YOUR FUTURE, GUARANTEED

We're here to back you. That's why we have a few ways to guarantee your place at UniSA.

Make us your first preference

+

Achieve the required Year 12 subject grades

or

Achieve the guaranteed Selection Rank score

or

Achieve the guaranteed TAFE/VET qualification

That's it. You're automatically in.

Learn more and check out UniSA's Guaranteed Entry calculators

#1 IN SA FOR GRADUATE CAREERS

ComparED (QILT) Graduate Outcomes Survey 2019-21 — Full-time Employment Indicator (Undergraduate). Public SA-founded universities only.

Some degrees also have prerequisites and other eligibility criteria for entry that you'll still have to meet. Year 12 subjects need to be 20-credit Stage 2 Tertiary Admission Subjects (TAS). Students also need to achieve a minimum ATAR of 50.

LIKE MINDS?

Pursue an unstoppable career that helps empower individuals and creates more socially engaged communities. Explore the connections between the brain and behaviour, the meaning behind human interactions and the broader social sciences. Help to drive better social outcomes and an understanding of mental health across different pockets of society, and deep dive into social policy, research and education to help improve existing systems and contemporary practice. Learn in purpose-built facilities on campus, including our social work and human services studio, Cognitive & Systems Neuroscience Research Hub and the Behaviour-Brain-Body Research Centre – home to the Cognitive Ageing and Impairment Neurosciences Laboratory, and the Sleep and Chronobiology Laboratory.

⊘ unisa.edu.au/study

Dr Zach Cross, UniSA Social Work Graduate / Social Worker, Cognitive & Systems Neuroscience Research Hub.

#1 IN SA FOR STUDENT SATISFACTION IN PSYCHOLOGY AND SOCIAL WORK
ComparED (QILT) Course Experience Questionnaire 2019-20 – Overall Satisfaction Indicator (Undergraduate). Public SA-founded universities only.

Jody Tang, UniSA Psychology Graduate / Research Fellow, Department for Child Protection.

STUDY SOMETHING UNIQUE

Did you know that we offer South Australia's only psychology degree in cognitive neuroscience, which explores the neural connections in the brain and the way we process and interpret information? We also offer unique degrees that specialise in areas like ageing and disability or counselling and interpersonal skills. Learning alongside experienced practitioners and teaching staff, you'll develop the knowledge and skills to help people thrive, solve complex problems and support the overall wellbeing of individuals, families, carers and communities.

GO BEYOND THE CLASSROOM

When you study a degree in psychology, social work or human services at UniSA, your studies will go beyond the classroom. You'll have opportunities to immediately apply your learnings to real-world environments while building your professional networks and connecting with industry. Complete fieldwork or a placement, or collaborate with industry on cutting-edge research projects. Postgraduate students can also gain practical experience in our on-campus Psychology Clinic, where you'll treat real patients under the supervision of qualified clinical psychologists and develop skills in a range of therapeutic practices.

DOUBLE YOUR KNOWLEDGE

Enhance your learning and career opportunities by studying a double degree. Combine your psychology qualification with a second discipline in areas like law, human resource management, exercise and sport science or human services. Examine human behaviour and its application in different environments, broadening your knowledge and expertise.

People-focused degrees are all about experience and connection, so you'll complete fieldwork, placements and research projects during your studies.

Our Psychology Clinic offers postgraduate students real experience in treating members of the community.

#1 IN SA FOR GRADUATE SKILLS IN PSYCHOLOGY AND SOCIAL WORK
ComparED (QILT) Course Experience Questionnaire 2019-20 – Generic Skills Indicator (Undergraduate). Public SA-founded universities only.

WHAT'S INDUSTRY SAYING?

"The practical application of your study is an amazing way to gain the kind of skills that benefit the whole service ecosystem; a fantastic way to learn while you contribute."

Lydia Crawford-Pope | Designer & University Relations, Research and Innovation | Uniting Communities

#1 IN SA FOR GRADUATE EMPLOYABILITY
2021 QILT Employer Satisfaction Survey – Graduate Employability Skills Indicator.

STAND FOR SOCIAL CHANGE

We offer industry-recognised social science degrees in both ageing and disability or human services. Develop the skills to support individuals, families and carers involved with the elderly and people living with disabilities, or those who have experienced personal or social difficulties.

Learn to navigate the Australian National Disability Insurance Scheme (NDIS), explore ethical practice and discover how to enhance services within the sector; or delve into the world of human services and understand how behaviour is affected by cultural, environmental, psychological and political factors — and what you can do to have a meaningful impact.

Graduate with more than 500 hours of placement experience and be part of the next generation of social change.

ENGAGE IN GROUNDBREAKING RESEARCH

During your studies, you can get involved with fascinating research projects conducted at the Behaviour-Brain-Body Research Centre located on campus. This research group combines expertise in sleep, nutrition and physical activity. They explore a diverse range of topics such as the effects of sleep on human performance, cognitive decline and links to dementia, as well as fatigue management and reducing risks with shift workers.

⊘ *unisa.edu.au/BBBR*

CONNECT WITH REAL PEOPLE

UniSA runs a Psychology Clinic that provides affordable services to the community. Based at Magill Campus, postgraduate clinical psychology students learn to provide high quality therapeutic services to real patients under the guidance of fully qualified and practising clinical psychologists.

You can gain valuable experience in helping people to overcome difficulties by building the tools they need to thrive, and explore critical areas of mental health like anxiety, depression, eating disorders, PTSD, insomnia and behavioural issues in children.

⊘ *unisa.edu.au/communityclinics*

DISCOVER OUR ABORIGINAL EMPLOYMENT PATHWAYS

Aboriginal and Torres Strait Islander students who are studying a degree in psychology, social work or human services are able to engage in paid work during their studies through a unique partnership with SYC — a not-for-profit organisation that invests in the community by helping people with housing, education and employment. Students can apply their learnings and gain valuable experience with the possibility of continuing employment after graduation.

NEW WINDOW TO THE SOUL

It's often said that the eyes are the window to the soul, revealing our thoughts and feelings. Now, new research reveals that your eyes may also be an indicator of your personality type, simply by the way they move.

A study by UniSA researchers, in collaboration with international partners, is using state-of-the-art machine-learning algorithms to demonstrate a link between personality and eye movements, with findings showing that eye movement can tell whether people are sociable, conscientious or curious.

The study delivers important insights for social robotics, and its findings could help to improve interaction between humans and machines, making robots and computers more natural and better at interpreting human social signals.

With automation in customer service industries on the rise, these findings could lead to improved personalised services and more authentic interactions with machines.

MEET YOUR TEACHER

"My job is to ensure that students are ready to support diverse people living with disability or experiencing ageing. It's important to develop the right skills to help build family leadership, valued social roles, person centred services and social inclusion, so that individuals, families and communities can live more enriching lives."

Caroline Ellison | Program Director: Social Science (Ageing and Disability)

#1 IN SA FOR TEACHING QUALITY

ComparED (QILT) Student Experience Survey 2019-20 (Undergraduate and Postgraduate). Public SA-founded universities only.

# YOUR CAMPUS

YOUR HOME CAMPUS IS MAGILL

ON-CAMPUS PARKING AVAILABLE FOR LESS THAN $2 A DAY

VIRTUAL CAMPUS

We're one of Australia's largest online education providers, giving our students more choice when it comes to flexible learning. You can study fully online or through a blended mode. Our virtual campus is supported by custom online learning platforms using the latest industry software.

UniSA Student Portal ▶
UniSA Online Learning Platform ▼

TAKE A VIRTUAL CAMPUS TOUR
⊕ *unisa.edu.au/virtualcampustours*

SOCIAL WORK AND HUMAN SERVICES STUDIO / Designed to simulate a professional environment, the studio is used to practise real life counselling scenarios and is equipped with the latest video recording equipment and one-way mirrors so students can observe and provide peer feedback.

COGNITIVE & SYSTEMS NEUROSCIENCE RESEARCH HUB / A cutting-edge research and learning hub focused on exploring the human brain and behaviour to help improve cognitive health and human performance across the lifespan.

#1 IN SA FOR CAMPUS FACILITIES
ComparED (QILT) Student Experience Survey 2019-20 — Learning Resources Indicator (Undergraduate and Postgraduate). Public SA-founded universities only.

BE UNSTOPPABLE

with Australia's University of Enterprise

PRACTICAL LEARNING

We offer more than 200 world-class degrees across a wide range of study and career areas. You'll learn in a highly practical environment with a focus on real-world applications. You can also take the opportunity to complete an internship or placement during your studies, learning from experts and building work-ready skills.

TOP RANKING TEACHERS

Make your study experience relevant by learning from highly qualified academics and industry professionals with curriculum informed by the latest insights and trends. In fact, we're ranked number one in South Australia (QILT: Student Experience Survey) and amongst the best young universities in Australia (THE Young University Rankings) for teaching quality.

WORLD-CLASS FACILITIES

Study in modern, purpose-built facilities across all six UniSA campuses. Learn with the latest industry-standard tools and technologies that will take you from the classroom to the workplace. This includes state-of-the-art laboratories, community clinics, creative studios, collaborative learning areas and simulation spaces.

POWERFUL PARTNERSHIPS

We collaborate with more than 2,500 companies worldwide to bring our students placement, project, research and work opportunities. Connect with industry during your studies and build your professional networks before you graduate.

GLOBAL OPPORTUNITIES

Become a UniSA Global Citizen through a range of overseas opportunities and virtual international experiences. You can travel and complete a student exchange, short-term program, internship, volunteering opportunity or study tour. Or, you can develop your cultural intelligence through interactive online learning, including virtual project work.

International travel is subject to Australian Government guidelines.

REAL RESEARCH

Our research is inspired by challenges. We produce new knowledge that provides real solutions for industry, businesses and the wider community. You'll even explore new concepts and findings in your chosen degree, influenced by our world-class research outcomes.

UniSA *ACCELERATE*

You can kickstart your UniSA business degree early through the UniSA *ACCELERATE* program. Study up to two courses through UniSA Online while you're in Year 12 and guarantee your place into one of our many business degrees with study credit. You can also choose to count this study towards your SACE Stage 2.

⊘ *unisa.edu.au/accelerate*

LEARN A LANGUAGE

Develop the skills you need to work internationally by studying a second language. Learn French, Italian, Japanese or English (for speakers of English as a second language) through a Diploma in Languages. Access the Multimedia Languages Lab at Magill Campus and connect with native speakers from around the world in real-time. Graduate with an additional qualification by studying the diploma alongside your undergraduate degree.

⊘ *unisa.edu.au/languages*

GET CAREER READY

As a UniSA student, you'll have full access to the Career Services team. Their job is to get you career ready before you graduate. They lead a career development program, have active job boards, host workshops and produce online resources — like templates for creating awesome resumes. You can also connect with a career adviser, attend industry events or visit them on campus for on the spot advice.

YOUR PSYCHOLOGY CAREER STARTS HERE

Kickstart your career in psychology through our wide range of study options. You can become a registered clinical or research psychologist, or complete your studies sooner to explore other exciting career options across a variety of fields.
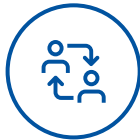

Bachelor of Psychology (Honours)

4 years

Bachelor of Psychology (Honours) (Cognitive Neuroscience)

4 years

Bachelor of Psychology *(on-campus or 100% online)* **or**

Bachelor of Psychology (Cognitive Neuroscience) or

Bachelor of Psychology (Counselling and Interpersonal Skills)

3 years

+

Complete a double degree pairing psychology with areas like law, human resource management, exercise and sport science, or human services.

4-5 years

+

Bachelor of Psychology (Honours)

1 year

Study UniSA's one-year honours program — this is competitive and minimum Grade Point Average (GPA) requirements apply.

You can also apply to transfer into the full four-year honours degree if you have achieved a minimum GPA of 6 and have completed between 4 courses and 2.5 years of a UniSA bachelor degree.

Master of Psychology (Clinical)

2 years

Graduate as a clinical psychology registrar and become a full member of the Australian Psychological Society.

OR

Doctor of Philosophy (PhD)

4 years

Graduate as a research psychologist and become a member of the Australian Psychological Society.

Learn more about accreditation and other registration options at psychology.org.au

There are lots of non-clinical or research-based careers in the areas of psychology, social work and human services.

Psychology

Behavioural ecologist · change management consultant · training and development coach · case manager · youth worker · disability support worker

Cognitive Neuroscience

Cognitive neuroscientist · behavioural scientist · clinical laboratory manager · data analyst · assistant neuropsychologist

Counselling and Interpersonal Skills

Student support worker · community development officer · drug and alcohol case worker · counsellor (with further study)

Social Work

Social worker · social planning officer · aged care worker · cultural diversity officer

Business

Business consultant · marketing coordinator · management consultant · organisational change consultant · human resources manager

Your tertiary learning and career starts with undergraduate study.

⊙ Part-time study available   ⊙ honours available

Develop in-depth knowledge about human behaviour, social services and human resources. Graduate with a theoretical understanding of psychology, along with building critical thinking and analytical skills, and the ability to manage data and produce ethical research. Choose from a range of specialist courses that focus on areas like patient assessment, sleep, sport psychology and organisational behaviour to tailor your studies. Gain industry experience through a professional placement totalling 150 hours. Attend classes on campus with the option to study some courses online. Graduate with a degree accredited by the Australian Psychology Accreditation Council (APAC). Complete further study to become a registered psychologist or research psychologist.

Note 1: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS), obtain a SAPOL National Police Record Check and complete a one-day Safe Environments for Children and Young People course. To be eligible for placement, providers may also require students to be screened and provide evidence of their vaccination status, hold a driver's licence, and/or meet additional requirements.

Note 2: To become a registered psychologist or research psychologist, further study is required. See page 12 for more information.

Study a four-year degree in psychology with honours and prepare for postgraduate studies to become a registered psychologist or research psychologist. Develop an advanced understanding of critical psychology theory and prepare for a career as a registered psychologist that can work across a diverse range of settings. Study specialist courses covering areas such as developmental psychology; cognitive psychology; health psychology; work and organisational psychology; language, context and social behaviour; counselling; conservation psychology (the relationship between humans and nature); psychophysiology of sleep; and psychological research. Learn in state-of-the-art facilities located on campus, including the Cognitive & Systems Neuroscience Research Hub, as well as a live-in Sleep and Chronobiology Laboratory. Complete a major research project in your final year focusing on a specific area of interest. You can also take the opportunity to study part of your degree overseas through a student exchange. Attend classes on campus with the option to study some courses online. Graduate with a degree accredited by the Australian Psychology Accreditation Council (APAC) and be eligible for membership with the Australian Psychological Society.

Note: To become a registered psychologist or research psychologist, further study is required. See page 12 for more information.

Study the only undergraduate double degree in South Australia that combines courses in psychology, counselling, interpersonal skills and human resource management. Explore core psychology courses, including developmental psychology, cognitive psychology, counselling skills and organisational psychology, along with business fundamentals such as economics, accounting, business law and employment relations. Develop the knowledge and skills needed to effectively support and counsel staff, lead recruitment and selection, build staff rewards and effective remuneration, explore human resource analytics and create employment strategies. Benefit from curriculum informed by world-class research, which focuses on current and future workplace challenges. Gain practical skills through an industry placement in your final year. Attend classes on campus with the option to study some courses online. Graduate with a degree accredited by the Australian Psychology Accreditation Council (APAC) and the Australian Human Resources Institute (AHRI).

Note 1: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS), obtain a SAPOL National Police Record Check and complete a one-day Safe Environments for Children and Young People course. To be eligible for placement, providers may also require students to be screened and provide evidence of their vaccination status, hold a driver's licence, and/or meet additional requirements.

Note 2: To become a registered psychologist or research psychologist, further study is required. See page 12 for more information.

Study the only double degree of its kind in South Australia and develop your expertise in the areas of exercise and sport science, psychology, counselling and behavioural research. Study core courses in human anatomy, exercise physiology and counselling skills, and explore the relationship between psychology and physical activity. Develop the skills to enhance the physical and mental wellbeing of individuals, including children, elite athletes and older people. Learn in purpose-built exercise physiology laboratories, along with our on-campus High Performance Sport Centre, Environmental Chamber and Biomechanics Laboratory. Embark on more than 140 hours of industry placements across a range of settings, including schools and sporting clubs. Attend classes on campus with the option to study some courses online. Graduate with a degree accredited by Exercise and Sport Science Australia (ESSA) and be eligible for registration as an accredited exercise scientist. This degree is also accredited by the Australian Psychology Accreditation Council (APAC).

Note 1: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS), obtain a SAPOL National Police Record Check and complete a one-day Safe Environments for Children and Young People course. Graduate with a top-ranking law double degree with professional honours and the option to complete your Graduate Diploma in Legal Practice (GDLP) in just five years of study, fast-tracking your career as a barrister or solicitor. Study core courses and concepts that underpin the Australian legal system across areas such as torts, contracts, criminal law and constitutional law. You'll also develop in-depth knowledge about human behaviour, social services and human resources by exploring key concepts in psychology. Choose from a range of specialist psychology courses to tailor your degree, including Psychological Assessment, Cognitive Neuroscience, Health Psychology, and Work and Organisational Psychology. Experience practical learning in a moot court and engage with our student-run Legal Advice Clinic, working with clients under the supervision of a managing solicitor. In final year, you'll complete your GDLP or a high-level research project. You can also undertake an industry placement and there's opportunities to go on an overseas study experience. Attend classes on campus with the option to study some courses online. Graduate with a qualification accredited by the Australian Psychology Accreditation Council (APAC).

Note 1: This double degree covers the academic requirements for admission to practise (the Uniform Admissions Rules) as specified by the National Law Admissions Consultative Committee. The Graduate Diploma in Legal Practice (GDLP) is a compulsory requirement to practise law in South Australia.

Note 2: The Bachelor of Psychology is accredited by the Australian Psychology Accreditation Council (APAC). To become a registered psychologist or research psychologist, further study is required. See page 12 for more information.

Note 3: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS), obtain a SAPOL National Police Record Check, and complete a one-day Safe Environments for Children and Young People course. To be eligible for placement, providers may also require students to be screened and provide evidence of their vaccination status, hold a driver's licence, and/or meet additional requirements.

ADMISSIONS INFORMATION

If you're interested in one of our popular law double degrees, there's a few ways you can apply. The first option is to apply directly using the SATAC code listed above. You can also give yourself a back-up option by listing the Bachelor of Psychology as your second preference. If you're offered a place in the psychology degree, you'll be eligible to transfer into the double degree if you successfully complete at least four courses (subjects) with the required Grade Point Average (GPA).

⊙ *Part-time study available*

STUDY ON DEMAND

Study a 100% online degree in psychological science and sociology, designed specifically for flexible learning. Study the only degree in Australia that combines two powerful perspectives on how we live as social beings. Examine the connections between human behaviour, social structures and social policy; and discover how these relationships shape individuals, families, communities and organisations. Choose to focus your studies on ageing and disability and/or criminology. Graduate with the skills needed to work as a human services professional in both the government and community sectors. Be prepared for opportunities created by the rollout of the National Disability Insurance Scheme (NDIS). Access online support services seven days a week, view learning resources 24/7 and log in to the interactive online environment anywhere, any time, and on any device. Benefit from flexible study with no need to attend lectures or visit campus — all courses and assessments are delivered online. Scholarships and grants are also available for eligible students.

CAREERS

Disability support coordinator · aged care coordinator · community development officer · crime prevention officer · drug and alcohol caseworker · policy development officer · policy analyst

Prepare for a rewarding career in social work. Learn to enhance the wellbeing of others through advocacy, social change, relationship building and empowerment. Focus on four major study areas, including social work theory, social work practice, social policy and social research. Develop knowledge of contemporary social work practices and their application in supporting individuals, families, communities, groups and organisations. Learn how to identify the social policies that impact people's lives and the strategic ways to implement change. Interpret, evaluate and conduct relevant social analysis exploring current real-world challenges. Focus your degree by choosing to incorporate a minor in Children, Families and Society. Access our custom-built social work and human services studio to practise your skills through stimulated scenarios. Gain valuable professional experience through industry placements in your final years of study. Attend classes on campus with the option to study some courses online. Graduate with a degree recognised by the Australian Association of Social Workers and be eligible for full membership.

Note: Students will be required to undertake Criminal History Checks through the Department of Human Services (DHS), a SAPOL National Police Record Check and complete a one-day Safe Environments for Children and Young People course prior to being accepted for work placements. To be eligible for placement, providers may also require students to be screened and provide evidence of their vaccination status, hold a driver's licence, and/or meet additional requirements.

"While studying, I secured a job supporting children with disabilities at an organisation that provides respite service and life skill development programs. Studying at UniSA has given me a strong sense of purpose and reassurance that I am on the right career path."

Lauren Harrington | Social Work Student / Community Support Worker, Disability Living

Assumed knowledge: *none*

Continue your studies with a one-year honours program following your undergraduate degree, aimed at further developing your knowledge and research skills in a chosen subject area. You can explore Aboriginal studies, politics, linguistics and language studies and sociology. Prepare an in-depth honours thesis and be guided by an academic supervisor who is well-established in their field. Graduate with a competitive advantage and a qualification that will broaden your career opportunities or prepare you for postgraduate study.

CAREERS

Depending on your chosen area of focus, this qualification can lead to a variety of careers in the following settings:

Government · media · the arts · arts management · community and social services · policy development · research

Entry requirements

- *Entry is available to students who have successfully completed an undergraduate degree or an equivalent qualification with an overall Grade Point Average (GPA) of 5 or above in the topic area they wish to study at the honours level.*
- *Applicants from alternatively approved qualifications must have a record of academic achievement equal to a credit level average or above in the topic area they wish to study at the honours level.*
- *Applications are considered on the basis of academic merit and the availability of a supervisor in the proposed area of research.*

FURTHER STUDY

- Masters by Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE

FIRST YEAR	Honours Thesis 1
	Research Methodologies and Methods
	Honours Thesis 2
	Key Ideas and Theories

PACKAGE THIS DEGREE

Package the Bachelor of Arts with the Master of Teaching (Secondary) to become a humanities and social sciences teacher.

⊘ *Part-time study available*   ⊘ *honours available*

Develop your understanding of critical disability studies, ableism and ageism, as well as the capacities available to support individuals living with disability and their support networks. Explore the underlying principles of social and emotional development and wellbeing, community engagement and promoting independence. You'll also explore the ethical practices at the individual, community and policy level of ageing and disability services. Learn to navigate major systems such as the Australian National Disability Insurance Scheme (NDIS) and My Aged Care policies, inform social policy development, enhance service provisions, and promote social inclusion within the ageing and disability sectors. Gain valuable work experience and build professional networks by completing more than 500 hours of supervised field placements throughout your degree. Attend classes on campus with the option to study some courses online. Graduate with a degree recognised by the Australian Community Workers Association and be eligible for full membership.

Note: Students will be required to undertake Criminal History Checks through the Department of Human Services (DHS), a SAPOL National Police Record Check and complete a one-day Safe Environments for Children and Young People course prior to being accepted for work placements. Some placements may also require students to hold a current driver's licence and/or additional requirements as requested by the placement provider.

CAREERS

Disability services coordinator · aged care coordinator · case manager · support worker · community services coordinator · community development officer · policy adviser · disability services advocate · home care coordinator

Prepare for a professional career in human services and learn how to identify the social policies that impact people's lives and the strategic ways to implement change. Develop the skills to enhance the wellbeing of people who have experienced personal or social difficulties, across areas like child protection, community housing, welfare, community services, disability support and aged care. You'll focus on studies in behavioural and social sciences, contemporary human service practice, human service management and social policy development. You'll also learn how behaviour is affected by different cultural, environmental, psychological and political factors, along with the communication and ethical skills needed to work in the field. Gain practical experience through our social work and human services studio on campus and complete more than 500 hours of supervised placements during your studies. Attend classes on campus with the option to study some courses online. Graduate with a degree recognised by the Australian Community Workers Association and be eligible for full membership.

Note: Students will be required to undertake Criminal History Checks through the Department of Human Services (DHS), a SAPOL National Police Record Check and complete a one-day Safe Environments for Children and Young People course prior to being accepted for work placements. Some placements may also require students to hold a current driver's licence and/or additional requirements as requested by the placement provider.

Study a double degree that explores psychology and the social sciences.. Develop a strong understanding of how psychology relates to the human services sector, which includes areas like family support, child protection, community housing, welfare, community services, disability support and aged care. You'll explore topics like psychology theory, behavioural sciences, social policy, social research, data analysis and project management. You can also tailor your degree through specialist psychology courses focusing on language and social behaviour, patient assessment and sleep. Gain practical experience through our social work and human services studio on campus, and complete supervised industry placements during your studies. Attend classes on campus with the option to study some courses online. Graduate with a degree accredited by the Australian Psychology Accreditation Council (APAC) and recognised by the Australian Community Workers Association, and be eligible for full membership.

Note 1: Students will be required to undertake Criminal History Checks through the Department of Human Services (DHS), a SAPOL National Police Record Check and complete a one-day Safe Environments for Children and Young People course prior to being accepted for work placements. Some placements may also require students to hold a current driver's licence and/or additional requirements as requested by the placement provider.

Note 2: To become a registered psychologist or research psychologist, further study is required. See page 12 for more information.

CONTENTS

Master of Psychology (Clinical)

unisa.edu.au/psychology

⊚	Magill Campus	🗓	Intakes: Jan
▭	On-campus	👤	Placement/research project
⏱	2 years full-time	💲	Commonwealth supported*

SATAC code	4CM231	Program code	MMCL

⊘ *Part-time study available* *see page 36 for more on fees*

Develop the knowledge and skills required to become a registered clinical psychologist. Benefit from a curriculum designed in collaboration with industry practitioners. Graduate with a strong understanding of the latest developments in clinical psychology practice and the ability to critically reflect on psychological theory and its practical applications. Study advanced coursework covering topics such as adult psychopathology, child and adolescent psychological assessment, specialised interventions, and behavioural medicine. Elevate your research skills through a major project in your final year. Build your practical skills through clinical studies, professional clinical placements, as well as training under the supervision of registered psychologists in our on-campus Psychology Clinic. Attend classes on campus with the option to study some courses online. Graduate with a qualification accredited by the Australian Psychology Accreditation Council (APAC) and be eligible for membership with the Australian Psychological Society and the College of Clinical Psychologists. You will also be eligible for full registration with the Psychological Board of Australia.

Note: All students studying this degree will be required to complete criminal history screening through the Department of Human Services prior to being accepted for work placements. The clearance is valid for three years and can take up to eight weeks to be processed.

In addition to this, a National Police check is also required. A combination of histories will be required as part of this check, and is only current at the time of issue.

You must also have completed a Safe Environments training for Children and Young People course. To be eligible for placement, providers may also require students to be screened and provide evidence of their vaccination status, hold a driver's licence, and/or meet additional requirements.

CAREERS

Clinical psychologist · registered psychologist · research psychologist · clinical researcher · youth worker · behavioural ecologist · human resources manager · marketing manager · life coach

Entry requirements

- *A four-year qualification in psychology, typically an honours degree, accredited by the Australian Psychology Accreditation Council, within the last ten years, with Honours 2A or equivalent overall mark.*
- *Relevant prior professional experience and acquired skills will also be considered in the selection process through written application, references and an interview.*
- *Applicants are also required to be minimally registered as a Provisional Psychologist, prior to entry into the program.*

"Further study allowed me to work in an allied health team within government. It helped to diversify my career options and I'm so glad I did it. My role is focused on working with young offenders and their families to try and reduce repeat behaviour, and includes making home visits, attending and writing court reports. I enjoy helping young people to make better choices, which can have significant long-term outcomes."

Steven Goss | Social Work Graduate / Case Manager – Youth Justice (Social Work), Department of Human Services

The Unstoppables

ANIMAL WHISPERER

For many of us, there is nothing better than cuddles and chats with our animal friends. Pets bring joy and are foundational to many people's mental health.

That's why UniSA grad and lecturer, Dr Janette Young, has spent more than 10 years investigating the benefits of animals during times of loss, trauma and change. This *UNSTOPPABLE* force is now applying her knowledge to aged care, where pets can continue to give purpose and connection for residents. Core to her work is the recognition that both human and animal rights need to be considered to best support positive outcomes.

Dr Janette Young
Lecturer in Health Sciences
(Health Promotion & Health Services)
Bachelor of Social Work
Doctorate by Research, Health Sciences

Hear more from our unstoppable people

Master of Aboriginal Studies

Nested with:
· Graduate Certificate in Aboriginal Studies
· Graduate Diploma in Aboriginal Studies

Part-time study available   **see page 36 for more on fees*

Study the only postgraduate program of its kind in South Australia. Explore Aboriginal issues and world views relating to Aboriginal health, law, history, education, environment, policy and research. Complete a selection of core courses and electives, as well as a major research project or minor thesis in an area that interests you most. Attend guest lectures and engage with highly respected Aboriginal academics and professionals who are leaders in their field. Benefit from flexible learning options, with the program delivered completely online and the choice of part-time and intensive study.

CAREERS

This program can lead to a variety of project, advisory, management and leadership roles in the following settings:

Government · education · media and communications · law · social work · social policy · community services · private sector · corporate · research

Entry requirements
· *Bachelor degree in any discipline or equivalent qualification from a recognised higher education institution.*
· *Some applicants may be eligible for Advanced Standing and can complete the program in 1.0 or 1.5 years full-time study or equivalent part-time study.*

FURTHER STUDY

· Masters by Research
· Doctor of Philosophy (PhD)

DEGREE STRUCTURE

FIRST YEAR	Cultural Competency: Challenging Racism in Australian and Indigenous Contexts
	Law and Land
	Aboriginal Health and Wellbeing
	Australian Indigenous Languages, Identity and Belonging
	Aboriginal Futures
	The Politics of Representation
	Indigenous Perspectives on Globalisation
	Aboriginal Studies Master Class
SECOND YEAR	Aboriginal Research Methods and Ethics
	Pitjantjatjara Culture and Language
	Elective
	Research Thesis 1
	Research Thesis 2

Core courses are delivered online. There may be some on-campus study required depending on course selection.

Masters by Research
Doctor of Philosophy (PhD)

unisa.edu.au/researchdegrees

Our research degrees are designed to make a difference. You'll be at the forefront of solving real-world problems, by studying a project-based research degree where you'll partner with end-users to develop solutions for the challenges of today and tomorrow.

Enter a dynamic and stimulating research environment focused on human psychology, social work, Aboriginal studies and the social sciences. Explore contemporary social issues and outcomes and work on groundbreaking research to help inform industry and support the wellbeing of communities. Conduct meaningful research in our Cognitive & Systems Neuroscience Research Hub and Behaviour-Brain-Body Research Centre – home to the Cognitive Ageing and Impairment Neurosciences Laboratory, and Sleep and Chronobiology Laboratory located on campus.

TOPICS OF RESEARCH

· Aboriginal Studies
· Psychology
· Social Work
· Social Sciences

Entry requirements
A research degree is suitable for someone who has completed a previous degree, normally with a research component. At UniSA, all research degree applications are made to a specific project as listed on our research projects page. Most projects will have additional, project-specific selection criteria. It is also possible to develop your own research project by negotiation. Please contact the Graduate Research Admissions team if you have any questions.
research.degrees@unisa.edu.au

Masters by Research
· *Bachelor degree (or equivalent) of at least three years in a relevant discipline with a minimum credit average; or*
· *Honours degree or bachelor degree with honours; or*
· *An appropriate master's degree (or equivalent).*

Doctor of Philosophy (PhD)
· *Honours degree or bachelor degree with honours of at least class 2a standard in an appropriate discipline; or*
· *An appropriate master's degree (or equivalent).*

Alternative entry
· *Other applicants may be considered for admission if their previous education, professional experience and published research work is of sufficient quality and relevance to prepare the applicant for a research degree.*

EXPLORE OUR RESEARCH PROJECTS

Apply for a research degree and choose from one of our many research projects, or design your own. Scholarships and fee-waivers are available. Conditions apply.

YOUR STUDENT EXPERIENCE

Orientation is the start of your journey at university. Explore your campus, meet new people, connect with teaching staff, get study advice and enjoy different activities.

Campus Central teams are there to help you with everything from ID cards, to enrolment, fees, student services and any questions you have about your studies.

Support services are available to you throughout your time at university, including study support, personal counselling and peer mentoring, along with access to a range of community clinics located on campus.

USASA is your student association and voice at university. They also organise social activities, coordinate 100+ student clubs and publish our award-winning student magazine.

Career Services will help you prepare for your future career. Connect with one of our expert career advisers, access the online Career Hub for the latest resources and job listings, and attend networking and industry events.

UniSA+ is a unique program that will help you get career ready by developing your practical skills in leadership, entrepreneurship, cultural understanding and self-awareness.

Student lounges feature open social spaces, study nooks, kitchen facilities, mobile charging stations, lockers, gaming stations and more.

UniSA Sport has 25+ sporting clubs, including rowing, netball, gridiron, rock climbing and even esports!

24-hour security services are available on campus and the free SafeZone app is available for download through the App Store or Google Play.

Accommodation services are available to help you set up a home away from home.

Keep active
Join one of our teams through UniSA Sport and make new friends along the way.

Get involved
Attend events and activations on campus and experience our vibrant student culture.

Stay connected
Access our range of student support services so that you can be your best.

Discover our heart
Pridham Hall features a graduation space, sports centre, gym and swimming pool located at City West Campus.

STUDY AT UniSA — THE BASICS

APPLYING WITH YEAR 12 RESULTS

Applicants are required to have successfully completed the South Australian Certificate of Education (SACE) with:

- A competitive Selection Rank (ATAR + Adjustment Factors);
- Fulfilment of the degree's prerequisite requirements (where applicable).

Applicants may also be eligible to compete for entry if they have completed the degree's prerequisite requirements and one of the following:

- An interstate or overseas qualification considered by the University as equivalent to SACE; or
- The International Baccalaureate Diploma with a minimum score of 24 points.

⊘ unisa.edu.au/Year-12

ADJUSTMENT FACTORS

Australian high school students applying for university study may be eligible for Adjustment Factors (previously known as bonus points). These are based on set equity factors and/or subject choices (see below). SATAC will combine them with your ATAR to improve your Selection Rank for entry.

- The Universities Equity Scheme — provides additional points for students coming from specified schools, as well as individuals experiencing socio-economic disadvantage.
- The Universities Language, Literacy and Mathematics Adjustment Scheme — provides additional points for students who successfully complete a language other than English, or specified English and Mathematics subjects.

⊘ unisa.edu.au/adjustmentfactors

GUARANTEED ENTRY

There are a few ways to guarantee your place at UniSA:

Year 12 Grades Guaranteed Entry — UniSA offers guaranteed entry based on your three best Year 12 subject grades for most degrees. If you achieve the selection grades and you put us as your first preference, that's it, you're automatically in.

Subjects need to be 20-credit Stage 2 Tertiary Admission Subjects (TAS). Students also need to achieve a minimum ATAR of 50.

Selection Rank Guaranteed Entry — UniSA has set guaranteed entry scores for most of our degrees. This means, that if you achieve that set Selection Rank and you put us as your first preference, you're in. There's nothing more you have to do.

Some degrees also have prerequisites and other eligibility criteria for entry that you'll still have to meet. Application timelines and fees also apply.

TAFE/VET Guaranteed Entry — UniSA offers guaranteed entry based on successfully completed VET qualifications. If your completed VET award meets the set VET Guaranteed Entry, you have met any prerequisites and specific entry requirements, and you've listed the degree as your first preference, you're guaranteed an offer.

ALTERNATIVE PATHWAYS

Entering your chosen degree straight from high school is not the only pathway into UniSA. Applicants may also meet the minimum requirements to apply for entry (via competitive selection) through one of the following:

UniSA College — there are a variety of pathway options offered through UniSA College, including diplomas, Foundation Studies and the Aboriginal Pathway Program.

STAT — a competitive Special Tertiary Admissions Test (STAT) score, based on 70 multiple choice questions designed to assess your aptitude for tertiary study. A personal competencies statement or relevant employment experience alongside your STAT score may also be considered for some degrees.

TAFE/VET — applicants may be eligible for entry with the completion of an award from TAFE or another Registered Training Organisation at AQF Certificate IV or higher.

Tertiary transfer — completion of at least half a year of full-time equivalent study at a recognised higher education institution. You can apply using your competitive Grade Point Average (GPA).

SAIBT — There are a range of bridging qualifications offered through the South Australian Institute of Business & Technology.

FEES

All domestic undergraduate students at UniSA are in Commonwealth-supported places. Students in these places pay a contribution of their fees depending on the program chosen and the contribution band in which those courses are classified (see table below). The amount of your student contribution also depends on the unit value of your courses of study.

As per the Australian Government guidelines, the student contribution amounts for 2022 are:

Band	Field of Education	Student contribution *For one year of full-time load (1 EFTSL)*	Student contribution *For each subject (0.125 EFTSL)*
1	Agriculture, english, mathematics, teaching, clinical psychology^, languages and nursing.	$3,985	$498
2 (2&2A)	Architecture, IT, other health, allied health, creative arts, engineering, science, environmental studies, professional pathway psychology^, professional pathway social work^ and clinical psychology^.	$8,021	$1,002
3	Dentistry, medicine and veterinary science.	$11,401	$1,425
4 (4A,4C,4P, 4S&4Y)	Law, accounting, administration, economics, commerce, communications, society and culture, professional pathway psychology^, professional pathway social work^ and clinical psychology^.	$14,630	$1,828

Some postgraduate programs are also Commonwealth-supported (or CSP), while others are full fee-paying; this is listed on applicable programs in this guide. For programs under 10 year full-time study, fees are listed as the whole program fee (indicative of 2022). For programs over 10 years full-time study, fees are listed based on the cost per annum (indicative of 2022). For more information on fees, including eligibility for Commonwealth-supported places, deferring your student contribution through HECS-HELP or FEE-HELP loans, please visit unisa.edu.au/fees

This table should be used as a guide only. Total costs can vary depending on the courses you study and the band they fall into.

^ Band determined by program/plan.
