2021 NURSING, HEALTH AND MEDICAL SCIENCES
Reach your peak performance

Your unstoppable career starts here.

Healthcare and social assistance is Australia’s largest and fastest growing industry, employing more than 1.5 million people.

Australia is a global leader in biotechnology and pharmaceuticals, with $1.3 billion invested nationally in medical innovation initiatives to support clinical trials and industry research programs.

More than $1.25 billion has been invested in healthcare initiatives in South Australia, including community health services and hospital upgrades.

The Commonwealth of Australia, 2018–19 Budget.

Play an important role in shaping the wellbeing of communities as a dynamic health professional. Benefit from interactive learning, highly respected teaching staff, and the latest research and practice. Get hands-on experience by completing industry-relevant projects and practical placement opportunities. Access purpose-built facilities, including a wide range of laboratories and simulated hospital and health service environments located on campus.

Helping the homeless

Addressing the challenges faced by people experiencing homelessness in Adelaide is a complex issue that inspires passion, particularly for UniSA lecturer and researcher, Dr Katia Ferrar.

On any given night, more than 5,000 South Australians are homeless, encountering unique barriers when it comes to accessing health services.

In partnership with The Salvation Army, Dr Ferrar spearheaded the development and launch of UniSA’s Open Door Health Clinic, a facility offering pro bono physiotherapy and podiatry services for those experiencing homelessness and people in crisis.

While working to improve health and wellbeing outcomes for at-risk community members, the clinic also delivers rewarding learning experiences for students, who work under the supervision of qualified clinical educators.

Students are able to develop an increased sense of social justice, become more adaptable in the delivery of healthcare services, and are exposed to the realities of communities in need.

Dr Ferrar is highly celebrated and has been recognised as the AMP Tomorrow Maker 2016, Winnovation Awards finalist 2017 and Unsung Hero of Science finalist 2018.

FIRST IN ALLIED HEALTH

With more than 50 years’ experience in allied health education and research, we offer unique opportunities for future health professionals to graduate career-ready. Learn from industry-leading clinicians and award-winning teaching staff across our suite of established degrees, including physiotherapy, podiatry, occupational therapy, speech pathology, medical radiation, and more. Gain hands-on experience through our on-campus clinics, as well as industry placements with more than 300 partners throughout Australia and around the world.

REAL-WORLD EXPERIENCE

Develop your skills and professional networks beyond the classroom. We partner with elite sporting teams and industry-leading organisations, including the Queen Elizabeth Hospital, Adelaide United Football Club, the Australian Defence Force Adaptive Sports Program, SA Metropolitan Fire Service and Helping Hand Aged Care, to bring you practical, hands-on experience through a range of scholarships and placements. We also facilitate the world-first Invictus Pathways Program with ongoing support from The Road Home. This unique training program provides placement and learning opportunities for students across different health disciplines to use the power of sport to support wounded, injured and sick service personnel.

UNIQUE DEGREES

We offer South Australia’s only degrees in pharmacy, pharmaceutical science and medical radiation science (medical imaging, radiation therapy and nuclear medicine). We also have the state’s only fully-accredited undergraduate degrees in podiatry, physiotherapy, exercise and sport science, occupational therapy, and clinical exercise physiology. You can also enrol in one of our unique double degrees, combining disciplines such as human movement or exercise and sport science with psychology or nutrition and food sciences for a competitive edge in the growing health and wellness industry.
FLYING HIGH
We have partnered with the Adelaide Football Club to provide industry placements for students and research collaboration opportunities. Students can apply their learnings in exercise and sport science in an elite sporting environment working alongside AFL sports scientists and high performance coaches. There are also opportunities to engage in sports research, focusing on optimal player performance and injury prevention.

HANDS-ON NURSING DEGREE
Study a top-ranking undergraduate nursing degree at UniSA. Take advantage of our practical approach to learning, including the highest number of placement hours in public and private hospitals and community organisations across South Australia. We also have a unique, simulated hospital and health service environment located on campus, which includes authentic hospital wards, clinical units and community areas. You will learn under the guidance of practising clinicians and academics and develop the confidence to work in real-world settings.

ENGAGE IN THE SCIENCES
Benefit from a learning experience rich in new knowledge, and join the global fight against illness and disease as an aspiring medical laboratory scientist, medical researcher or pharmacist. Strong teaching links with our internationally-renowned research groups, including the UniSA Cancer Research Institute and Centre for Cancer Biology, means that you will learn from and work alongside award-winning researchers at the forefront of their profession. Study in modern, purpose-built facilities, and gain hands-on experience as you prepare for a career in industry or life-changing research.
Learn a language

Develop the skills you need to work internationally and increase your career opportunities by studying a second language. Learn French, Italian, Japanese or English (for speakers of English as a second language) through a Diploma in Languages. Access the Multimedia Languages Lab at Magill Campus and connect with native speakers from around the world in real-time. Graduate with an additional qualification by studying the diploma alongside your undergraduate degree.

unisa.edu.au/languages

Experience student life

Enjoy life beyond the classroom by getting involved in campus culture. Connect with new people at Orientation, keep active with UniSA Sport and on-campus fitness centres, or find your tribe with more than 100 student clubs to choose from. Discover our wide range of events throughout the year and connect with our student association, USASA.

unisa.edu.au/studentexperience

Get career ready

Prepare for your future career from first year with support from our Career Services team. Access our online Career Hub for self-help resources, including tips on resume writing and an interview simulator. There are also professional and exclusive job listings. Connect with a career adviser for help with career mapping, attend industry events to build your professional networks, and walk into one of our drop-in centres on campus for general careers advice.

unisa.edu.au/careers

Dr Sophie Lefmann’s passion for paediatric physiotherapy has led her to a research project focused on robotic rehabilitation in collaboration with the Women’s and Children’s Hospital. The team are exploring how robotic devices that assist with walking and arm movement recovery can help children with neurological impairments, such as brain injury or cerebral palsy.

“The children find using the devices fun, and there are a lot of potential physical benefits, so the field is looking promising.

The early years of development are a life-changing stage, so being able to help children maximise their potential, in even the smallest of ways, is a privilege.”

Sophie’s involvement in research, teaching and clinical practice has allowed her to see first-hand the difference an allied health professional can make in the lives of others.

Dr Sophie Lefmann | Lecturer in Physiotherapy

ONE OF THE BEST YOUNG UNIVERSITIES IN AUSTRALIA FOR TEACHING QUALITY

Ranked #2, 2019 THE Young University Rankings
GET CONNECTED

PRACTICAL LEARNING
UniSA offers more than 200 world-class degrees across a wide range of discipline areas. You will learn in a highly practical environment. Take the opportunity to complete an internship or placement during your studies, learning from experts in a real-world setting. Build your networks and graduate career-ready with the skills required of tomorrow’s professionals.

TOP RANKING TEACHERS
Make your study experience relevant, and learn from highly qualified academics and industry professionals. In fact, UniSA is one of Australia’s best young universities for teaching quality (Ranked #2, 2019 THE Young University Rankings).

WORLD-CLASS FACILITIES
Study in modern, purpose-built facilities across all six UniSA campuses. Learn with the latest industry-standard tools and technologies that will take you from the classroom into the workplace. This includes state-of-the-art laboratories, collaborative learning areas, creative studios, workshops and simulation spaces.

POWERFUL PARTNERSHIPS
We collaborate with more than 2,500 companies worldwide to bring our students placement, project, research and work opportunities. Connect with industry professionals during your studies and benefit from curriculum informed by the latest industry practices.

REAL RESEARCH
Our research is innovative and inspired by challenges. We produce new knowledge that provides solutions to industry, businesses and the wider community. Explore cutting-edge insights in your chosen degree, influenced by our world-class research outcomes.

“UniSA graduates come to us with a good understanding of industry, and an ability to apply what they have learned through placements, project work and theory. We look for people like this who are work ready, have compassion and curiosity, and who have made connections with people and industry early in their studies.”

Megan Corlis | Executive Manager Research and Development | Helping Hand

OPTION 2  
UNDERGRADUATE PATHWAYS

Choose one of the following degrees and complete a year of full-time or equivalent part-time study; then apply for your preferred degree via SATAC using your competitive Grade Point Average (GPA). Through this option, you will compete with a smaller group of UniSA students for entry.

Bachelor of Human Movement  OR  Bachelor of Health Science (Public Health)  OR  Bachelor of Exercise and Sport Science

OPTION 3  
POSTGRADUATE PATHWAYS

Complete one of the following bachelor degrees, then use your competitive Grade Point Average (GPA) to apply for your preferred master’s* program via SATAC. Through this option, you will compete with a smaller group of UniSA students for entry.

Bachelor of Human Movement  OR  Bachelor of Exercise and Sport Science  +  Master of Physiotherapy (Graduate Entry)

Bachelor of Human Movement  OR  Bachelor of Health Science (Public Health)  OR  Bachelor of Exercise and Sport Science  +  Master of Occupational Therapy (Graduate Entry)

Checklist

HOW TO CHOOSE THE RIGHT PATHWAY...

● Does the pathway degree really interest you?
● Do you like the courses in the pathway degree?
● Are you passionate about the career outcomes?

Please note that all pathways are competitive and not guaranteed due to limited places.

*A competitive Grade Point Average (GPA) and other entry criteria (including prerequisites) apply.

Admissions information

National Police Certificate and Department for Human Services Working with Children Check

All students studying a health-related discipline who complete a placement or activity where interaction with patients/the public is required as part of their program, must provide evidence of the following:
- A current National Police Certificate (NPC) through SAPOL or their home state police service; and
- A current Department of Human Services (DHS) Working with Children Check.

Both of these must be valid for the duration of the student’s degree. The National Police Check will list disclosable court outcomes, which may prevent a student’s involvement in placement opportunities.

Student registration

All students enrolled in a program leading to professional registration must be registered with the relevant national board. The student registration process is completed by the University to the Australian Health Practitioner Regulation Agency (AHPRA) after enrolment. No fees apply.

Immunisation requirements

In order to be eligible for industry placement, students must be screened and provide evidence of their immunisation status. Immunisation is a mandatory requirement across all healthcare placement providers. Non-compliance with the Health Care Workers Immunisation Policy Directive will prevent students from progressing to a placement. Additional requirements may apply.

UniSA College pathways: Foundation Studies

Prerequisites: none

Assumed knowledge: none

Prepare for a highly rewarding career in maternity care and women's health as a Registered Midwife. Develop the knowledge and practical skills to support women through pregnancy, labour, birth and postnatal care. Benefit from a strong focus on theory and hands-on experience including industry placements to prepare you for clinical practice.

As an international profession with different birthing practices all over the world, you will learn how political, socio-cultural, economic and technological factors influence midwifery practice. Learn in our clinician-led, authentic simulated hospital and health service on campus, which incorporates a birthing suite, special care nursery and postnatal area, as well as technologies such as birthing manikins.

Complete comprehensive placement hours and be actively involved in 30 births during your studies, along with the pre and post-birth care of at least 100 women. You will also follow 15 women through continuity of care experiences. Graduate with the academic requirements needed for registration as a Midwife with the Nursing and Midwifery Board of Australia (NMBA).

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12. Students must meet the Fitness to Practice in Clinical Placements requirements. For more information, visit unisa.edu.au/health/ftp

Note 2: This program has a pathway to enable midwives who have not practised for between five and ten years to fulfil the re-entry to practice requirements (eligibility criteria apply).

CAREERS

Registered midwives can work in a variety of healthcare settings, including:

- Hospitals / community services / rural and remote healthcare /
- home care services / health agencies

YOU MIGHT ALSO LIKE

- Bachelor of Nursing
- Bachelor of Early Childhood Education (Honours)

FURTHER STUDY

- Graduate Certificate in Perinatal Mental Health
- Master of Midwifery
- Master of Health Services Management

DEGREE STRUCTURE

FIRST YEAR

Foundations of Midwifery
Human Body 1
Normal Pregnancy and Childbirth
Experiential Learning Activity: Midwifery Foundation Practicum 1
Human Body 2
First Peoples’ Health
Healthy Mothers and Babies

SECOND YEAR

Complex Care across the Childbirth Continuum
Fetal and Maternal Pathophysiology
Experiential Learning Activity: Midwifery Development Practicum 2
Complex Care of the Neonate
Pharmacology and Diagnostics for Midwives
Experiential Learning Activity: Midwifery Practice Development Practicum 3

Students may be required to undertake a combination of on-campus or online study. Students may be required to attend on-campus lectures, tutorials and practicals.

Prerequisites: none
Assumed Knowledge: none

Become a Registered Nurse and make a positive contribution to the healthcare sector. Develop the knowledge, clinical skills and attitudes needed for professional practice in a range of settings. Benefit from a strong focus on theory and practical experience, including access to our unique clinician-led, hospital and health service on campus, which includes authentic hospital wards, clinical units and community areas. Be prepared to meet healthcare delivery requirements for the 21st century and respond to Australian and international healthcare priorities and trends. Focus on four key areas of nursing practice during your studies, including collaborative and therapeutic practice, critical thinking and analysis, professional practice, and provision and coordination of care. Learn about cultural competence, evidence-based practice, mental health, primary health, professional communication, and safety and quality. Complete more than 900 placement hours starting in your first year of study. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services Working with Children Check. See page 12. Students must also meet Fitness to Practice in Clinical Placements requirements. For more information, visit unisa.edu.au/health/ftp
Note 2: Specific English language requirements apply to enable registration with the Nursing and Midwifery Board of Australia (NMBA).

CAREERS
Registered nurses can work in a variety of healthcare settings, including:
- Hospitals / primary health and community support services / aged and rehabilitative care / schools / home care services / drug and alcohol treatment centres / community health organisations / mental health services / international aid agencies / correction facilities

YOU MIGHT ALSO LIKE
- Bachelor of Midwifery
- Bachelor of Social Work

FURTHER STUDY

- Graduate Diploma in Mental Health Nursing
- Master of Nursing
- Master of Health Services Management

DEGREE STRUCTURE

FIRST YEAR
- Being a Health Professional
- Global and National Health
- Human Body 1
- First Peoples’ Health
- Mental Health
- Experiential Learning Activity: Preparation for Clinical Practice Practicum 1

SECOND YEAR
- Scientific Basis of Clinical Practice
- Health of Older Adults
- Experiential Learning Activity: Older Adults Practicum 2
- Health of Adults
- Health of Infants, Children and Young People
- Experiential Learning Activity: Acute Care Practicum 3

THIRD YEAR
- Nursing Contexts of Practice
- Research Methodologies
- Becoming a Registered Nurse
- Experiential Learning Activity: Transition to Practice Practicum 5
- Nursing Project

Students may be required to undertake a combination of on-campus or online study. Students may be required to attend on-campus lectures, tutorials and practicals. This program is also offered externally through online study.
“My teachers helped me to become the holistic and caring Registered Nurse I am today. After learning new skills using the unique virtual health community and on-campus simulated hospital environment, I completed placements in a rural nursing home, a stroke unit, neurosurgery ward and a cardiac surgical unit. The highlight was observing an open-heart surgery, which ultimately led me to a career in paediatric surgical nursing.”

UniSA College pathways: Foundation Studies or Diploma in Health
Prerequisites: SACE Stage 2 Biology, or SACE Stage 2 Chemistry, or SACE Stage 2 Physics.
Assumed knowledge: none

Choose four specialist elective courses that align to your career interests in biosciences, chemistry or marketing.

Study the only degree of its kind in South Australia. Develop the skills to work in areas such as drug discovery, manufacturing and production, clinical trials, regulatory affairs, and pharmaceutical sales and marketing. Build your understanding of fundamental sciences and the factors influencing the global pharmaceutical industry. You will then focus specifically on key areas such as pharmaceutical sciences, pharmacology and pharmacokinetics, drug discovery, development, and commercialisation. You can also choose from a range of specialist courses to tailor your studies, covering areas such as research and development, manufacturing and pharmaceutical chemistry, and drug development and business (including sales, marketing, legal, regulatory and drug information). Access purpose-built laboratories on campus and in the $247 million UniSA Cancer Research Institute. Complete an industry project or placement during your degree. Be eligible for membership with the Royal Australian Chemical Institute (RACI) and other relevant professional bodies such as AusBiotech. Explore the option of a double degree with the Bachelor of Pharmacy (Honours) – criteria apply.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

CAREERS

Pharmaceutical science professionals can work in a variety of areas, including:

- medicine evaluation / drug identification / clinical trials / medicine optimisation / marketing and sales / research / medicine manufacturing / quality control / intellectual property

Following graduation, you will satisfy the academic requirements for registration as a Pharmacist with the Pharmacy Board of Australia (PBA), which is also determined by a period of supervised training. Enhance your career by exploring the option of a double degree with the Bachelor of Pharmaceutical Science – criteria apply.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

CAREERS

Registered pharmacists can work in a variety of settings, including:
Hospitals / pharmacies / community services / aged care facilities / critical care services / regulatory bodies / compounding services / infectious disease services / defence / medical practices / pharmaceutical companies / research / academia
Bachelor of Laboratory Medicine (Honours)

unisa.edu.au/laboratory-medicine

Prerequisites: SACE Stage 2 Biology, or SACE Stage 2 Chemistry, or SACE Stage 2 Physics.  
Assumed knowledge: none

Graduate with honours in just four years and prepare for a career as a medical laboratory scientist focusing on diagnostic pathology or research. Learn to play a vital role in the welfare of patients by supporting clinicians in the diagnosis, management and treatment of disease, conducting research into causes and cures of disease, and developing improved methods for disease detection. Build fundamental knowledge in biochemistry, microbiology, immunology, molecular pathology, haematology and histopathology. Develop the skills to perform a range of diagnostic tests including cross-matching for blood transfusions, identifying the organisms that cause infections and food poisoning, screening for cancer cells, and detecting genes responsible for disease. Gain valuable practical experience in our on-campus laboratories and through industry placements across areas of public and private pathology. As part of your honours, you can tailor your studies in either a diagnostic or research setting, learning how to manage specimens, perform tests and operate equipment. Graduate with a degree accredited by the Australian Institute of Medical Scientists (AIMS) and be eligible for membership. You can also apply for membership with the Australasian Association of Clinical Biochemists (AACB) and Australian Society for Microbiology (ASM).

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

CAREERS
Medical laboratory scientists can work in a wide range of areas, including:
Diagnostic pathology / histopathology / forensic science / immunology / virology / transfusion science / haematology / cytology / clinical biochemistry / medical microbiology / research / product manufacturing / public health management / veterinary medicine / government policy / academia

Choose six elective courses that align to your career interests in areas like pharmacology, cancer biology, reproductive and developmental physiology, molecular research, or infection and immunity.

Explore the complex world of human health and disease. Develop the knowledge and skills needed to work in biotechnology, and health and medical research. Learn about the human body and biological systems through core courses, along with key research methodologies. Tailor your studies to your career interests through a wide range of electives. Choose from areas such as pharmacology, cancer biology, reproductive and developmental physiology, infection and immunity, and advanced molecular methods. Access purpose-built learning spaces on campus, including fully-equipped laboratories. Collaborate on research and projects at the $247 million UniSA Cancer Research Institute – home to more than 200 cancer, pharmacy and medical science researchers. Take the option to complete a research project in your final year, focusing on an area that interests you most.

CAREERS

Medical science professionals can work in a variety of areas, including:

Medical and biomedical research / biotechnology / forensic science / medical informatics / sales and marketing

Designed for students who have completed a relevant bachelor degree, this one-year honours program is focused on furthering your research skills in biomedical, pharmaceutical, biological and chemical sciences. Contribute to the development of new knowledge in a chosen specialisation area. Explore the latest research methodologies, learn to prepare research proposals, and increase your awareness of ethical research practice. Complete an advanced research project during your studies, which demonstrates your ability to collect data, prepare a thesis, reference, publish and present your findings. Work closely with world-class researchers at the UniSA Cancer Research Institute and the Centre for Cancer Biology, an alliance between UniSA and SA Pathology. Continue your learning and research through additional postgraduate studies.

CAREERS

Laboratory research assistants and technicians can work in a variety of specialised roles in settings such as research laboratories and institutes, pharmaceutical and biopharmaceutical companies, and the pharmaceutical and laboratories supplies sector.

ENTRY REQUIREMENTS

• This program is available to students who have successfully completed a relevant bachelor degree in biomedical, pharmaceutical, nutrition or natural sciences or equivalent qualification, and have met the required Grade Point Average (GPA).
• After applying through SATAC, students will receive a notification to contact the University to discuss program requirements, possible supervisors and potential research projects.

FURTHER STUDY

• Masters by Research
• Doctor of Philosophy (PhD)

Prerequisites: none
Assumed knowledge: SACE Stage 2 Biology, SACE Stage 2 Chemistry

Study South Australia’s only degree in podiatry. Prepare for a career as a registered podiatrist, responsible for diagnosing and treating disorders of the foot, ankle and lower leg. Learn to provide quality care for patients of all ages with foot and lower leg injuries, pain and abnormalities. Develop fundamental knowledge through core courses in human anatomy, human physiology, pain management, pharmacology and biomechanics; and learn about the relevant aspects of medicine and surgery practice. Gain valuable real-world experience by completing 1,000 clinical placement hours. Further develop your knowledge and expertise in our on-campus podiatry clinics under the supervision of practising clinicians, as well as our Manufacturing Laboratory where you will learn how to make orthotics. Graduate with the eligibility to apply for registration as a Podiatrist with the Podiatry Board of Australia.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. The University will also process the required registration with AHPRA. See page 12.

Note 2: High achieving students may be considered for the Bachelor of Podiatry (Honours) program in their third year of study.

CAREERS
Registered podiatrists can work in a variety of settings, including:
Private practice / clinics / hospitals / community health centres / aged care facilities / children’s health services / sports clinics / occupational health services

YOU MIGHT ALSO LIKE
• Bachelor of Physiotherapy (Honours)
• Bachelor of Occupational Therapy (Honours)

Assumed knowledge: SACE Stage 2 Biology, SACE Stage 2 Physics

Graduate with honours and prepare for a career as a registered physiotherapist in just four years. Develop the capability to assess, treat and prevent human movement disorders, enabling people to lead healthy and functional lives. Focus on various areas of practice and treatments including sports, musculoskeletal, cardiorespiratory and neurological conditions. Study courses in human anatomy, human physiology, physiotherapy studies, pharmacology, exercise physiology, and pain sciences. Learn practical skills through clinical placements in real-world settings, including our on-campus physiotherapy clinics. Complete either the research stream focusing on an independent research project, or the professional stream where you will take part in a group project addressing a real-world problem. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a Physiotherapist with the Physiotherapy Board of Australia. You will also be eligible for membership with the Australian Physiotherapy Association.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. The University will also process the required registration with AHPRA. See page 12.

Note 2: The Master of Physiotherapy (Graduate Entry) is available for students from other health-related bachelor degrees seeking a pathway into physiotherapy. See page 40.

Assumed knowledge: none

Graduate with honours and prepare for a rewarding career as a speech pathologist. Learn to help people of all ages with communication, swallowing or feeding difficulties to improve their quality of life. You will work closely with those who have developmental delays, stroke and brain injuries, learning disabilities or neurodegenerative diseases such as dementia. Study core courses in physiology, communication science and language development. Gain practical, hands-on experience by completing around 650 clinical placement hours across a range of settings including hospitals, schools, community services and our on-campus health clinics.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

Note 2: This program has ‘Qualifying’ status with Speech Pathology Australia with full accreditation pending the first cohort of graduates. Following full accreditation, graduates will be eligible for membership.

CAREERS

Qualified speech pathologists can work in a range of settings, including:

- Hospitals / private practice / rehabilitation services / aged care facilities / community services / home care services / government departments / schools / not-for-profit and NGOs

YOU MIGHT ALSO LIKE

“I chose to study medical imaging because I could follow my passion for sciences and technology but also work closely with people. It’s amazing to think that we are utilising radiation that is undetectable to the human eye to create images that can possibly save someone’s life.”

Jenny Han
medical imaging student
Bachelor of Medical Radiation Science (Medical Imaging)

Study South Australia’s only medical radiation science degree and prepare for a career as a qualified diagnostic radiographer. Learn how to produce high-quality medical images with various technologies and types of radiation to monitor and diagnose injury and illness. Be prepared to work across general radiography practice such as X-rays, fluoroscopy, theatre or emergency imaging. Focus on core courses in anatomy, physiology, pathology and radiation physics during your studies. Practise in fully functioning X-ray suites located on campus, equipped with the latest tools and technologies. Apply concepts of professional practice through 1,750+ clinical placement hours, which begin in your second year of study. Participate in regular pre-clinical preparation workshops in your final year to further extend your skills as you move into advanced areas of practice. After graduation you will be eligible to apply for general registration with the Medical Radiation Practice Board of Australia (MRPBA).

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

Note 2: High achieving students may be considered for the Bachelor of Medical Radiation Science (Honours) (Medical Imaging) program in third year.

CAREERS

Medical imaging professionals can work in a variety of settings, including hospitals, private practice, medical equipment companies, defence, and research and development. You may also gain employment in specialist areas such as ultrasound, interventional imaging, magnetic resonance imaging or computed tomography.

Bachelor of Medical Radiation Science (Radiation Therapy)

Study South Australia’s only medical radiation science degree and prepare for a career as a qualified radiation therapist. Learn to work alongside radiation oncologists and medical physicians to plan and deliver individual radiation treatments to patients. Develop the skills to use dedicated radiotherapy treatment planning software, to model doses and operate radiation equipment. Focus on core courses in anatomy, physiology, pathology and radiation physics during your studies. Gain practical experience in our purpose-built, state-of-the-art Virtual Environment Radiotherapy Training (VERT) suite on campus and complete 1,750+ clinical placement hours starting in your second year of study. Take part in regular pre-clinical preparation workshops in your final year to further extend your skills as you move into advanced areas of practice. After graduation, you will be eligible to apply for general registration with the Medical Radiation Practice Board of Australia (MRPBA).

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

Note 2: High achieving students may be considered for the Bachelor of Medical Radiation Science (Honours) (Radiation Therapy) program in third year.

CAREERS

Qualified radiation therapists can work across a variety of settings, including hospitals, private practice, research and development, and medical equipment companies. You may also gain employment in specialist areas such as brachytherapy and stereotactic radiotherapy.

Bachelor of Exercise and Sport Science

unisa.edu.au/human-movement

City East Campus
On-campus
3 years full-time

Intakes: Feb
Placement

Selection Rank:
cut-off 2020 .................. 83.00
guaranteed entry ................ 90.00

SATAC code: 414461
Program code: IBXS

✔ part-time study available

Unisa College pathways: Foundation Studies or Diploma in Health
Prerequisites: none
Assumed knowledge: none

Study South Australia's only fully-accredited degree in exercise and sport science. Develop a deep understanding of the impact that exercise and physical activity has on the biological, physical and social aspects of human life. Learn how to design and deliver exercise programs to improve clients' health and wellbeing, perform client screenings, conduct laboratory and field testing, and appraise and interpret scientific research. Be guided by some of Australia’s leading exercise scientists and experts in the field. Develop knowledge in human anatomy and physiology, the psychology and sociology of health and physical activity, exercise prescription and delivery, nutrition and biomechanics. Access purpose-built facilities, including the Exercise Physiology Laboratory, Environment Chamber and the High Performance Sport Centre located on campus. Gain valuable practical experience by completing industry placements across a range of settings including schools and elite sporting clubs. Graduate with a degree accredited by Exercise and Sport Science Australia (ESSA) and be eligible for registration as an Accredited Exercise Scientist.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

CAREERS
Exercise scientist / strength and conditioning coach / physical training specialist / performance analyst / community sports project officer / health and wellness promoter

YOU MIGHT ALSO LIKE
• Bachelor of Human Movement
• Bachelor of Clinical Exercise Physiology (Honours)
• Bachelor of Exercise and Sport Science, Bachelor of Nutrition and Food Sciences
• Bachelor of Exercise and Sport Science, Bachelor of Psychology (Counselling and Interpersonal Skills)

FURTHER STUDY
• Master of Physiotherapy (Graduate Entry)
• Master of Occupational Therapy (Graduate Entry)
• Master of Health Services Management
• Master of Research (Health Sciences)
• Masters by Research
• Doctor of Philosophy (PhD)

DEGREE STRUCTURE

FIRST YEAR
Human Anatomy 100
Foundations in Human Movement, Exercise and Sport Science
Physiology Essentials 100
Foundations of Physical Activity and Health
Introduction to Group and Team Psychology
Lifespan Growth and Motor Development
Functional Anatomy
Research Methods and Statistics

SECOND YEAR
Exercise Physiology 1
Human Nutrition
Motor Control and Learning
Exercise Delivery

Biomechanics of Human Movement
Exercise Physiology 2
Health, Exercise and Sport Psychology
Exercise Prescription

THIRD YEAR

Professional Practice in Exercise Science
Applied Exercise and Sport Science
Elective 1
Elective 2

Sociology of Health, Physical Activity and Sport
Elective 3
Elective 4
Elective 5

"I chose to study exercise and sport science because the degree can provide lots of career paths. I learned so much during my placement at Basketball SA working with the Woodville Warriors Men's Premier League Basketball team, where I prescribed and delivered exercises to improve their performance. UniSA has been able to provide me with clarity about the future direction of my career and the opportunities available."

Branson Palmer

Food Safety and Regulation
Functional Foods, Nutraceuticals and Medicines

unisa.edu.au/apply | 29
Study the only double degree of its kind in South Australia and develop your expertise in the areas of exercise and sport science, psychology, counselling and behavioural research. Study core courses in human anatomy, exercise physiology, human movement and nutrition; and explore the relationship between psychology and physical activity. Develop the skills to provide counselling to athletes, deliver rehabilitation services, and enhance the physical and mental wellbeing of individuals, groups and communities. Learn in fully-equipped facilities on campus, including the High Performance Sport Centre, Environmental Chamber, Exercise Physiology Laboratory and Biomechanics Laboratory. Complete practical placements across a range of industry settings, including schools and sporting clubs. Graduate with a degree accredited by Exercise and Sport Science Australia (ESSA) and be eligible for registration as an Accredited Exercise Scientist through ESSA.

Note 1: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS) and complete a one-day Child Safe Environments course. Some placements may also require students to have a current driver’s licence, National Police Check, Responding to Abuse and Neglect training, or a recognised First Aid Certificate.

Note 2: To become a professional practising or research psychologist, students must continue their studies through a one-year Bachelor of Psychology (Honours) and then a two-year Master of Philosophy (PhD).

CAREERS
Strength and conditioning coach / exercise scientist / school or athlete counsellor, or clinical psychologist (with further study)
Bachelor of Human Movement

UnisA College pathways: Foundation Studies or Diploma in Health
Prerequisites: none
Assumed knowledge: none

- Choose a primary stream in Health and Physical Education or Exercise and Sport Science.
- Choose a secondary stream in Rehabilitation Sciences, Sports Coaching, Outdoor Education, Health Promotion, Nutrition or Advanced Exercise and Sport Science.

Develop an understanding of the impact that exercise and physical activity has on people — biologically, psychologically and socially. Tailor your degree to your interests and career goals through primary streams in Health and Physical Education or Exercise and Sport Science with the ability to choose a secondary study stream in a wide range of other study areas. Build strong foundational knowledge in core areas such as human anatomy and physiology, health and physical activity, lifespan development, and group and team psychology. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics, motor control and sociology. Graduate with the skills to complete client screenings, conduct laboratory and field testing, design and implement exercise and training programs, and interpret scientific research. Learn in dedicated teaching facilities, including anatomy, biomechanics and exercise physiology laboratories, gyms and an Environmental Chamber located on campus. You will also complete an industry placement during your studies. Package this degree with a Master of Teaching (Secondary) to become a health and physical education teacher.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

CAREERS
Depending on your course selection, your career options can include:
- Sport development officer
- Health and wellbeing adviser
- Sports coach
- Outdoor education practitioner
- Community and allied health worker
- Human movement practitioner
- Teacher (with further study)

YOU MIGHT ALSO LIKE
- Bachelor of Exercise and Sport Science
- Bachelor of Health Science (Public Health)
- Bachelor of Human Movement, Bachelor of Nutrition and Food Sciences
- Bachelor of Human Movement, Bachelor of Psychology (Counselling and Interpersonal Skills)

FURTHER STUDY
- Master of Physiotherapy (Graduate Entry)
- Master of Occupational Therapy (Graduate Entry)
- Master of Teaching (Secondary)
- Master of Health Services Management
- Master of Research (Health Sciences)

DEGREE STRUCTURE

Package this program with the Master of Teaching (Secondary) to become a health and physical education teacher.

UnisA College pathways: Foundation Studies
Prerequisites: none
Assumed knowledge: none

• Study a primary stream in Health and Physical Education.
• Choose a secondary stream in Rehabilitation Sciences, Sports Coaching, Outdoor Education, Health Promotion, Nutrition or Advanced Exercise and Sport Science.

Package a degree in human movement with postgraduate studies in education to become a secondary health and physical education teacher. Build strong foundational knowledge in core areas such as human anatomy and physiology, the sociology of health and physical activity, growth and motor development, and group and team psychology. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics and motor learning. Tailor your studies through a wide range of elective courses covering topics such as outdoor education, sports coaching and health promotion. Focus on adolescent learning with the ability to teach key Learning Areas within the Australian Curriculum including Health and Physical Education to Year 12 and Science up to Year 10. Depending on your final year electives, you may also be qualified to teach Outdoor Education to Year 12 and English, Mathematics, Humanities and Social Sciences, or Languages. Benefit from practical learning, completing supervised industry placements totalling more than 60 days across both programs in a range of educational settings.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12. Additional requirements apply for the Master of Teaching (Secondary), visit unisa.edu.au/eds-requirements

Note 2: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

CAREERS
Health and physical education teacher (up to Year 12) / science teacher (up to Year 10) / sport development officer / outdoor education instructor / sports coach / recreation activities coordinator

### Bachelor of Clinical Exercise Physiology (Honours)

| Intakes: Feb |
| Placement |

**City East Campus**
- On-campus
- 4 years full-time

**Selection Rank:**
- cut-off 2020: 92.55
- guaranteed entry: n/a

**SATAC code:** 416441

**Program code:** IHCP

**Unisa College pathways:**
- Foundation Studies
- Diploma in Health or Diploma in Science and the Environment

**Prerequisites:** none

**Assumed Knowledge:** none

Study South Australia’s only degree that will qualify you as an accredited exercise physiologist in just four years. Discover how to use exercise management to prevent disease onset and treat a range of cardiovascular, respiratory, metabolic, neurologic, musculoskeletal and cancer conditions. Study core courses in anatomy, physiology, biomechanics, motor learning and control, exercise and sport psychology, and exercise prescription and nutrition. You will also complete specialised training in chronic disease management, clinical exercise assessment and pain management. Learn in state-of-the-art facilities, including the Exercise Physiology Laboratory, Biomechanics Laboratory and Anatomy Laboratory, and provide clinical services in our High Performance Sport Centre and Exercise Physiology Clinic located on campus. Complete an honours project with an academic researcher or industry professional. Graduate with a degree accredited by Exercise and Sport Science Australia (ESSA). You will also be eligible to apply to ESSA for recognition as an Accredited Exercise Physiologist and Accredited Exercise Scientist.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

**CAREERS**
- Accredited exercise physiologists can work in a variety of settings, including:
  - Hospitals / general practices / private clinics / health and fitness facilities / workplace and population health services / exercise, sports and biomedical science research

Unisa College pathways: Foundation Studies or Diploma in Health

Prerequisites: none

Assumed Knowledge: none

Study fundamental core courses then choose a primary stream in Nutrition or Food Sciences in final year.

Launch a career in the growing food and nutrition industry. Learn to develop innovative foods, promote and manage diets and lifestyles, and conduct meaningful research for enhanced wellbeing. Explore the fundamental core courses of both nutrition and food sciences in your first two years of study then select one as a formal study stream in your third year, which aligns to your interests and career goals. Develop a strong body of knowledge in biology, food chemistry, microbiology, physiology, and food and safety regulation. Study in a dedicated nutrition hub on campus, including a purpose-built Sensory Laboratory, Microbiology Laboratory and fully-equipped Commercial Kitchen. Benefit from our strong links with the food industry and community, and attend field trips to some of South Australia’s major nutrition and food providers. Graduates are eligible to apply for professional membership with the Australian Institute of Food Science and Technology (AIFST). Graduates are also eligible to apply to the Nutrition Society of Australia for registration as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of experience.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

Careers

Community nutritionist / health promotion officer / food scientist / food technician / flavour technologist / product development manager / microbiology specialist / food policy adviser / food safety adviser / quality assurance officer / research scientist / teacher (with further study)

To learn more about how to become a teacher, visit unisa.edu.au/become-a-teacher

Nutrition Stream

Community Nutrition Promotion
Nutrition Communication and Food Studies
Nutrition, Exercise and Weight Management

Elective 1

Functional Foods, Nutraceuticals and Medicines
Elective 2

PLUS two courses (9 units) chosen from the following:

- Capstone in Nutrition, Food Sciences
- Sports Nutrition
- Designing and Managing Health Projects
- Medical Biochemistry

Food Science Stream

Food Microbiology and Quality Assurance
Food Processing and Manufacturing
Product Development and Food Analysis

Elective 1

Molecular Food Microbiology
Functional Foods, Nutraceuticals and Medicines

Elective 2

PLUS one course (4.5 units) chosen from the following:

- Capstone in Nutrition, Food Sciences
- Medical Biochemistry

UniSA College pathways: Foundation Studies or Diploma in Health
Prerequisites: none
Assumed Knowledge: none

Study a cross-disciplinary minor, focusing on areas such as Psychology, Legal Studies, Sport Management, Digital Media or Information Technology.

Prepare for a career working with populations and communities to make a positive difference in the lives of others. Cultivate a range of skills aimed at improving and promoting health and wellbeing outcomes. Develop your knowledge and contribute to the research and education around preventing disease and illness. Complete more than 200 industry placement and project hours, choose a minor study area or a set of elective courses based on your interests, or take the opportunity to study overseas. Benefit from a curriculum aligned to the Foundation Competencies for Public Health Graduates in Australia and the Aboriginal and Torres Strait Islander Health Curriculum Framework, giving you a highly transferable skill set. You will also develop skills in planning, managing and evaluating healthcare policy, projects, programs and services. Graduates are eligible for membership with the Public Health Association of Australia (PHAA) and other relevant professional bodies.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

100% online
UniSA Online
3 years full-time

Program code: XBPH

Intakes: Jan, Apr, Jun, Sept
Real-world projects
part-time study available

Time commitment: 10–15 hours per week per course

Pathways: Literacy and Numeracy Test with relevant work experience (UniSA Online); or Foundation Studies or Diploma in Health (UniSA College)

Prerequisites: none

Assumed knowledge: none

STUDY ON DEMAND
Study a 100% online public health degree designed specifically for flexible learning. Develop the skills in planning, managing and evaluating healthcare policy, projects, programs and services to help create vibrant communities. Explore diverse areas such as health promotion, health law and ethics, human biology, epidemiology, as well as global, national and Aboriginal health issues. Benefit from courses specifically designed to align with the Foundation Competencies for Public Health Graduates in Australia. Graduate with an industry-standard portfolio of work that you can present to future employers. Access online support services seven days a week, view learning resources 24/7 and log in to the interactive online environment anywhere, anytime, and on any device. Benefit from flexible study with no need to attend lectures or come on campus – all courses and assessments are delivered online. Scholarships and grants are also available for eligible students.

CAREERS
Public health manager / epidemiologist / Aboriginal health officer / women’s health officer / healthcare policy planner / health promotion officer

Fundamentals of Disease Control

THIRD YEAR

Epidemiological Principles and Methods
Project Management for Health and Wellness
Science and Politics of Preventive Health
Public Health Practice Project 1
Public Health and Wellbeing Practice
Public Health Practice Project 2
2 x Electives

"Public health aims to tackle big issues through small changes. The sector helps people learn about their health, influences the way they use spaces, improves access to healthier foods and services, and much more. My role at the Australian Red Cross focuses on the systems and processes that drive the delivery of essential health services in the aged care industry. Seeing the impact that our work has on the health and wellbeing of our community is extremely rewarding and inspiring."

Lauren Noble
health sciences graduate

Master of Physiotherapy (Graduate Entry)

unisa.edu.au/physiotherapy

City East Campus
On-campus
2 years full-time

Intakes: Feb
Commonwealth supported*
Placement

SATAC code ............................................ 4CM106
Program code ............................................ IMPE

*see page 56 for more information

Designed for students who have completed a health-related bachelor’s degree, this program will provide you with the requirements to practise as a registered physiotherapist in just two extra years of study. Develop the capability to assess, treat and prevent human movement disorders, enabling people to lead healthy and more functional lives, as a first contact professional or valued member of an allied healthcare team. Focus on various areas of practice and treatments across sports, musculoskeletal, cardiorespiratory and neurological conditions. Study courses in evidence-based practice, clinical reasoning skills, professional practice skills, pain theory and science, and ethics and communication. Learn practical skills while completing industry placements in real-world settings, including our on-campus physiotherapy clinics. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a Physiotherapist with the Physiotherapy Board of Australia. You will also be eligible for membership with the Australian Physiotherapy Association.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. The University will also process the required registration with AHPRA. See page 12.

CAREERS
Registered physiotherapists can work in a variety of settings, including:
Private practice / clinics / sport and exercise services / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities / women’s health and paediatric services / research

ENTRY REQUIREMENTS
• Bachelor degree or higher from a recognised Australian or New Zealand higher education institution completed in the last ten years with a minimum Grade Point Average (GPA) of 5.
• Applicants must also have successfully completed set prerequisite courses. For more information, visit unisa.edu.au/physio-ge

YOU MIGHT ALSO LIKE
• Master of Occupational Therapy (Graduate Entry)

FURTHER STUDY
• Master of Advanced Clinical Physiotherapy (Musculoskeletal) or (Sports)
• Master of Health Services Management
• Master of Research (Health Science)
• Masters by Research
• Doctor of Philosophy (PhD)

DEGREE STRUCTURE

FIRST YEAR
Evidence-Informed Clinical Reasoning in Physiotherapy
Physiotherapy Professional Practice
Physiotherapy Clinical Skills (Rehabilitation)
Physiotherapy Clinical Skills (Acute)
Physiotherapy Practice in Acute Care
Pain Theory and Science
Physiotherapy Clinical Skills (Community)

SECOND YEAR
Physiotherapy Practice in Adult Rehabilitation
Physiotherapy Practice with Children
Physiotherapy Practice in Primary and Ambulatory Care
Advanced Physiotherapy Practice (Community)
Ethics and Communication for Moral Action
Advanced Physiotherapy Practice (Acute and Rehabilitation)
Graduate Certificate in Advanced Clinical Musculoskeletal and Sports Physiotherapy

0.5 years full-time
Intakes: Jul
Real-world projects

SATAC code: 4GC095
Program code: 4CMS
part-time study available

Designed for qualified physiotherapists, this postgraduate qualification will further your clinical skills in both musculoskeletal and sports physiotherapy in just six months of study. Learn to assess and manage a wide range of clinical presentations within an evidence-informed framework, requiring advanced biomedical and psychosocial knowledge, clinical examination skills and clinical reasoning, along with strong communication, education and management skills. Study this as a standalone qualification or expand your knowledge further by continuing with the Master of Advanced Clinical Physiotherapy program, specialising in either musculoskeletal or sports physiotherapy with credit awarded for successfully completed courses.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

CAREERS
This program is designed for registered physiotherapists seeking to further their knowledge and skills working in settings such as:
- Private practice / clinics / sport and exercise services / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities

ENTRY REQUIREMENTS
- Bachelor degree or equivalent professional entry level qualification in physiotherapy from a recognised higher education institution; and
- A minimum of 10 months full-time, or equivalent, physiotherapy practice in a relevant field

FURTHER STUDY
- Master of Advanced Clinical Physiotherapy (Musculoskeletal) or (Sports)
- Master of Research (Health Science)
- Masters by Research
- Doctor of Philosophy (PHD)

DEGREE STRUCTURE

Musculoskeletal Physiotherapy Theory and Practice 1
Musculoskeletal Physiotherapy Theory and Practice 2

Master of Advanced Clinical Physiotherapy

unisa.edu.au/physiotherapy

City East Campus
On-campus
1 year full-time
Intakes: Jul

SATAC code: 4CM185
Program code: 4CMS
part-time study available

Further your knowledge and expertise in clinical physiotherapy practice, with the ability to specialise in either musculoskeletal or sports physiotherapy. Study core courses in evidence-based practice and advanced clinical theory, along with key topics such as pain theory and science, and exercise and conditioning. In the Musculoskeletal specialisation, you will focus on assessing and managing a wide range of patient problems within a biopsychosocial framework. In the Sports specialisation, you will learn to assess and treat sports-related injuries with critical triaging skills, along with the ability to conduct pre-season screening and develop prevention management strategies. Complete supervised industry placements and engage with patients in our physiotherapy clinics located on campus. Benefit from flexible learning, with some courses available online, along with part-time study options. The Musculoskeletal program is accredited by the Australian Physiotherapy Association national group, Musculoskeletal Physiotherapy Australia, and graduates are eligible for Titled Membership. The Sports program is accredited by the Sports Professional Practice Standards Committee of the Australian Physiotherapy Association and graduates are eligible for titled membership with Sports Physiotherapy Australia.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

CAREERS
These programs are designed for registered physiotherapists seeking to further their knowledge and skills, working in settings such as:
- Amateur and elite sport / private practice / clinics / rehabilitation centres / hospitals / home care and community services / disability services / aged care facilities

ENTRY REQUIREMENTS
- Bachelor degree in physiotherapy, or equivalent professional entry level qualification, from a recognised higher education institution; and
- A minimum of ten months full-time, or equivalent, physiotherapy practice in a relevant field following completion of the professional entry level qualification; and
- Meet the eligibility requirements for registration as a physiotherapist, or limited registration under supervision, with AHPRA

“This qualification encouraged me to think independently and pushed me beyond my comfort zone when treating a patient. My placement at West Adelaide Football Club gave me first-hand experience managing players with acute injuries and providing rehabilitation, so they can return to play as soon and safe as possible. The teaching staff are also very experienced and dedicated to lifelong learning – it’s been a very enriching experience.”

Shi Hui Wong
advanced clinical physiotherapy graduate
Master of Occupational Therapy (Graduate Entry)

Designed for students who have completed a health-related bachelor's degree, this program will provide you with the requirements to practise as a registered occupational therapist in just two extra years of study. Learn how to assist people in managing constraints caused by injury or illness, as well as emotional, developmental, environmental, societal, age-related and psychological limitations. Benefit from highly practical learning with over 1,000 industry placement hours. Develop strong foundational knowledge in occupational science, occupational therapy practice and human neuroscience, along with critical communication and problem-solving skills. Graduate with a qualification accredited by the Occupational Therapy Council (Australia & New Zealand) Ltd. The program is also approved by the World Federation of Occupational Therapists and the Occupational Therapy Board of Australia for professional registration as an Occupational Therapist in Australia.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. The University will also process the required registration with AHPRA. See page 12.

CAREERS

Occupational therapists can work in a variety of settings, including:
- Hospitals / private practice / community mental health services / rehabilitation centres / aged care facilities / home care services / local council services / government departments / schools / not-for-profit and NGOs

ENTRY REQUIREMENTS

- Bachelor degree or higher from a recognised higher education institution completed in the last ten years with a minimum Grade Point Average (GPA) of 5.
- Applicants must also have successfully completed set prerequisite courses. For more information, visit unisa.edu.au/occupational-therapy

Graduate Certificate in Breast Imaging

Study the only accredited program of its type in Australia and New Zealand. Extend your qualifications as a diagnostic radiographer or other relevant health professional with specialist knowledge and skills in breast imaging and sonography. Focus on core courses in ultrasound physics and instrumentation, mammography, breast sonography and medicolegal issues and principles for best practice. Complete supervised training during your studies, complemented by in-depth theoretical learning and a professional workshop in mammography delivered by Breastscreen SA. Enjoy flexible learning with the program offered online and part-time over a 12-month period. Graduates are eligible to apply for full professional accreditation with the Australian Sonographer Accreditation Registry (ASAR) for Breast Sonography, with evidence of scanning experience required.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12.

CAREERS

Breast sonographers and mammographers can work in hospital settings and private practice.

ENTRY REQUIREMENTS

This program is open to qualified medical radiation professionals with a recognised bachelor degree in medical radiation or equivalent qualification, or applicants with a recognised relevant allied health degree, or Graduate Certificate in Medical Sonography or equivalent qualification, or eligibility for accreditation as a diagnostic radiographer with the Australian Health Practitioner Regulation Agency (AHPRA).

YOU MIGHT ALSO LIKE

General Cardiac Vascular

SATAC code .......... 4GD046 4GD121 4GD120
Program code .......... IGSO IGSO IGSO

✓ part-time study only

*see page 56 for more information

Designed for qualified allied health professionals, these part-time programs will extend your knowledge and practical skills in ultrasound imaging. Choose a broad qualification or specialise in either cardiac or vascular sonography. Study a combination of theory and practice, where you will gain advanced technical skills and a strong understanding of key areas such as health science, physics, anatomy and pathology. In the Cardiac specialisation, you will focus on the cardiovascular system including the estimation of cardiac pressures and congenital heart disease. In the Vascular specialisation, you will explore the circulatory system for signs of disease or obstruction. Complete more than 2,000 practical hours of ultrasound scanning experience or cases under the supervision of practising clinicians. Benefit from flexible learning with the program delivered online and optional on-campus workshops. Graduates will be eligible to apply for registration with the Australian Sonographer Accreditation Registry (ASAR) as an accredited sonographer. You can also continue your studies with a Master of Medical Sonography with credit for successfully completed courses.

CAREERS
Accredited medical sonographers can work in a variety of settings, including hospitals, private or public practices, laboratories and research.

ENTRY REQUIREMENTS
Cardiac and Vascular specialisations
- A bachelor degree in a relevant allied health or health science discipline from a recognised higher education institution.

General specialisation
- Relevant accreditation as a medical radiation professional with a recognised bachelor’s degree, or equivalent qualification, or
- A Graduate Certificate in Medical Sonography or equivalent qualification, or
- A recognised bachelor degree or higher from a recognised higher education institution, together with successful completion of prerequisite courses within the last ten years from a recognised higher education institution.

FURTHER STUDY
- Master of Medical Sonography (General), (Cardiac) or (Vascular)
- Master of Research (Health Sciences)
- Masters by Research

- 0.5 years full-time
- $13,950* indicative 2020

SATAC code .................. 4GC087 Program code .................. ICNB
*see page 56 for more information

Designed for previously registered nurses in Australia, this program will help you develop the knowledge and skills to re-enter the workforce. Gain an in-depth understanding of the Australian healthcare system, along with legal and ethical principles relating to nursing, mental health, Aboriginal health, acute aged care and nursing research. Learn about the development of professional and inter-professional communication and relationships. Explore the life span approach to physical examination, primary healthcare and disease prevention, and caring for clients with complex conditions.

Take part in on-campus workshops in our unique clinician-led hospital and health service, which includes authentic simulated hospital wards, clinical units and community areas. Gain valuable practical experience by completing a six-week supervised industry placement in a clinical setting. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12. Students must meet the Fitness to Practice in Clinical Placements' requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS
Registered nurses can work in a variety of healthcare settings, including:
- Hospitals / primary health services / community support services / aged care / rehabilitative care / schools / home care services / drug and alcohol treatment centres / community health organisations / palliative care / youth services

ENTRY REQUIREMENTS
Nurses educated in Australia need to provide a letter of approval from the Australian Health Practitioner Regulation Agency (APRA) on behalf of the Nursing and Midwifery Board of Australia (NMBA) to undertake a NMBA approved bridging program. The referral must be current for the duration of the program and be obtained by the applicant.

For more information, visit unisa.edu.au/bridging-reentry

Further your nursing qualifications and expertise through postgraduate studies in mental healthcare. Gain an in-depth understanding of the practical skills needed to assess and deliver care to people experiencing mental illness. Gain the ability to design intervention and evaluation strategies for patients from diverse backgrounds.

Explore the psychological and behavioural sciences, co-morbidities, pharmacology and provision of family support within mental health. Develop professional interviewing and assessment skills, and knowledge of broader support services. Complete an industry placement in a healthcare setting during your studies. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12. Students must meet the Fitness to Practice in Clinical Placements’ requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS

Mental health nurses can work across a variety of settings, including:

Hospital emergency departments / acute inpatient units / rehabilitation services / justice system / community health services

ENTRY REQUIREMENTS

• Bachelor degree in nursing or equivalent qualification from a recognised higher education institution; or
• Completed hospital-based training as a Registered Nurse.

• Applicants must also hold a Current Practising Certificate as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMA), a current National Police Certificate (through SAPOL or their home state police service), Department of Human Services (DHS) Working with Children Check, and submit a Statement of Employment to the University before an offer will be made.

YOU MIGHT ALSO LIKE

• Graduate Certificate in Nursing – various specialisations
• Graduate Diploma in Mental Health

FURTHER STUDY

• Master of Nursing
• Master of Nursing (Nurse Practitioner)
• Master of Health Services Management
• Masters by Research
• Doctor of Philosophy (PhD)

| Perspectives in Mental Health Nursing |
| Theoretical Approaches to Mental Health Nursing Practice |
| Skills for Recovery Practice in Mental Health Nursing |
| Consolidation of Mental Health Nursing Practice |

Students may be required to undertake a combination of on-campus or online study and may need to attend on-campus workshops and assessments.

“The program allowed me to experiment with solutions to solve actual problems I was having as a novice educator. I now work as a Flight Nurse Midwife Educator in clinical aviation safety with NSW Air Ambulance, delivering evidence-based education programs to my staff. I have also worked on a project to design and develop a state-wide curriculum for all clinicians involved in NSW health retrieval.”

Advance your nursing career by further developing your knowledge, practical skills and understanding of evidence-based practice. Prepare for senior leadership or governance roles in clinical practice, policy, research, education or management. Learn to identify and investigate questions, issues and challenges that will improve and inform healthcare practice, knowledge and research outcomes. Explore global issues, trends and practices that impact the delivery of nursing and health services through independent research. Be supported throughout your studies by world-class researchers, as well as academics and industry-experienced clinicians. Take your research further by completing doctoral studies following completion of the master’s program. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

CAREERS

This program is designed for registered nurses seeking to further their qualifications and can lead to senior roles in:

Leadership / governance / healthcare policy / education / management / research

ENTRY REQUIREMENTS

- Bachelor degree or higher in nursing from a recognised higher education institution with a minimum Grade Point Average (GPA) of 5
- Applicants must also hold a Current Practising Certificate as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA); and
- Completed a minimum two years of clinical experience as a Registered Nurse

YOU MIGHT ALSO LIKE

- Graduate Certificate in Nursing – various specialisations
- Master of Health Services Management

FURTHER STUDY

- Masters by Research
- Doctor of Philosophy (PhD)

You will work collaboratively with a Clinical Support Team at your current workplace to assess your clinical competency. Benefit from flexible learning through a blend of on-campus and online delivery, along with part-time study. Graduate with a qualification accredited by the Australian Nursing and Midwifery Accreditation Council and approved by the Nursing and Midwifery Board of Australia (NMBA). You will also satisfy the academic requirements for endorsement as a Nurse Practitioner with the NMBA.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 12. Students must meet the fitness to practice in Clinical Placements’ requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS

Qualified nurse practitioners can work across both hospital and community settings.

ENTRY REQUIREMENTS

- Applicants must hold a current general registration as a Registered Nurse with the NMBA;
- Hold a postgraduate qualification from a recognised higher education institution in a relevant clinical field, and
- Completed a minimum four years’ full-time equivalent experience as a Registered Nurse, including two years’ full-time equivalent as a Registered Nurse in a clinical field and two years’ full-time equivalent at an advanced practice level in the same clinical field.
- Additional criteria apply. For more information, visit unisa.edu.au/nurse-practitioner

*After receiving a Nursing Leadership Award from the Minister for Health, I returned to UniSA because of the atmosphere and commitment to assist, round and update senior nurses. UniSA has always been a strong advocate of evidence-based practice, and as part of my studies, I’ve helped to develop guidelines for vascular access now referenced in the US.*

Graduate Certificate in Pharmacy Practice

Nested with:
- Master of Clinical Pharmacy (IMCM)

unisa.edu.au/pharmacy

City East Campus
Online
1 year part-time
Intakes: Feb, Jul
Commonwealth supported*
Internship/Placement

SATAc code.................................4GC059
Program code.............................ICPH

*see page 56 for more information

Designed for graduate and registered pharmacists, this qualification focuses on developing specialised skills in contemporary pharmacy practice. You can complete the UniSA Pharmacy Intern Training Program to become a registered practising pharmacist, or use the qualification to gain specialist training and skills in selected areas of pharmacy practice. Study advanced training in patient assessment, clinical testing, pharmacotherapeutics, evidence-based medicine, health economics, ethics, law and communication. Be mentored by practising pharmacists and academics who are leaders in their field. Benefit from strong links to internationally-renowned research groups, along with the UniSA Cancer Research Institute and the Centre for Cancer Biology. Study online through part-time delivery, and come on campus for assessments only.

CAREERS
This program is designed for pharmacists seeking to further their expertise and can lead to specialised careers in:
- Hospital and community settings / primary care / drug development / drug regulation / academia

ENTRY REQUIREMENTS
This program is available to both registered pharmacists and pharmacy graduates that have not yet registered with the Australian Health Practitioner Regulation Agency (AHPRA).

Registered pharmacists
Applicants are required to be a Registered Pharmacist with AHPRA.

Pre-registration (intern)
Applicants are required to have:
- A bachelor degree in pharmacy or equivalent qualification; and
- Obtained or applied for provisional registration through AHPRA.

Pre-registration (intern)
- Bachelor degree in pharmacy or graduate entry level master of pharmacy from a university that is accredited by the Australian Pharmacy Council (APC) in Australia or New Zealand; and
- Experience in a direct patient care environment.

FURTHER STUDY
- Master of Clinical Pharmacy
- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE

PRE-REGISTRATION PATHWAY
Social and Ethical Issues in Health
Advanced Pharmacy Practice

REGISTRATION PATHWAY
Applied Clinical Pharmacy
Advanced Pharmacotherapeutics (Mental Health)
Advanced Pharmacotherapeutics (Diabetes)

This program is available online, but will require on-campus or field placement and some on-campus assessment.
**Graduate Certificate in Surgical Pathology Preparation**

unisa.edu.au/laboratory-medicine

- Online
- 1 year part-time
- Commonwealth supported*
- Intakes: Feb

SATAC code: 4GC052
Program code: ICSP

*part-time study only

Develop your knowledge and expertise through a specialised qualification in surgical pathology designed for professionals working in an anatomical pathology laboratory. Complete advanced training in the dissection, sampling and preparation of tissues for histopathological examination and diagnosis. You will also complete specialised training in specimen recording, data storage and retrieval, standard operating procedures, equipment use, occupational health and safety, and macro and microphotography. Combine online coursework and learning in a virtual classroom with supervised training in your workplace.

**CAREERS**

This program can extend your career in surgical pathology across hospital settings, laboratories and forensic pathology departments.

**ENTRY REQUIREMENTS**

- Bachelor degree or diploma in biomedical science, medical laboratory science or equivalent; and
- Majored in or completed advanced studies in laboratory histopathology; and
- On-going access to a NATA-accredited (or NPACC-recognised) pathology laboratory (to fulfil supervisory requirements).

Master of Research (Health Sciences)
unisa.edu.au/health-science

Complete a program of health research under the supervision of experienced researchers and in collaboration with industry partners. Develop fundamental skills in research methods, research planning, data analysis and dissemination. Investigate intervention strategies aimed at preventing illness, improving health systems and research, creating effective health solutions, and advancing health quality. Learn from active researchers who are involved in real-world critical research across a range of health disciplines. Expand your knowledge through a focus on authentic, enquiry-based learning in order to contribute to meaningful research outcomes for the health industry and wider community. Present your research findings through publications and conference presentations. Benefit from the opportunity to work alongside world-class researchers from The Australian Centre for Precision Health (ACPreH), International Centre for Allied Health Evidence (iCAHE), and the Innovation, Implementation and Clinical Translation in Health (iIMPACT).

ENTRY REQUIREMENTS
Applicants must satisfy the entry requirements set by the University’s Research Degrees Committee. You may be eligible for admission if you have an:
• Honours degree or a bachelor degree with honours, or
• Relevant bachelor degree or equivalent qualification of at least three years with a minimum credit average, or
• Appropriate master’s degree, or
• No tertiary qualifications, but can demonstrate research capabilities through evidence of professional work experience in the field of proposed study and by relevant quality publications.

FURTHER STUDY
• Doctor of Philosophy (PhD)

DEGREE STRUCTURE

FIRST YEAR
• Biostatistics for Health Research
• Health Research Methods
• Research Planning
• Elective

SECOND YEAR
• Original research program 1
• Original research program 2
• Original research program 3

Masters by Research
Doctor of Philosophy (PhD)
unisa.edu.au/resdegrees

Achieve research-based outcomes aimed at improving the health and wellbeing of individuals, groups and communities. Be mentored and supervised by some of Australia’s leading scientists in world-class facilities including the $247 million UniSA Cancer Research Institute. Connect with our health and medical researchers, who are focused on preventing illness, improving health systems and services, creating more effective therapies, and advancing health equality. Choose to focus on areas such as cell biology, vaccine development, allied health, nutrition, neuroscience, epidemiology, therapeutics and more.

DISCIPLINE AREAS
• Aboriginal Health
• Allied Health
• Cancer
• Healthy Lifestyles
• Neuroscience and Mental Health
• Nursing
• Pharmaceuticals
• Population Health

For more information on disciplines and areas of research, visit unisa.edu.au/health/research

ENTRY REQUIREMENTS
Masters by Research
• Bachelor degree of at least three years in a relevant discipline with a minimum credit average; or
• Honours 1, Honours 2A, or an appropriate master's degree or equivalent qualification.

Doctor of Philosophy (PhD)
• Honours 1, Honours 2A, or an appropriate master's degree or equivalent qualification.

Alternative entry
• Other postgraduate and undergraduate degrees may be considered for admission into the Masters by Research or Doctor of Philosophy (PhD) with demonstration of research capabilities via assessment of relevant quality publications and professional experience.

Eligibility for entry into a research degree is also subject to an assessment of the proposed research, supervisor availability, and any University or research-specific eligibility requirements.
“I’m constantly motivated by the rewarding outcomes of my research. Through 3D chemistry modelling and statistical data analysis, I’m able to link adverse effects to medications and then see how this impacts the body, which will hopefully allow patients to be better informed about medication options and risks.”

Jack Janetzki
Doctor of Philosophy (PhD) candidate
As per the Australian Government guidelines, the student contribution amounts for 2020 are:

- depends on the unit value of your courses of study.
- band in which those courses are classified (see table below). The amount of your student contribution also depends on the grades of their Year 12 subjects.

Applicants may also be eligible to compete for entry if they have completed the program’s prerequisite requirements and have completed one of the following:

- an interstate or overseas qualification considered by the University as equivalent to SACE, or
- the international Baccalaureate Diploma with a minimum score of 24 points.

For some degrees, applicants who have not achieved the Selection Rank (ATAR) required for automatic selection into their preferred degree may be selected for any remaining places based on the grades of their Year 12 subjects.

ADJUSTMENT FACTORS

Universities in South Australia include ATAR-related adjustment factors (previously known as bonus points) for Australian high school students applying for entry into university via the following schemes:

- The Universities Equity Scheme – provides additional points for students coming from specified schools, as well as individuals experiencing socio-economic disadvantage.
- The Universities Language, Literacy and Mathematics Adjustment Scheme – provides additional points for students who successfully complete a language other than English, or specified English and Mathematics subjects.

unisa.edu.au/adjustmentfactors

GUARANTEED ENTRY

UniSA offers guaranteed entry into many programs for domestic Year 12 and VET students. If your Selection Rank (ATAR) or VET award meets the UniSA Guaranteed Entry score for that program, you have met the prerequisite requirements and any other program specific entry requirements, and you have listed the program as your first preference, you are in. It’s guaranteed. Please note application timelines may apply.

unisa.edu.au/guaranteed

FEES

All domestic undergraduate students at the University of South Australia are in Commonwealth-supported places. Students in these places pay a contribution of their fees depending on the program chosen and the contribution band in which those courses are classified (see table below). The amount of your student contribution also depends on the unit value of your courses of study.

As per the Australian Government guidelines, the student contribution amounts for 2020 are:

<table>
<thead>
<tr>
<th>BAND</th>
<th>AREA OF STUDY</th>
<th>STUDENT CONTRIBUTION For one year of full-time load (1 EFTSL)</th>
<th>STUDENT CONTRIBUTION For each subject (0.125 EFTSL)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Humanities, behavioural science, social studies, foreign languages, visual and performing arts, clinical psychology, nursing and education.</td>
<td>$6,684</td>
<td>$835</td>
</tr>
<tr>
<td>2</td>
<td>Computing, built environment, health, engineering, surveying, agriculture, mathematics, statistics and science.</td>
<td>$9,527</td>
<td>$1,190</td>
</tr>
<tr>
<td>3</td>
<td>Law, dentistry, medicine, veterinary science, accounting, administration, economics and commerce.</td>
<td>$11,155</td>
<td>$1,394</td>
</tr>
</tbody>
</table>

*Some postgraduate programs are also Commonwealth-supported (or CSP), while others are full fee-paying; this is listed on applicable programs. For programs under 10 year full-time study, fees are listed as the whole program fee (indicative of 2020). For programs over 10 years full-time study, fees are listed based on the cost per annum (indicative of 2020). For more information on fees including eligibility for Commonwealth-supported places, deferring your student contribution through HECS-HELP or FEE-HELP loans, please visit: unisa.edu.au/fees

Your student experience

Orientation is the start of your journey at university. Explore your campus, meet new people, get study advice, and enjoy different activities and entertainment.

Campus Central are the on-campus gurus for ID cards, enrolment, fees and student services.

Support services are available to you throughout your time at university, including study support, personal counselling and peer mentoring, along with access to a range of community health clinics located on campus.

USASA is your student association at UniSA. They provide advocacy services, organise social activities and coordinate over 100 student clubs.

UniSA+ can provide you with a range of leadership, entrepreneurial, volunteering and self-development opportunities during your degree.

Student lounges provide you with a space to study or chill out, featuring work spaces, kitchen facilities, mobile charging stations, social spaces, lockers, gaming stations and more.

Food vendors and café-style dining facilities are now open at all UniSA campuses, including Honki Tonki, Zambrero, Abbots and Kinney and more.

UniSA Sport has over 25 sporting clubs, including rowing, netball, gridiron, rock climbing and so much more. You can also gain access to fully-equipped gym facilities on all metro campuses.

Accommodation services are available to help you set up a home away from home.

24-hour security services are available on campus and the free SafeZone app is available for download through the App Store or Google Play.

Get cultured — expand your thinking and see the world through a student exchange program.

Pridham Hall — discover the new heart of the University, featuring a graduation space, sports centre, gym and swimming pool.

UniSA Sport — keep active and make lasting friendships by joining one of our sporting teams.

Events on campus — participate in a wide range of events and activities on campus throughout the year.

MOD. — explore this on-campus futuristic museum of discovery, offering immersive experiences.

2020 ONLINE EVENTS

We will be hosting a series of online events so you can learn more about studying with UniSA. Listen to presentations, discover different degrees and careers, and connect with current students and academic staff.

For more information, visit unisa.edu.au/infosessions

SCHOOL HOLIDAY TOURS

We also offer campus tours during the school holidays. Make an online booking at unisa.edu.au/campustours

MyCareerMatch is a free personality and career profiling tool that you can complete before you start university. Contact Future Student Enquiries on (08) 8302 2376 or at unisa.edu.au/enquire

ATAR > DEGREE FINDER

Go online and check out our new ATAR > Degree Finder, to explore which degrees you may be eligible for using your Sélection Rank. unisa.edu.au/atar-degree-finder
