate Diploma in Mental Health Nursing

This program can be studied online, however students may be required to attend on-campus workshops and assessments.

Graduate Certificate in Population Health Practice
unisa.edu.au/health-science

City East Campus
Intakes: Feb
On-campus/ Online
0.5 years full-time
✓ part-time study available

PROGRAM CODE: ICPR | SATAC CODE: 4GC082
*see page 36 for more information

Study the health of different populations and associated inequities in health conditions and care. Learn alongside active researchers and data custodians involved in real-world health initiatives. Apply common analytics and statistical methods to population data sets to identify potential health trends and challenges. Explore activities used to improve public health, learn relevant research methods, and develop the skills to interpret and manage complex data. Access the latest software used by industry to analyse large volumes of data. Benefit from flexible learning including online and part-time study.
CAREERS
This program is designed for health professionals seeking specialised population health roles in:
Government departments and agencies / health organisations / regulatory bodies / health research centres / research institutes / health education

ENTRY REQUIREMENTS
- Bachelor degree in a health science area from a recognised higher education institution or equivalent qualification;
- Minimum one year of full-time, or equivalent, work professional / clinical experience in a health science related area, following completion of the undergraduate degree.

YOU MIGHT ALSO LIKE
- Graduate Certificate in Health Science (Clinical Education)

FURTHER STUDY
- Master of Research (Population Health Practice)

DEGREE STRUCTURE
FIRST YEAR
Biostatistics for Population Health Practice
Foundations of Public Health Epidemiology
Health Data Sources and Management
Evaluation in Public and Community Health

Students may complete their studies online or on-campus.

Graduate Certificate in Health Science (Clinical Education)
unisa.edu.au/health-science

2 years
PROGRAM CODE: IMHM | SATAC CODE: 4CM211
1.5 years with Advanced Standing
PROGRAM CODE: IMHM | SATAC CODE: 4CM215
*see page 36 for more information

Graduate with a unique postgraduate qualification that will prepare you for a wide variety of leadership and management positions across the healthcare and ageing sectors. Study a blend of health and business related courses with a contemporary health management focus. Develop critical skills in management, administration, leadership, communication, project management and financial management. Build your knowledge in providing overall strategic direction and management to services and organisations; developing, implementing and monitoring procedures, policies and standards for medical, allied health and administrative staff, coordinating and administering health and welfare programs and clinical services; and controlling administrative operations such as reporting and budget planning. Gain valuable practical experience by completing a major project targeting a real-world health management issue. Benefit from a curriculum influenced by world-class business and management research.

CAREERS
Clinical manager / practice manager / aged care director / health and welfare services manager / medical administrator / hospital administrator / primary health organisation manager

ENTRY REQUIREMENTS
- Bachelor degree from a recognised higher education institution. Some applicants may be eligible for Advanced Standing and can complete the program in 1.5 years full-time study or equivalent part-time study.

FURTHER STUDY
- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE
FIRST YEAR
Business Analytics and the Data-driven Organisation
Managing Change
Foundations of Public Health Epidemiology
Workplace Health and Safety Management

SECOND YEAR
Service Management
Project Management for Business
Business Ethics
Accounting for Health Management
Performance Review and Health Economics
Health Ethics
Capstone in Health Services Management

Students may be required to undertake a combination of on-campus or online study. Students may be required to attend on-campus lectures, tutorials and practicals.

RESEARCH
Make a positive and lasting contribution to your field through a research degree.

To explore our research degrees, visit unisa.edu.au/resdegrees

To learn more about how to apply, visit unisa.edu.au/apply

Master of Research (Population Health Practice)
unisa.edu.au/health-science

Masters by Research | PROGRAM CODE: IMPU

Complete a body of original research focusing on population health under the supervision of experienced researchers, and in collaboration with industry partners.
Investigate the patterns, causes and effects of health and disease in a defined population group. Learn alongside active researchers who are involved in real-world population and public health initiatives. Benefit from a strong focus on authentic, enquiry-based learning in order to develop new knowledge that will have a meaningful impact on the health industry and wider community. Present your research findings through publications and conference presentations. Take the opportunity to work with world-class researchers from the Centre for Population Health Research (CPHR) based at the South Australian Health and Medical Research Institute (SAHMRI), the Alliance for Research in Exercise, Nutrition and Activity (ARENA), the International Centre for Allied Health Evidence (ICAHE), and Body in Mind (BiM).

ENTRY REQUIREMENTS
Applicants must satisfy the entry requirements set by the University’s Research Degrees Committee. You may be eligible for admission if you have an:
- Honours degree or a bachelor degree with honours; or
- Relevant bachelor degree or equivalent qualification of at least three years with a minimum credit average; or
- Appropriate master’s degree; or
- No tertiary qualifications, but can demonstrate research capabilities through evidence of professional work experience in the field of proposed study and by relevant quality publications.

FURTHER STUDY
- Doctor of Philosophy (PhD)

Masters by Research
Doctor of Philosophy

DIVISION OF HEALTH SCIENCES
- School of Health Sciences
- School of Nursing and Midwifery
- School of Pharmacy and Medical Sciences

Achieve research-based outcomes aimed at improving the health and wellbeing of individuals, groups and communities. Be mentored and supervised by some of Australia’s leading scientists in world-class facilities including the $247 million UniSA Cancer Research Institute. Connect with our health and medical researchers, who are focused on preventing illness, improving health systems and services, creating more effective therapies, and advancing health equality. Choose to focus on a discipline that interests you most including areas such as cell biology, vaccine development, allied health, nutrition, neuroscience, epidemiology, therapeutics and more.

DISCIPLINE AREAS
- Aboriginal Health
- Cancer
- Healthy Lifestyles
- Neuroscience and Mental Health
- Pharmaceuticals
- Population Health

For more information on disciplines and areas of research, visit unisa.edu.au/health/research

ENTRY REQUIREMENTS
Masters by Research
- Bachelor degree of at least three years in a relevant discipline with a minimum credit average; or
- Honours 1, Honours 2, Honours 3 or an appropriate master’s degree or equivalent qualification; or
- No tertiary qualifications (some discipline areas only) with demonstration of research capabilities via assessment of relevant quality publications and professional experience.

Doctor of Philosophy (PhD)
- Honours 1, Honours 2A, or an appropriate master’s degree or equivalent qualification.

Alternative entry
- Other postgraduate and undergraduate degrees may be considered for admission into the Masters by Research or Doctor of Philosophy (PhD) with demonstration of research capabilities via assessment of relevant quality publications and professional experience.

Eligibility for entry into a research degree is also subject to an assessment of the proposed research, supervisor availability, and any University or research-specific eligibility requirements.

“I love interacting with incredibly smart people working in academia and the pharmaceutical industry, and we all have the common goal of improving patient health and quality of life. My research has allowed me to travel around the world, and focuses on creating new tablet and capsule formulations to help improve the use of various drugs that are either currently on the market or in drug discovery pipelines.”

Tahnee Dening, Doctor of Philosophy (PhD)
Minimum entry requirements for undergraduate bachelor and associate degrees

APPLYING WITH YEAR 12
Applicants are required to have successfully completed the South Australian Certificate of Education (SACE) with:

- a competitive Selection Rank (ATAR), AND
- the fulfilment of the program’s prerequisite requirements (where applicable).

Applicants may also be eligible to compete for entry if they have completed the program’s prerequisite requirements and have completed one of the following:

- an interstate or overseas qualification considered by the University as equivalent to SACE, or
- the International Baccalaureate Diploma with a minimum score of 24 points.

ADJUSTMENT FACTORS
Universities in South Australia include ATAR-related adjustment factors (previously known as bonus points) for Australian high school students applying for entry into university via the following schemes:

- The Universities Equity Scheme – provides additional points for students coming from specified schools, as well as individuals experiencing disadvantage.
- The Universities Language, Literacy and Mathematics Adjustment Scheme – provides additional points for students who successfully complete a language other than English, or specified English and Mathematics subjects.

unisa.edu.au/adjustmentfactors

GUARANTEED ENTRY
UniSA offers guaranteed entry into many programs for domestic Year 12 and VET students. If your Selection Rank (ATAR) or VET award meets the UniSA Guaranteed Entry score for that program, you have met the prerequisites and any other program specific entry requirements, and you have listed the program as your first preference, you are in. It’s guaranteed. Please note application timelines may apply.

unisa.edu.au/guaranteed

ADMISSIONS PATHWAYS
Entering your chosen program straight from high school is not the only pathway into UniSA. Applicants may also meet the minimum requirements to apply for entry (via competitive selection) through one of the following pathways:

Higher Education Study – completion of at least half a year of full-time equivalent study at UniSA or a recognised higher education institution. You can apply using your Grade Point Average (GPA).

Higher Education Diploma – completion of a higher education diploma from UniSA College (applicable programs listed on each bachelor program in this guide), the South Australian Institute of Business and Technology (SAIBT), or another recognised higher education institution.

Special Entry – a competitive Special Tertiary Admissions Test (STAT) score. A personal competencies statement or relevant employment experience may also be considered for some programs.

Vocational Education Training (VET) – applicants may be eligible for entry with the completion of an award from TAFE, or another Registered Training Organisation at AQF Certificate IV or above.

UniSA College – there are a variety of pathway options offered through UniSA College, including diplomas and the Foundation Studies program.

Alternative Pathways – there are a range of alternative pathways including bridging qualifications offered through SAIBT and Eynesbury.

Open Universities Australia – completion of at least four Open Universities Australia (OUA) courses at an undergraduate level or higher.

unisa.edu.au/pathways

BEFORE APPLYING
All applicants should check and ensure that they meet all entry and prerequisite requirements before applying. For more information on entry requirements, visit:

unisa.edu.au/study

SUPPORT SERVICES
UniSA offers a full range of support services, including career advice, disability and inclusion services, and counselling. For more information, contact (08) 8302 2376 or visit:

unisa.edu.au/studentservices

SCHOLARSHIPS
UniSA offers a range of scholarships and grants to support students from all walks of life. Each year, 2,500 students benefit from scholarships at UniSA, providing financial assistance as well as valuable work experience, mentoring opportunities and even overseas travel. For more information and to check the eligibility criteria, visit:

unisa.edu.au/scholarships

HOW TO APPLY
Applications to most programs at UniSA are administered through the South Australian Tertiary Admission Centre (SATAC). For more information, visit:

unisa.edu.au/apply

For UniSA Online degrees apply directly at, unisaonline.edu.au

FEES
All domestic undergraduate students at the University of South Australia are in Commonwealth-supported places. Students in these places pay a contribution of their fees depending on the program chosen and the contribution band in which those courses are classified (see table below). The amount of your student contribution also depends on the unit value of your courses of study.

As per the Australian Government guidelines, the student contribution amounts for 2019 are:

<table>
<thead>
<tr>
<th>BAND</th>
<th>AREA OF STUDY</th>
<th>STUDENT CONTRIBUTION FOR ONE YEAR OF FULL-TIME STUDY (1 EFTSL)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Humanities, behavioural science, social studies, foreign languages, visual and performing arts, clinical psychology, nursing and education</td>
<td>$6,566</td>
</tr>
<tr>
<td>2</td>
<td>Computing, built environment, health, engineering, surveying, agriculture, Mathematics, statistics, science</td>
<td>$9,359</td>
</tr>
<tr>
<td>3</td>
<td>Law, dentistry, medicine, veterinary science, accounting, administration, economics, commerce</td>
<td>$10,958</td>
</tr>
</tbody>
</table>

Some postgraduate programs are also Commonwealth-supported (or CSP), while others are full fee-paying; this is listed on applicable programs. For programs under 1.0 year full-time study, fees are listed as the whole program fee (indicative of 2019). For programs over 1.0 years full-time study, fees are listed based on the cost per annum (indicative of 2019). For more information on fees including eligibility for Commonwealth-supported places, deferring your student contribution through HECS-HELP or FEE-HELP loans, please visit:

unisa.edu.au/fees

Need some help? Contact Future Student Enquiries on (08) 8302 2376 or submit an enquiry via unisa.edu.au/enquire
Universities in South Australia include ATAR-related adjustment factors for entry into universities. The Universities Language, Literacy and Mathematics Adjustment Scheme provides additional points for students coming from specified schools, as well as individuals who successfully complete a language other than English, or specified courses, such as English Language Proficiency and English for Academic Purposes. The Universities Equity Scheme also provides additional points for students who meet specific eligibility criteria.

### Before Applying
- Students are required to have successfully completed the South Australian Certificate of Education (SACE) with the following minimum requirements:
  - ATAR of 25–29
  - ATAR of 30–34
  - The International Baccalaureate Diploma with a minimum score of 24 points.

### Applying with Year 12
Students who have completed a full year of higher education study, including bridging qualifications offered through SAIBT and Eynesbury, can apply for entry through one of the following schemes.

#### Universities Australia (OUA) Courses
Graduates of any universities in Australia, including bridging qualifications offered through SAIBT and Eynesbury, can apply for entry through one of the following schemes.

#### Alternative Pathways
Graduates of TAFE or other Registered Training Organisations at AQF Certificate IV or above can apply for entry with the completion of an award from TAFE or another Registered Training Organisation.

#### Special Tertiary Admissions Test (STAT)
A competitive STAT score is required for entry into certain programs. A personal competencies statement or relevant employment experience can be submitted to support the application.

### UniSA Offers Guaranteed Entry
UniSA offers guaranteed entry into many programs for domestic students with an ATV of 25–29. This scheme is available for programs that meet the requirements of the Guaranteed Entry Scheme.

### Fees
UniSA offers a full range of support services, including career advice, scholarships, and a voice for students, and coordinates clubs, social events, the student magazine and more. For more information visit, unisa.edu.au/USASA

#### Fees
- For domestic students, the student contribution also depends on the unit value of your courses of study. Full-time students at the University of South Australia pay a contribution of their fees depending on the Australian Government guidelines.
- Fees for UniSA Online degrees apply directly at, unisaonline.edu.au

#### Scholarships
UniSA offers a range of student accommodation options, including the new UniSA Student Accommodation by Urbanest located in the Adelaide CBD. For more information visit, unisa.edu.au/accommodation

### Student Accommodation
- UniSA offers a range of student accommodation options, including the new UniSA Student Accommodation by Urbanest located in the Adelaide CBD.
