#1 IN SA
FOR GRADUATE CAREERS
REACH YOUR PEAK PERFORMANCE

Play an important role in shaping the wellbeing of communities as a dynamic health professional. Join a rewarding workforce that is focused on improving health outcomes, driving human performance and delivering patient-centred care. Benefit from interactive learning, highly experienced clinicians and teaching staff, and the latest research and practices. Get hands-on experience by completing industry-relevant projects and practical placement opportunities. Access purpose-built facilities on campus, including a wide range of laboratories, clinics, and simulated hospital and health service environments.

@ unisa.edu.au/study

FIRST IN ALLIED HEALTH
Unisa was the first in allied health education in South Australia and has more than 50 years’ experience in teaching and research in this field. Learn from industry-leading clinicians and award-winning teaching staff across our range of established degrees, including physiotherapy, podiatry, occupational therapy, speech pathology, medical radiation sciences, and more. Gain hands-on experience through our on-campus community clinics, as well as industry placements with more than 700 partners throughout Australia and around the world.

GET THE EDGE
When you study a health degree at Unisa, you will develop your skills and professional networks beyond the classroom. We partner with elite sporting teams and industry-leading organisations like the Queen Elizabeth Hospital, South Australian Cricket Association, the Australian Defence Force Adaptive Sports Program, SA Metropolitan Fire Service and Helping Hand Aged Care, to bring you practical experience through a range of scholarships and placements. We also facilitate the world-first Invictus Pathways Program, inspired by Prince Harry’s Invictus Games. This unique training program provides placement and learning opportunities for students across different health disciplines to explore how the power of sport can help wounded, injured and sick service personnel.

UNIQUE DEGREES
We offer South Australia’s only degrees in podiatry, pharmacy, pharmaceutical science and medical radiation science (medical imaging, radiation therapy and nuclear medicine). And we’ve got the state’s only fully accredited bachelor degrees in physiotherapy, exercise and sport science, occupational therapy, and clinical exercise physiology. You can also enrol in one of our unique double degrees to give yourself the ultimate edge:

• Human Movement + Nutrition and Food Sciences
• Exercise and Sport Science + Nutrition and Food Sciences
• Exercise and Sport Science + Psychology

PLAY AN IMPORTANT ROLE IN SHAPING THE WELLBEING OF COMMUNITIES AS A DYNAMIC HEALTH PROFESSIONAL.

Jo Boylan | Executive - Services | Southern Cross Care

“Our long-standing partnership with Unisa has seen the increase of student placements and career opportunities in aged care. Unisa graduates are passionate learners with great clinical and communication skills. We employ health professionals who think innovatively and demonstrate the ability to put theory into practice.”

Li Qin Fam, Unisa nutrition and food science graduate.

Tristan Chai, Unisa physiotherapy graduate and Head Physiotherapist at Adelaide 36ers.

#1 IN SA FOR GRADUATE CAREERS IN PHYSIOTHERAPY AND OCCUPATIONAL THERAPY
ComparEd (QILT) Graduate Outcomes Survey – Full-time Employment Indicator (Undergraduates). Public SA-founded universities only.

TOP 10 IN AUSTRALIA FOR PHARMACY
Ranked equal 7th, 2021 QS Subject Rankings.

Li Qin Fam, UniSA nutrition and food science graduate.

Tristan Chai, UniSA physiotherapy graduate and Head Physiotherapist at Adelaide 36ers.
STUDY A TOP RANKING NURSING DEGREE
Study a world-class nursing degree at UniSA. Take advantage of our practical approach to learning, including the highest number of placement hours in public and private hospitals and community organisations across South Australia. We also have a unique, simulated hospital and health service environment located on campus, which includes authentic hospital wards, clinical units and community areas. You will learn under the guidance of practicing clinicians and academics and develop the confidence to work in real-world settings.

MAKE NEW DISCOVERIES
Benefit from a learning experience rich in new knowledge and join the global fight against illness and disease as an aspiring medical laboratory scientist, medical researcher or pharmacist. Our internationally renowned researchers have forged strong collaborations and partnerships with local industry and community, government and research institutions worldwide. This means you will learn from and work alongside award-winning researchers at the forefront of their professions, in areas like drug discovery and development, cancer care and medication safety. Study in modern, purpose-built facilities, and gain hands-on experience as you prepare for a career in industry or life-changing research.

FLY HIGH
We’ve partnered with the Adelaide Football Club to provide our students with industry placements and opportunities to collaborate on research projects. You can apply your learnings in an elite sporting environment, working alongside AFL sport scientists and high performance coaches, or engage in sports-related research, focusing on how to achieve optimal player performance and strategies for injury prevention.

CARING ACROSS THE GENERATIONS
While our oldest and youngest generations may seem worlds apart, a new ‘ageing well’ initiative, co-designed by UniSA, is connecting children with older people in our community to promote more meaningful connections. The initiative sets to break down communication barriers and challenge ageing stereotypes to deliver significant health and wellbeing benefits to our most valuable and influential.

It encourages educational and communication development in our younger generations, while providing older generations with rewarding experiences and interactions. The initiative has also provided opportunities for UniSA occupational therapy students to get involved and actively participate in the program as part of their studies. Along with valuable hands-on experience, our students are gaining an increased sense of community and are seeing first-hand the powerful impact and importance of human connection in supporting public health.

YOUR CAMPUS

YOUR HOME
CAMPUS IS
CITY EAST

VIRTUAL CAMPUS

We’re one of Australia’s largest online education providers, giving our students more choice when it comes to flexible learning. You can study fully online or through a blended mode. Our virtual campus is supported by custom online learning platforms using the latest industry software.

HORIZON HOSPITAL AND HEALTH SERVICE

The only one of its kind in South Australia, this is modelled on real-world facilities. Nursing and midwifery students gain vital experience in a comprehensive authentic simulated hospital and health service environment by engaging with residents of a unique virtual city to develop their knowledge and skills.

HORSESHOE CAMPUS

YOUR COMMUNITY

CLINICS /

Our health clinics located on campus provide students with practical, hands-on experience under the supervision of allied health professionals. Services are available to the public and include high performance and exercise physiology, physiotherapy, podiatry, occupational therapy and midwifery.

TAKING A VIRTUAL CAMPUS TOUR

#1 IN SA FOR
CAMPUS FACILITIES

ANATOMY LAB / This space is utilized by all students who study anatomy subjects to gain knowledge about the relationships and functions of various bones, tissues, organs, and other parts of the body. It allows students to understand how the body works in order to diagnose conditions and develop the right treatments.

HISTOPATHOLOGY AND HAEMATOLOGY LAB / Laboratory medicine students use this facility to study tissue and blood samples, expanding their skills in diagnostic pathology and research. They explore cross-matching for blood transfusions, screening for cancer cells, and detecting genes responsible for disease.

HIGH PERFORMANCE SPORT CENTRE / Exercise and sport science students use state-of-the-art testing and analysis equipment to develop safe exercise programs that are designed for people with unique needs or to enhance sport performance.

BRADLEY BUILDING / Located at City West Campus, the impressive building is the leading destination for health research and teaching. Pharmacy and pharmaceutical science students learn in purpose-built facilities and laboratories to explore areas like medicine development.

VERT SUITE / Our Virtual Environment Radiation Therapy Training suite is one of only seven facilities of its kind in Australia. The 3D treatment environment provides medical radiation therapy students with the opportunity to treat virtual patients, using equipment and tools that are used by practitioners in real-life scenarios.

PRACTICAL LEARNING
We offer more than 200 world-class degrees across a wide range of study and career areas. You will learn in a highly practical environment with a focus on real-world applications. You can also take the opportunity to complete an internship or placement during your studies, learning from experts and building work-ready skills.

WORLD-CLASS FACILITIES
Study in modern, purpose-built facilities across all six UniSA campuses. Learn with the latest industry-standard tools and technologies that will take you from the classroom to the workplace. This includes state-of-the-art laboratories, community clinics, creative studios, collaborative learning areas and simulation spaces.

GLOBAL OPPORTUNITIES
Broaden your thinking and see the world through a range of global opportunities. Travel overseas through a student exchange, short-term program, internship, volunteering opportunity or study tour. Graduate with international experience and the skills to take on new challenges.

TOP RANKING TEACHERS
Make your study experience relevant by learning from highly qualified academics and industry professionals with curriculum informed by the latest insights and trends. In fact, we’re ranked number one in South Australia (QILT: Student Experience Survey) and amongst the best young universities in Australia (THE: Young University Rankings) for teaching quality.

POWERFUL PARTNERSHIPS
We collaborate with more than 2,500 companies worldwide to bring our students placement, project, research and work opportunities. Connect with industry during your studies and build your professional networks before you graduate.

REAL RESEARCH
Our research is inspired by challenges. We produce new knowledge that provides real solutions for industry, businesses and the wider community. You will even explore new concepts and findings in your chosen degree, influenced by our world-class research outcomes.

LEARN A LANGUAGE
Develop the skills you need to work internationally by studying a second language. Learn French, Italian, Japanese or English (for speakers of English as a second language) through a Diploma in Languages. Access the Multimedia Languages Lab at Magill Campus and connect with native speakers from around the world in real-time. Graduate with an additional qualification by studying the diploma alongside your undergraduate degree.

LEARN A LANGUAGE
develop.unisa.edu.au/languages

EXPERIENCE STUDENT LIFE
Enjoy life beyond the classroom by getting involved in campus culture. Connect with new people at Orientation, keep active with UniSA Sport and on-campus fitness facilities, or find your tribe with more than 100 student clubs to choose from. Discover our wide range of events throughout the year and connect with USASA – your student association.

GET CAREER READY
Prepare for your future career from first year with support from our Career Services team. Access our online Career Hub for self-help resources, including tips on resume writing and an interview simulator. There are also professional and exclusive job listings. Connect with a career adviser for help with career mapping, attend industry events to build your professional networks, or walk into one of our drop-in centres on campus for general advice.

**HOW TO CHOOSE THE RIGHT PATHWAY...**

🤔 Does the pathway degree really interest you?
🤔 Do you like the courses in the pathway degree?
🤔 Are you passionate about the career outcomes?

For more information, visit [unisa.edu.au/study](http://unisa.edu.au/study) or contact our Future Student Enquiries Team at [unisa.edu.au/enquire](http://unisa.edu.au/enquire) or on (08) 8302 2376.

Please note that all pathways are competitive and not guaranteed due to limited places.

* A competitive Grade Point Average (GPA) and other entry criteria (including prerequisites) apply.
STUDY 100% ONLINE

Study On Demand

Do you want the ultimate flexibility? Then explore our range of 100% online degrees delivered through UniSA Online. You can study any time and on any device.

- Associate Degree in Engineering
- Bachelor of Business (Financial Planning)
- Bachelor of Business (Human Resource Management)
- Bachelor of Business (Management)
- Bachelor of Business (Marketing)
- Bachelor of Commerce (Accounting)
- Bachelor of Communication
- Bachelor of Community Health
- Bachelor of Construction Management
- Bachelor of Construction Management (Honours)

- Bachelor of Criminal Justice
- Bachelor of Data Analytics
- Bachelor of Digital Media
- Bachelor of Information Technology
- Bachelor of Health Science (Nutrition and Exercise)
- Bachelor of Marketing and Communication
- Bachelor of Psychological Science and Sociology
- Bachelor of Psychology
- Bachelor of Public Health

 Degrees specifically designed for online learning

- All assessments are 100% online

Four start dates per year
(Jan, Apr, Jun, Sep)

Learn in 10-week blocks

24/7 access to learning resources

Flexible around your life

Credit for previous study and relevant work experience

Scholarships and grants available

SUPPORT SERVICES

UniSA Online provides personalised support services over extended hours — including on weekends — so you can get help when you need it. Whether it’s for assignments, referencing, administrative or technical supports, you’ll have access to a team ready to assist you every step of the way.

→ Access online academic support seven days a week
→ Connect with a dedicated student adviser
→ Access tech support 24/7

Learn more unisaonline.edu.au

DID YOU KNOW?

As a UniSA Online student you still have full access to the facilities, resources, events and support services available across all of our campuses.

UPSKILL WITH A SINGLE COURSE IN 10 WEEKS

You can study a single course 100% online over 10 weeks to upskill in an area that interests you most or to gain new knowledge that employers are looking for. Explore areas like accounting, marketing, data analytics, psychology and digital design. You can even get study credit that you can put towards a full degree.
**PROFESSIONAL REQUIREMENTS**

**CRIMINAL HISTORY SCREENING**
All students studying a health-related discipline who complete a placement or activity where interaction with patients/the public is required as part of their program, must provide evidence of the following:
- A current National Police Certificate (NPC) through SAPOL or their home state police service;
- A current Working With Children Check (WWCC) through the Department of Human Services (DHS).

Both of these must be valid for the duration of the student’s degree. The National Police Check will list disclosable court outcomes, which may prevent a student’s involvement in placement opportunities.

**IMMUNISATION REQUIREMENTS**
In order to be eligible for clinical placement, students must be screened and provide evidence of their vaccination status. Immunisation is a mandatory requirement across all healthcare placement providers. Non-compliance with the Health Care Workers Immunisation Policy Directive will prevent students from progressing to a placement. Additional requirements may apply.

**STUDENT REGISTRATION**
All students enrolled in a program leading to professional registration must be registered with the relevant national board. The student registration process is completed by the University to the Australian Health Practitioner Regulation Agency (AHPRA) after enrolment. No fees apply.

**Bachelor of Physiotherapy (Honours)**

unisa.edu.au/physiotherapy

**DEGREE STRUCTURE**

**FIRST YEAR**
- Foundations of Health (Human Anatomy 100, Human Physiology 100, Fundamentals of Pharmacology, Human Anatomy 200)
- Foundations of Health Studies (Physiotherapy Studies 201, Biopsychosocial Practice, Human Anatomy 101, Foundations of Health)
- Introduction to Evidence Based Practice (Fundamentals of Pharmacology, Biopsychosocial Practice)
- Introduction to Clinical Practice (Physiotherapy Studies 101, Foundations of Health, Biopsychosocial Practice)

**SECOND YEAR**
- Advanced Physiotherapy Practice A (Physiotherapy Studies 201, Advanced Rehabilitation, Physiotherapy Studies 200)
- Electives (Human Anatomy 200, Human Physiology 200, Biopsychosocial Practice)
- Electives (Physiotherapy Studies 202, Advanced Physiotherapy Practice B, Research Stream)

**THIRD YEAR**
- Health Science Honours Preparation (Research Stream, Advanced Physiotherapy Practice C, Physiotherapy Practice with Older Adults)
- Health Science Honours Thesis (Research Stream, Advanced Physiotherapy Practice C, Physiotherapy Practice with Older Adults)
- Health Science Honours Thesis (Research Stream, Advanced Physiotherapy Practice C, Physiotherapy Practice with Older Adults)

**FOURTH YEAR**
- Advanced Physiotherapy Practice C (Research Stream, Advanced Physiotherapy Practice C, Physiotherapy Practice with Older Adults)
- Research Stream (Advanced Physiotherapy Practice C, Physiotherapy Practice with Older Adults)
- Electives (Advanced Physiotherapy Practice C, Physiotherapy Practice with Older Adults, Health Science Honours Thesis)

**RESEARCH STREAM**
- Biopsychosocial Practice
- Advanced Physiotherapy Practice
- Physiotherapy Practice with Older Adults
- Health Science Honours Thesis

**FOURTH YEAR**
- Advanced Physiotherapy Practice D (Research Stream, Advanced Physiotherapy Practice C, Physiotherapy Practice with Older Adults)
- Research Stream (Advanced Physiotherapy Practice C, Physiotherapy Practice with Older Adults)
- Electives (Advanced Physiotherapy Practice C, Physiotherapy Practice with Older Adults, Health Science Honours Thesis)

**CAREERS**
Registered physiotherapists can work in a variety of settings, including:
- Private practice - clinics - sport and exercise services - rehabilitation centres - hospitals - home and community services - disability services - aged care facilities - women’s health and paediatric services - research

**GUARANTEED ENTRY CALCULATOR**

YOU MIGHT ALSO LIKE
- Bachelor of Medical Radiation Science (Radiation Therapy) or (Nuclear Medicine)

FURTHER STUDY
- Graduate Diploma in Medical Sonography (Cardiac), (General) or (Vascular)
- Bachelor of Medical Radiation Science (Medical Imaging) or (Nuclear Medicine)
- Master of Medical Sonography (Cardiac) or (Vascular) or (General)

CAREERS
Medical imaging professionals can work in a variety of settings, including hospitals, private practices, medical equipment companies, defence and research and development. You may also gain employment in specialist areas such as ultrasound, interventional imaging, magnetic resonance imaging or computed tomography.

DEGREE STRUCTURE

FIRST YEAR
- Radiation Therapy Clinical Practice 1
- Radiation Therapy Studies 1
- Human Anatomy 100
- Human Physiology 100
- Applied Psychology
- Pathology for Medical Radiation
- Human Anatomy (Nuclear Medicine)
- Physics for Medical Radiation 1
- Radiation Therapy Clinical Human Practice 1
- Radiation Therapy Professional Entry Practice 1
- Advanced Evidence Based Practice

SECOND YEAR
- Radiation Therapy Clinical Practice 2
- Radiation Therapy Studies 2
- Human Anatomy 200 (Gross and Gross+
- Human Physiology 200
- Applied Psychology
- Pathology for Medical Radiation
- Human Anatomy (Nuclear Medicine)
- Physics for Medical Radiation 2
- Radiation Therapy Clinical Human Practice 2
- Radiation Therapy Professional Entry Practice 2
- Advanced Evidence Based Practice

THIRD YEAR
- Radiation Therapy Clinical Practice 3
- Radiation Therapy Studies 3
- Human Anatomy 201 (Gross and Gross+)
- Human Physiology 201
- Applied Psychology
- Pathology for Medical Radiation
- Human Anatomy (Nuclear Medicine)
- Physics for Medical Radiation 3
- Radiation Therapy Clinical Human Practice 3
- Radiation Therapy Professional Entry Practice 3
- Advanced Evidence Based Practice

FOURTH YEAR
- Radiation Therapy Clinical Practice 4
- Radiation Therapy Studies 4
- Human Anatomy 300 (Gross and Gross+)
- Human Physiology 300
- Applied Psychology
- Pathology for Medical Radiation
- Human Anatomy (Nuclear Medicine)
- Physics for Medical Radiation 4
- Radiation Therapy Clinical Human Practice 4
- Radiation Therapy Professional Entry Practice 4
- Advanced Evidence Based Practice

Pre-requisites: none
Assumed Knowledge: none

Note 1: Students will be required to hold a current National Police Certificate and Department of Health and Sport Licence (Medical) and be in good standing with the Radiation Inspectorate (SA) before progressing to this program. See page 6 to 9 for further information.

Note 2: High achieving students may be considered for an intake into the Radiation Therapy Bachelor of Medical Radiation Science (Radiation Therapy Clinical Practice Board of Australia (HRBPA).

Note 3: Students will be required to hold a current National Police Certificate and Department of Health and Sport Licence (Medical) and be in good standing with the Radiation Inspectorate (SA) before progressing to this program. See page 6 to 9 for further information.

Note 4: High achieving students may be considered for an intake into the Radiation Therapy Bachelor of Medical Radiation Science (Radiation Therapy Clinical Practice Board of Australia (HRBPA).

Bachelor of Medical Radiation Science (Radiation Therapy)

unisa.edu.au/medical-radiation

YOU MIGHT ALSO LIKE
- Bachelor of Medical Radiation Science (Medical Imaging) or (Nuclear Medicine)

FURTHER STUDY
- Graduate Diploma in Medical Sonography (Cardiac), (General) or (Vascular)
- Master of Medical Sonography (Cardiac) or (Vascular) or (General)

CAREERS
Qualified radiation therapists can work across a variety of settings, including hospitals, private practice, research and development, and medical equipment companies. You may also gain employment in specialist areas such as brachytherapy and stereotactic radiotherapy.

DEGREE STRUCTURE

FIRST YEAR
- Radiation Therapy Clinical Practice 1
- Radiation Therapy Studies 1
- Human Anatomy 100
- Human Physiology 100
- Applied Psychology
- Pathology for Medical Radiation
- Human Anatomy (Nuclear Medicine)
- Physics for Medical Radiation 1
- Radiation Therapy Clinical Human Practice 1
- Radiation Therapy Professional Entry Practice 1
- Advanced Evidence Based Practice

SECOND YEAR
- Radiation Therapy Clinical Practice 2
- Radiation Therapy Studies 2
- Human Anatomy 200 (Gross and Gross+)
- Human Physiology 200
- Applied Psychology
- Pathology for Medical Radiation
- Human Anatomy (Nuclear Medicine)
- Physics for Medical Radiation 2
- Radiation Therapy Clinical Human Practice 2
- Radiation Therapy Professional Entry Practice 2
- Advanced Evidence Based Practice

THIRD YEAR
- Radiation Therapy Clinical Practice 3
- Radiation Therapy Studies 3
- Human Anatomy 201 (Gross and Gross+)
- Human Physiology 201
- Applied Psychology
- Pathology for Medical Radiation
- Human Anatomy (Nuclear Medicine)
- Physics for Medical Radiation 3
- Radiation Therapy Clinical Human Practice 3
- Radiation Therapy Professional Entry Practice 3
- Advanced Evidence Based Practice

FOURTH YEAR
- Radiation Therapy Clinical Practice 4
- Radiation Therapy Studies 4
- Human Anatomy 300 (Gross and Gross+)
- Human Physiology 300
- Applied Psychology
- Pathology for Medical Radiation
- Human Anatomy (Nuclear Medicine)
- Physics for Medical Radiation 4
- Radiation Therapy Clinical Human Practice 4
- Radiation Therapy Professional Entry Practice 4
- Advanced Evidence Based Practice

Pre-requisites: none
Assumed Knowledge: none

Note 1: Students will be required to hold a current National Police Certificate and Department of Health and Sport Licence (Medical) and be in good standing with the Radiation Inspectorate (SA) before progressing to this program. See page 6 to 9 for further information.

Note 2: High achieving students may be considered for an intake into the Radiation Therapy Bachelor of Medical Radiation Science (Radiation Therapy Clinical Practice Board of Australia (HRBPA).

Note 3: Students will be required to hold a current National Police Certificate and Department of Health and Sport Licence (Medical) and be in good standing with the Radiation Inspectorate (SA) before progressing to this program. See page 6 to 9 for further information.

Study South Australia’s only fully-accredited degree in exercise and sport science. Develop a deep understanding of the impact that exercise and physical activity has on the biological, physical and social aspects of human life. Learn how to design, deliver and assess exercise programs to improve clients’ health and wellbeing, conduct laboratory and field testing, and appraise and interpret scientific research. Be guided by some of Australia’s leading exercise scientists and experts in the field. Develop knowledge in human anatomy and physiology, the sociology of health and physical activity, exercise prescription and delivery, nutrition and biomechanics. Access purpose-built facilities, including the exercise physiology laboratories, Environmental Chamber and the High Performance Sport Centre located on campus. Gain valuable practical experience by completing industry placements across a range of settings, including schools and elite sporting clubs. Graduate with a degree accredited by Exercise and Sport Science Australia (ESSA) and be eligible for registration as an Accredited Exercise Scientist.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 14.

CAREERS

FIRST YEAR
- Human Anatomy 100
- Foundations in Human Movement, Exercise and Sports Science
- Physiology Essentials 100
- Foundations of Physical Activity and Health
- Introduction to Group and Team Psychology
- Lifespan Growth and Motor Development
- Functional Anatomy
- Research Methods and Statistics

SECOND YEAR
- Exercise Physiology 1
- Human Nutrition
- Motor Control and Learning
- Exercise Delivery
- Biomechanics of Human Movement
- Exercise Physiology 2
- Health, Exercise and Sport Psychology
- Exercise Prescription

THIRD YEAR
- Professional Practice in Exercise Science
- Applied Exercise and Sport Science
- Elective 1
- Elective 2
- Sociology of Health, Physical Activity and Sport
- Elective 3
- Elective 4
- Elective 5

"I chose to study exercise and sport science because the degree can provide lots of career paths. I learned so much during my placement at Basketball SA working with the Woodville Warriors Men’s Premier League Basketball team, where I prescribed and delivered exercises to improve their performance. Unisa has been able to provide me with clarity about the future direction of my career and the opportunities available."

Bachelor of Human Movement

Year 1 Selection Rank: 70.00
Year 12 Grades: TAFE/RTO: guaranteed

Prerequisites: none

Assumed Knowledge: none

Study a primary stream in Health and Physical Education.

Choose a secondary stream in Rehabilitation Sciences, Sports Coaching, Outdoor Education, Health Promotion, Nutrition or Advanced Exercise and Sport Science.

Package a degree in human movement with postgraduate studies in education to become a secondary health and physical education teacher. Build strong foundational knowledge in core areas such as human anatomy and physiology, the sociology of health and physical activity, growth and motor development, and group and team psychology. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics and motor learning. Tailor your studies through a wide range of elective courses covering topics such as outdoor education, sports coaching and health promotion. Focus on adolescent learning with the ability to teach key learning areas within the Australian Curriculum, including health and Physical Education to Year 12 and Junior Science up to Year 10. Depending on your final year elective, you may also be qualified to teach Outdoor Education to Year 12 and English, Mathematics, Humanities and Social Sciences, or Languages. Benefit from practical learning, completing supervised industry placements totalling more than 60 days across both programs in a range of educational settings.

Note 1: Students will be required to hold a current National Police Certificate and Department of Human Services (DV) Working with Children Check. See page 16 for additional requirements applying for the Master of Teaching (Secondary), visit unisa.edu.au/ivep for more information.

Note 2: Graduates can apply for teacher registration in South Australia and some overseas countries. Applicants should note that they may also need additional training external to the University to meet the requirements of the Teacher Registration Board of South Australia and other registration and regulatory authorities.

Careers

Health and physical education teacher (up to Year 12) - science teacher (up to Year 10) - sport development officer - outdoor education instructor - sports coach - recreation activities coordinator

- Master of Occupational Therapy (Graduate Entry)
- Master of Health Services Management
- Master of Research (Health Sciences)

Degree Structure

Year 1 Selection Rank: 80.00
Year 12 Grades: TAFE/RTO: guaranteed

Prerequisites: none

Assumed Knowledge: none

Study a cross-disciplinary minor, focusing on areas such as Psychology, Legal Studies, Sport Management, Digital Media or Sociology.

Prepare for a career working with populations and communities to make a positive difference in the lives of others. Cultivate a range of skills aimed at improving and promoting health and wellbeing outcomes. Develop your knowledge and contribute to the research and education around preventing and controlling global health issues such as COVID-19, heart disease, cancer and mental health. Complete more than 200 industry placement and project hours, choose a minor study area or a set of elective courses based on your interests, or take the opportunity to study overseas. Benefit from a curriculum aligned to the Foundation Competencies for Health Professionals and the Aboriginal and Torres Strait Islander Health Curriculum Framework, giving you a highly transferable skill set. You will also develop skills in planning, managing and evaluating healthcare policy, projects, programs and services. Graduates are eligible for membership with the Public Health Association of Australia (PHAA) and other relevant professional bodies.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DV) working with Children Check. See page 4 for more information.

UNISA College pathways: Foundation Studies or Diploma in Health

Prerequisites: none

Assumed Knowledge: none

Become a Registered Nurse and make a positive contribution to the healthcare sector. Develop the knowledge, clinical skills and attitudes needed for professional practice in a range of settings. Benefit from a strong focus on theory and practical experience, including access to our unique clinician-led, hospital and health service on campus, which includes authentic hospital wards, clinical units and community areas. Be prepared to meet healthcare delivery requirements for the 21st century and respond to Australian and international healthcare priorities and trends. Focus on four key areas of nursing practice during your studies, including collaborative and therapeutic practice; critical thinking and analysis; professional practice; and provision and coordination of care. Learn about cultural competence, evidence-based practice; mental health; primary health; professional communication; and safety and quality. Complete more than 900 placement hours starting in your first year of study. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

Note 1: To meet entry requirements, applicants must consider the professional registration requirements, including the English Language Skills standard and complete a declaration stating how they will demonstrate their English language competency, as determined by the Nursing and Midwifery Board of Australia (NMBA).

Note 2: Once enrolled, students will be required to meet Fitness to Practice in Clinical Placements requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS

Registered nurses can work in a variety of healthcare settings, including:

- Hospitals
- Primary health and community support services
- Aged and rehabilitative care
- Schools
- Home-based services
- Drug and alcohol treatment centres
- Community health organisations
- Mental health services
- International aid agencies
- Correction facilities

Students will be required to undertake a combination of on-campus or online study. Locates will be required to attend on-campus lectures, tutorials and practicals.

The program is also offered externally through online study.

“My teachers helped me to become the holistic and caring Registered Nurse I am today. After learning new skills in the on-campus simulated hospital environment, I completed placements in a rural nursing home, a stroke unit, neurosurgery ward and a cardiac surgical unit. The highlight was observing an open-heart surgery, which ultimately led me to a career in paediatric surgical nursing.”

Jemima Robles

Nursing graduate

- Bachelor of Nutrition and Food Sciences

FURTHER STUDY
- Bachelor of Biomedical Research (Honours) – one year
- Master of Health Services Management

DEGREE STRUCTURE

Choose four specialist elective courses that align to your career aspirations in biosciences, chemistry or marketing.

Study the only degree of its kind in South Australia. Develop the skills to work in areas such as drug discovery, manufacturing and production, clinical trials, regulatory affairs, and pharmaceutical sales and marketing. Build your understanding of fundamental sciences and the factors influencing the global pharmaceutical industry. You will then focus specifically on key areas such as pharmaceutical sciences, pharmacology and pharmaceuticines, drug discovery, development, and commercialisation. You can also choose from a range of specialist courses to tailor your studies, covering areas such as research and development, manufacturing and pharmaceutical chemistry, and drug development and business (including sales, marketing, legal, regulatory and drug information). Access purpose-built laboratories on campus and in the $247 million Bradley Building. Complete an industry project or placement during your degree. Be eligible for membership with the Royal Australian Chemical Institute (RACI) and other relevant professional bodies such as AusChem. Explore the option of a double degree with the Bachelor of Pharmacy (Honours) – criteria apply.

Note: Students will be required to hold a current South Australian Police Certificate and Department of Human Services (SA) Working with Children Check. See page 14.

CAREERS

Pharmaceutical science professionals can work in a variety of areas, including:
- Medicine evaluation - drug identification - clinical trials - medicine manufacturing - quality control - intellectual property

YOU MIGHT ALSO LIKE
- Bachelor of Pharmacy (Honours)
- Bachelor of Laboratory Medicine (Honours)
- Bachelor of Biomedical Science

- Master of Research (Health Sciences)

DEGREE STRUCTURE

Launch a career in the growing food and nutrition industry. Learn to develop innovative foods, promote and manage diets and lifestyles, and conduct meaningful research for enhanced wellbeing. Explore the fundamental core courses of both nutrition and food sciences in your first two years of study then select one as a formal study stream in your third year, which aligns to your interests and career goals. Develop a strong body of knowledge in biology, food chemistry, microbiology, physiology, and food safety regulation. Study in a dedicated nutrition hub on campus, including a purpose-built sensory laboratory. Microbiology Laboratory and fully-equipped commercial kitchen. Benefit from our strong links with the food industry and community, and attend field trips to some of South Australia's major nutrition and food providers. Graduates are eligible to apply for professional membership with the Australian Institute of Food Science and Technology (AIFST). Graduates are also eligible to apply to the Nutrition Society of Australia for registration as an Associate Nutritionist (AInutr), leading to Registered Nutritionist (RNutr), typically after three years of experience.

Note: Students will be required to hold a current South Australian Police Certificate and Department of Human Services (SA) Working with Children Check. See page 14.

CAREERS

Community nutritionist - health promotion officer - food scientist - food technologist - flavour technologist - product development manager - microbiology specialist - food policy adviser - food safety adviser - quality assurance officer - research scientist - teacher (with further study)

"This degree integrates many aspects of chemistry, biology, maths and marketing, which has given me a great understanding of the pharmaceutical industry. Becoming a pharmaceutical science professional is exciting. Knowing that the work we do has the potential to revolutionise the treatment for diseases and improve the wellbeing of patients across the globe." - Cintya Dharmayanti

Pharmaceutical science graduate

STUDY ON DEMAND
Study a 100% online community health degree designed specifically for flexible learning. Explore your passion for wellness and develop specialised non-clinical knowledge and skills in community health.

Focus on key health care priorities such as mental health, disability services and aged care. Learn about the National Disability Insurance Scheme (NDIS) and the opportunities to help shape the health and wellbeing of communities.

CAREERS
Community health worker - community development officer - health support worker - disability support coordinator - aged care coordinator - project officer - health policy analyst - youth worker

STUDY ON DEMAND
Study a 100% online nutrition and exercise degree designed specifically for flexible learning. Develop the knowledge and skills to support community health and wellbeing through a holistic approach to good nutrition and physical activity. Experience the effects that food, nutrition, health and exercise have on the biological, psychological, and social aspects of life.

Examine diets and lifestyles for optimum health and their associations with nutrient intake, energy output, and obesity. You will also learn how to maximise physical performance for active people. Access online support services seven days a week, view learning resources 24/7 and log in to the interactive online environment anywhere, anytime, and from any device.

Benefit from flexible study with no need to attend lectures or come on campus – all courses and assessments are delivered online. Scholarships and grants are also available for eligible students.

CAREERS
Health and wellness consultant - nutrition and exercise consultant - corporate health and wellness adviser - health promotion officer - active and healthy ageing adviser

STUDY ON DEMAND
Study a 100% online public health degree designed specifically for flexible learning. Develop the skills in planning, managing and evaluating healthcare policies, projects, programs and services to help create vibrant communities. Explore diverse areas such as health promotion, health law and ethics, human biology, epidemiology, as well as global, national and Aboriginal health issues.

Benefit from courses specifically designed to align with the Foundation Competencies for Public Health Graduates in Australia. Graduate with an industry-standard portfolio of work that you can present to future employers. Access online support services seven days a week, view learning resources 24/7 and log in to the interactive online environment anywhere, anytime, and on any device.

Benefit from flexible study with no need to attend lectures or come on campus – all courses and assessments are delivered online. Scholarships and grants are also available for eligible students.

CAREERS
Public health manager - epidemiologist - Aboriginal health officer - women’s health officer - healthcare policy planner - food safety, quality and security officer - Aboriginal health officer - project officer - women’s health officer - childcare worker - health promotion officer

STUDY ON DEMAND
Study a 100% online biomedical research degree designed specifically for flexible learning. Develop the knowledge and skills to support research into the development of new knowledge in a chosen specialisation area.

Explore the latest research methodologies, learn to prepare research proposals, and increase your awareness of ethical research practices. Complete an advanced research project during your studies, which demonstrates your ability to collect data, prepare a thesis, reference, publish and present your findings. Work closely with world-class health researchers based in the Bradley Building located in Adelaide’s Belvoir City on North Terrace and the Centre for Cancer Biology – an alliance between Unisa and SA Pathology. Continue your learning and research through additional postgraduate studies.

CAREERS
Laboratory research assistants and technicians can work in a variety of specialised roles in settings such as research laboratories and institutes, pharmaceutical and biopharmaceutical companies, and the pharmaceutical and laboratories supply sector.

ENTRY REQUIREMENTS
• Bachelor of Biomedical Research

ENROLMENT OPTIONS
- Part-time study available
- 3 years full-time (City East Campus)
- 1 year full-time (Project Management for Health, Research Methods for Public Health)
- 1.5 years full-time (Optional Study on Demands)
- 2 years full-time (Optional Study on Demands)
Take your career to the next level

You can also make a positive and lasting contribution to your field through a research degree.

Designed for students who have completed a health-related bachelor's degree, this program will provide you with the requirements to practise as a registered occupational therapist in just two extra years of study. Learn how to assist people in managing constraints caused by injury or illness, as well as emotional, developmental, environmental, societal, age-related and psychological limitations. Benefit from highly practical learning with over 1,000 industry placement hours. Develop strong foundational knowledge in occupational science, occupational therapy practice and human neuroscience, along with critical communication and problem-solving skills. Graduate with a qualification accredited by the Occupational Therapy Council (Australia & New Zealand) Ltd. The program is also approved by the World Federation of Occupational Therapists and the Occupational Therapy Board of Australia for professional registration as an Occupational Therapist in Australia.

CAREERS

Occupational therapists can work in a variety of settings, including hospitals - private practice - community mental health services rehabilitation centres - aged care facilities - home-based services - local council services - government departments - schools - non-government organisations (NGOs) - human services (DHS) - Working With Children Check. See page 14.

Designed for qualified physiotherapists, this postgraduate qualification will further your clinical skills in both musculoskeletal and sports physiotherapy in just six months of study. Learn to assess and manage a wide range of clinical presentations within an evidence-informed framework, requiring advanced biomedical and psychosocial knowledge, clinical examination skills and clinical reasoning, along with strong communication, education and management skills. Study this as a standalone qualification or expand your knowledge further by continuing with the Master of Advanced Clinical Physiotherapy program, specialising in either musculoskeletal or sports physiotherapy with credit awarded for successfully completed courses.

CAREERS

This program is designed for registered physiotherapists seeking to further their knowledge and skills working in settings such as:

- Private practice - clinics - sport and exercise services - rehabilitation centres - hospitals - home and community services - disability services - aged care facilities

Entry requirements

- Bachelor degree or equivalent professional entry level qualification in physiotherapy from a recognised tertiary institution, and a minimum of 2 years of full-time, or equivalent, practical experience in professional practice.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 14.

You might also like - Master of Occupational Therapy (Graduate Entry)

FURTHER STUDY

- Master of Advanced Clinical Physiotherapy (Musculoskeletal) or (Sports)
- Master of Health Services Management
- Master of Research (Health Science)
- Masters by Research
- Doctor of Philosophy (PhD)
Master of Advanced Clinical Physiotherapy

Degrees:
- Master of Advanced Clinical Physiotherapy (Musculoskeletal)
- Master of Advanced Clinical Physiotherapy (Sports)

unisa.edu.au/physiotherapy

Entry requirements:
- Bachelor degree in physiotherapy, or equivalent, or level qualification, from a recognised higher education institution.
- A minimum of three months paid or equivalent physiotherapy experience in a relevant field following completion of the professional entry level qualification, and meet the eligibility requirements for registration as a physiotherapist, or limited registration under supervision such as internships.

Further study:
- Masters by Research
- Master of Health Services Management

DEGREE STRUCTURE

Master of Medical Sonography

Degrees:
- Master of Medical Sonography (General)
- Master of Medical Sonography (Cardiac)
- Master of Medical Sonography (Vascular)

unisa.edu.au/medical-sonography

Entry requirements:
- A bachelor degree or higher from a relevant field of education.
- At least one year’s full-time experience in the imaging profession, being one of the leading educators in ultrasound. The program introduced me to a broad spectrum of examinations that prepared me for industry and enabled me to develop skills in a supported environment.

Kosta Hellmanns
Sonography graduate
Graduate Certificate in Breast Imaging
unisa.edu.au/medical-radiation

City East Campus
Intakes: Feb and Jul
Online
1 year part-time
Placement
Commonwealth supported*

SATAC code 4GC039
Program code ICBR

Part-time study only
*see page 5 for more information

Study the only accredited program of its type in Australia and New Zealand. Extend your qualifications as a diagnostic radiographer or other relevant health professional with specialist knowledge and skills in breast imaging and sonography. Focus on core courses in ultrasound physics and instrumentation, mammography, breast sonography and industry best practice. Complete supervised training during your studies, complemented by in-depth theoretical learning and a professional workshop in mammography delivered by BreastScreen SA. Enjoy flexible learning with the program offered online and part-time over a 12-month period. Graduates are eligible to apply for full professional accreditation with the Australian Sonographer Accreditation Registry (ASRA) for Breast Sonography, with evidence of scanning experience required.

Note: Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 14.

CAREERS
Breast sonographers can work in a variety of settings in both hospitals and private practice and can also move into training and development or private practice. Breast sonographers can also move into training and development roles in the public and private sector.

Breast Sonographers
• Breast Sonography
• Ultrasound Physics and Instrumentation
• Mammography

Further your qualifications and gain professional experience through postgraduate study. Build your understanding of a contemporary evidence-based nursing practice and develop essential leadership and management skills. Choose a broad qualification or tailor your studies with an area of specialisation that interests you most. Benefit from flexible learning with the programs offered online and part-time over a 12-month period.

CAREERS
Depending on your chosen study area, your career options can include:

Cardiovascular nurse • aged care nurse • nurse educator • policy adviser

Entry requirements
• Bachelor degree in cardiovascular sonography or equivalent qualification, or
• Equivalent combination of on-campus or online training and supervised clinical practice.
• Up-to-date registration with relevant professional association.

YOU MIGHT ALSO LIKE
• Graduate Diploma in Sonography (General), (Cardiac) or (Vascular)

FURTHER STUDY
• Master of Research (Health Sciences)
• Doctor of Philosophy (PhD)

Advance your nursing career by further developing your knowledge, practical skills and understanding of evidence-based practice. Prepare for senior leadership or governance roles in clinical practice, policy research, education or management. Learn to identify and investigate questions, issues and challenges that will improve and inform healthcare practice, knowledge and research outcomes. Explore global issues, trends and practices that impact the delivery of nursing and health services through independent research. We support you throughout your studies by world-class researchers, as well as academics and industry-experienced clinicians.

Take your research further by completing doctoral studies following completion of the master’s program. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

CAREERS
The program is designed for registered nurses seeking to further their qualifications and can lead to senior roles in leadership, governance, health policy, education or management.

Entry requirements
• Registered nurse in Australia or equivalent

YOU MIGHT ALSO LIKE
• Graduate Certificate in Nursing – various specialisations
• Graduate Diploma in Mental Health Nursing

CAREERS

Health professionals specialising in perinatal mental health can work in a variety of healthcare settings, including:

- Hospitals
- Private practice
- Women’s health services
- Community services
- General practice

Entry requirements

- Bachelor degree or higher in a health-related discipline or equivalent qualification from a recognised higher education institution.
- Two years work experience in a health-related field.

YOU MIGHT ALSO LIKE

- Graduate Diploma in Mental Health
- Bachelor of Science (Mental Health)
- Graduate Certificate in Perinatal Mental Health

DEGREE STRUCTURE

First year

- Health and illness in context
- Introduction to research
- Qualitative and quantitative research methods
- Research into mental health and mental illness
- Mental health and mental illness in community settings
- Qualitative research design
- Research ethics

Second year

- Mental health and illness in context
- Health and illness in context
- Health and illness in context
- Qualitative and quantitative research methods
- Research into mental health and mental illness
- Mental health and mental illness in community settings
- Qualitative research design
- Research ethics

You will complete a thesis that will contribute to new knowledge. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

CAREERS

Mental health professionals can work across a variety of settings, including Public mental health services: residential centres; aged care facilities; youth services; community health services; private mental health services.

Entry requirements

- Relevant bachelor degree or equivalent qualification from a recognised higher education institution.
- Relevant work experience in the area of mental health as required.

YOU MIGHT ALSO LIKE

- Graduate Certificate in Perinatal Mental Health
- Graduate Diploma in Mental Health
- Master of Health Services Management

DEGREE STRUCTURE

Minor Thesis A

- Mental Health for Health Professionals
- Skills for Recovery Practice in Mental Health

You will conduct a research project that will contribute to new knowledge. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

DEGREE STRUCTURE

First year

- Health and illness in context
- Introduction to research
- Qualitative and quantitative research methods
- Research into mental health and mental illness
- Mental health and mental illness in community settings
- Qualitative research design
- Research ethics

Second year

- Mental health and illness in context
- Health and illness in context
- Health and illness in context
- Qualitative and quantitative research methods
- Research into mental health and mental illness
- Mental health and mental illness in community settings
- Qualitative research design
- Research ethics

You will conduct a research project that will contribute to new knowledge. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

CAREERS

Mental health professionals can work across a variety of settings, including Public mental health services: residential centres; aged care facilities; youth services; community health services; private mental health services.

Entry requirements

- Relevant bachelor degree or equivalent qualification from a recognised higher education institution.
- Relevant work experience in the area of mental health as required.

YOU MIGHT ALSO LIKE

- Graduate Certificate in Perinatal Mental Health
- Graduate Diploma in Mental Health
- Master of Health Services Management

DEGREE STRUCTURE

Minor Thesis A

- Mental Health for Health Professionals
- Skills for Recovery Practice in Mental Health

You will conduct a research project that will contribute to new knowledge. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.
Graduate Certificate in Pharmacy Practice

unisa.edu.au/pharmacy

City East Campus

Intakes: Feb and Jul

Online

1 year part-time

Commonwealth supported

SADAC code: 4GC059

Program code: IPCM

Part-time study only. *See page 51 for more information

Develop the advanced knowledge and skills to provide specialist pharmaceutical services. Take a leading role in drug product selection and provide specialist drug information and education to patients and healthcare providers. Learn to effectively monitor a patient’s therapy and critically evaluate clinical research. Study key areas such as clinical pharmacy practice, epidemiological concepts, pharmacoethics, and research methods and biostatistics. Be mentored by practising pharmacists and academics who are leaders in their field. Benefit from strong links to internationally recognised research groups, focusing on areas such as the prevention and treatment of cancer. Study online and gain hands-on experience through on-campus workshops.

CAREERS

This program is designed for pharmacists seeking to further their expertise and can lead to specialised careers in hospital and community settings. Develop drug regulation, academia and can lead to specialised careers in:
- Hospital and community settings: clinical environments – clinical research - academia - specialist drug information and education programs
- Drug regulation: • The ability to effectively monitor a patient’s therapy and critically evaluate clinical research.

FURTHER STUDY

- Master of Clinical Pharmacy
- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE

PRE-REGISTRATION PATHWAY

Social and Clinical Issues in Health
Advanced Pharmacy Practice (Data Set)
AND TWO OF THE FOLLOWING
Advanced Pharmaceutics and Formulation
Introduction to Biostatistics
Research Methods and Biostatistics
Research Planning
Histology
Pathology Preparation

REGULATED PHARMACY PATHWAY

Applied Clinical Pharmacy
Advanced Pharmaceutics
Advanced Pharmaceutics 1
Advanced Pharmaceutics 2
Research Methods and Biostatistics

Pre-registration pathways are required to be registered pharmacists with AHPRA.

You might also like
- Master of Clinical Pharmacy
- Masters by Research
- Doctor of Philosophy (PhD)

Graduate Certificate in Surgical Pathology Preparation

unisa.edu.au/laboratory-medicine

City East Campus

Intakes: Feb and Jul

Online

1 year part-time

Commonwealth supported

SADAC code: 4GC091

Program code: ICPM

Part-time study only. *See page 51 for more information

Develop your knowledge and expertise through a specialised qualification in surgical pathology designed for professionals working in an anatomical pathology laboratory. Complete advanced training in the dissection, sampling and preparation of tissues for histopathological examination and diagnosis. You will also complete specialised training in specimen recording, data storage and retrieval, standard operating procedures, equipment use; occupational health and safety, and macro and microphotography. Combine online coursework and learning in a virtual classroom with supervised training in your workplace.

CAREERS

This program can extend your career in surgical pathology across settings such as:
- Hospitals - diagnostic laboratories - forensic pathology departments - research

DEGREE REQUIREMENTS

- A degree in science or equivalent qualification, and
- Completion of a BSc (with Honours) in biological science or wide equivalent qualification, or
- Majored in or completed advanced studies in laboratory histopathology, or
- Successful completion of a Masters of Science degree in laboratory histopathology, or
- Successful completion of a Masters of Clinical Pharmacy degree with a minor in clinical research.

FURTHER STUDY

- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE

- Tissue Structure in Health and Disease
- Surgical Pathology Project
- Surgical Pathology Workbook

The program is available online, but will require some on-campus assessment.

Graduate Certificate in Health Research

unisa.edu.au/health-science

City East Campus

Intakes: Feb and Jul

On-campus/online

0.5 years full-time

Commonwealth supported

SADAC code: 4GC094

Program code: ICHR

Part-time study only. *See page 51 for more information

Develop fundamental research skills and knowledge relevant to a wide range of health disciplines and clinical settings. Gain the critical and practical skills required to access, manage and analyse health data applicable to real-world contemporary health issues. Learn to effectively communicate, translate and disseminate health research principles, theories and findings. You can also choose an elective course, focusing on areas such as health evaluation, approaches to qualitative research or research project development. Access the latest industry software to analyse large volumes of data. Benefit from flexible learning, with the option of completing online, on-campus or part-time study.

CAREERS

This program is designed for health professionals seeking roles in Government departments and agencies - health organisations - regulatory bodies - health research centres - research institutes - health education - NGOs.

DEGREE REQUIREMENTS

- A degree or equivalent qualification from a recognised higher education institution.
- A case may be made to the University for applicants that hold educational qualifications lower than a bachelor degree based on merit of performance, relevant professional work experience or publications.

YOUR STUDENT EXPERIENCE

ORIENTATION is the start of your journey at university. Explore your campus, meet new people, connect with teaching staff, get study advice, and enjoy different activities.

CAMPUS CENTRAL teams are there to help you with everything from ID cards, to enrolment, fees, student services, and any questions you have about your studies.

SUPPORT SERVICES are available to you throughout your time at university, including study support, personal counselling, and peer mentoring, along with access to a range of community clinics located on campus.

USASA is your student association and voice at university. They also organise social activities, coordinate 100+ student clubs and publish our award-winning student magazine.

CAREER SERVICES will help you prepare for your future career. Connect with one of our expert career advisers, access the online Career Hub for the latest resources and job listings, and attend networking and industry events.

UniSA+ is a unique program that will help you get career ready by developing your practical skills in leadership, entrepreneurship, cultural understanding, and self-awareness.

STUDENT LOUNGES feature open social spaces, study nooks, kitchen facilities, mobile charging stations, lockers, gaming stations and more.

UniSA SPORT has 25+ sporting clubs, including rowing, netball, gaelic, rock climbing, and even esports!

24-HOUR SECURITY services are available on campus and the free SafeZone app can be downloaded through the App Store or Google Play.

ACCOMMODATION services are available to help you set up a home away from home.

MYCAREERMATCH MyCareerMatch is a free personality and career profiling tool that you can complete before you start university. Contact Future Student Enquiries on (08) 8302 2376 or at unisa.edu.au/enquire

GUARANTEED ENTRY CALCULATOR Go online and explore the degrees you may be eligible for using your Selection Rank or Year 12 subject grades. unisa.edu.au/guaranteed

DISCOVER OUR HEART Pridham Hall features a graduation space, sports centre, gym and swimming pool located at City West Campus.

OPEN DAYS

ONLINE Launching July 2021 Access all your study and career information, anywhere from anywhere.

ON CAMPUS August 2021 Visit your future campus throughout August, take a guided tour, and speak with teaching staff and current students. Register at unisa.edu.au/openday

2021 EVENTS AND WEBINARS

We host a series of events and webinars throughout the year so you can learn more about studying with UniSA.

CAMPUS TOURS

We offer guided campus tours during the school holidays, which you can book online unisa.edu.au/infosessions
STUDY AT UniSA — THE BASICS

APPLYING WITH YEAR 12 RESULTS
Applicants are required to have successfully completed the South Australian Certificate of Education (SACE) with:
• A competitive Selection Rank (ATAR + Adjustment Factors);
• Fulfilment of the degree’s prerequisite requirements (where applicable).

Applicants may also be eligible to compete for entry if they have completed the degree’s prerequisite requirements and one of the following:
• An interstate or overseas qualification considered by the University as equivalent to SACE, or
• The International Baccalaureate Diploma with a minimum score of 24 points.

GUARANTEED ENTRY
There are a few ways to guarantee your place at UniSA.
Year 12 Grades Guaranteed Entry – UniSA offers guaranteed entry based on your three best Year 12 subject grades for most degrees. If you achieve the selection grades and you put us at your first preference, that’s it, you’re automatically in.

Selection Rank Guaranteed Entry – UniSA has set guaranteed entry scores for most of our degrees. This means, that if you achieve that set Selection Rank and you put us at your first preference, you’re in. There’s nothing more you have to do.

Some degrees also have prerequisites and other eligibility criteria for entry that you’ll still have to meet.

VET Guaranteed Entry – UniSA offers guaranteed entry based on successfully completed VET qualifications. If your completed VET award meets the set VET Guaranteed Entry, you have met any prerequisites and specific entry requirements, and you’ve listed the degree as your first preference, you’re guaranteed an offer.

ALTERNATIVE PATHWAYS
Entering your chosen degree straight from high school is not the only pathway into UniSA. Applicants may also meet the minimum requirements to apply for entry (via competitive selection) through one of the following:

UniSA College – there are a variety of pathway options offered through UniSA College, including diplomas, Foundation Studies and the Aboriginal Pathway Program.

STAT – a competitive Special Tertiary Admissions Test (STAT) score – based on 70 multiple choice questions designed to test your aptitude for tertiary study. A personal competencies statement or relevant employment experience alongside your STAT score may also be considered for some degrees.

TAFE/RTO – applicants may be eligible for entry with the completion of an award from TAFE or another Registered Training Organisation at AQF Certificate IV or higher.

Tertiary transfer – completion of at least half a year of full-time equivalent study at UniSA or a recognised higher education institution. You can apply using your competitive Grade Point Average (GPA).

SABRT – There are a range of bridging qualifications offered through the South Australian Institute of Business & Technology.

How to apply:
Applications to most UniSA degrees are administered through the South Australian Tertiary Admissions Centre (SATAC). Go to our website for all the information you need about how to apply.

How to apply:
For all UniSA Online degrees, you can apply directly.

SCHOLARSHIPS
We offer a wide range of scholarships and grants to support students from all walks of life. Each year, more than 2,500 students benefit from scholarships at UniSA, providing financial assistance as well as valuable work experience, mentoring opportunities and overseas travel. Go online to check what you might be eligible for.

HOW TO APPLY

FEES
All domestic undergraduate students at UniSA are in Commonwealth-supported places. Students in these places pay a contribution of their fees depending on the program chosen and the contribution band in which those courses are classified (see table below). The amount of your student contribution also depends on the unit value of your courses of study.

As per the Australian Government guidelines, the student contribution amounts for 2021 are

<table>
<thead>
<tr>
<th>Band</th>
<th>Field of Education</th>
<th>Student contribution for one year of full-time study (225 units)</th>
<th>Student contribution for each subject (11.9 units)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Agriculture, english, mathematics, teaching, clinical psychology*, languages and nursing</td>
<td>$5,950</td>
<td>$491</td>
</tr>
<tr>
<td>2</td>
<td>Architecture, IT, other health, allied health, creative arts, engineering, science, environmental studies, professional pathway psychology*, professional pathway social work* and clinical psychology*</td>
<td>$7,950</td>
<td>$993</td>
</tr>
<tr>
<td>3</td>
<td>Dentistry, medicine and veterinary science</td>
<td>$11,300</td>
<td>$1,412</td>
</tr>
<tr>
<td>4</td>
<td>Law, accounting, administration, economics, commerce, communications, society and culture, professional pathway psychology*, professional pathway social work* and clinical psychology*</td>
<td>$14,500</td>
<td>$1,812</td>
</tr>
</tbody>
</table>

*Some postgraduate programs are also Commonwealth-supported (or CSP), while others are fully fee-paying; this is based on applicable programs in this guide. For programs under 10 year full-time study, fees are listed as the whole program fee (indicative of 2021). For programs over 10 years full-time study, fees are listed based on the cost per annum (indicative of 2021). For more information on fees, including eligibility for Commonwealth-supported places, deferring your student contribution through HECS-HELP or FFE-HELP loans, please visit unisa.edu.au/fees.

This table should be used as a guide only. Total costs can vary depending on the courses you study and the band they fall into.

* Band determined by program/plan
