Changi Sports Medicine Centre (Singapore).

YOUR FUTURE, GUARANTEED

We're here to back you. That's why we have a few ways to guarantee your place at UniSA.

Make us your first preference

+

Achieve the required Year 12 subject grades

or

Achieve the guaranteed Selection Rank

or

Achieve the guaranteed TAFE/VET qualification

That's it. You're automatically in.

See what you might be eligible for with UniSA's Guaranteed Entry Calculators.

#1 IN SA FOR
GRADUATE CAREERS

ComparED (QILT) Graduate Outcomes Survey 2020-22 – Full-time Employment Indicator (Domestic Undergraduate). SA public universities.

Some degrees also have prerequisites and other eligibility criteria for entry that you'll still have to meet. Year 12 subjects need to be 20-credit Stage 2 Tertiary Admission Subjects (TAS). Students also need to achieve a minimum ATAR of 50.

Li Qin Fam, UniSA Nutrition and Food Science Graduate /
Quality Control Officer, Highway Enterprises.

REACH YOUR PEAK PERFORMANCE

Play an important role in shaping the wellbeing of communities as a dynamic health professional. Join an unstoppable workforce focused on improving health, driving human performance and delivering patient-centred care. Benefit from interactive learning, highly experienced clinicians and teaching staff, and the latest research and practices. Get hands-on experience by completing industry-relevant projects and practical placement opportunities. Access purpose-built facilities on campus, including a wide range of laboratories and clinics, as well as simulated hospital and health service environments.

🔗 unisa.edu.au/study

FIRST IN ALLIED HEALTH

UniSA was the first in allied health education in South Australia and has more than 50 years' experience in teaching and research in this field. Learn from industry-leading clinicians and award-winning teaching staff across our range of established degrees, including physiotherapy, podiatry, occupational therapy, speech pathology, medical radiation sciences, and more. Gain hands-on experience through our on-campus community clinics, as well as industry placements with more than 700 partners throughout Australia and around the world.

SA's FIRST IN ALLIED HEALTH EDUCATION

50+ years' experience in teaching and research

UniSA HEALTH STUDENTS COMPLETE 1 MILLION+ PLACEMENT HOURS EACH YEAR

GET THE COMPETITIVE EDGE

When you study a health degree at UniSA, you'll develop your skills and professional networks beyond the classroom. We partner with elite sporting teams and industry-leading organisations like the Queen Elizabeth Hospital, South Australian Cricket Association, South Australian Sports Institute, Australian Defence Force Adaptive Sports Program and Helping Hand Aged Care, to bring you practical experience through a range of scholarships and placements. We also facilitate the world-first Invictus Pathways Program, inspired by Prince Harry's Invictus Games. This unique training program provides placement and learning opportunities for students across different health disciplines to explore how the power of sport can help wounded, injured and sick service personnel.

UNIQUE DEGREES

We offer South Australia's only degrees in podiatry, pharmacy, pharmaceutical science and medical radiation science (medical imaging, radiation therapy and nuclear medicine). And, we've got the state's only fully accredited bachelor degrees in occupational therapy and clinical exercise physiology. You can also enrol in one of our unique double degrees to give yourself the ultimate advantage:

- Human Movement + Nutrition and Food Sciences
- Human Movement + Sport and Recreation Management
- Exercise and Sport Science + Nutrition and Food Sciences
- Exercise and Sport Science + Psychology (Counselling and Interpersonal Skills)
- Pharmaceutical Science + Pharmacy

Tristan Chai,
UniSA Physiotherapy Graduate / Head
Physiotherapist,
Adelaide 36ers.

ComparED (QILT) Graduate Outcomes Survey 2020-22, Health Services and Support – Median Salary Indicator (Domestic Postgraduate). SA public universities.

WHAT'S INDUSTRY SAYING?

Jo Boylan | CEO | Clayton Church Homes

"Our partnership with UniSA sees students gain valuable placement experience in aged care which leads to future career opportunities. UniSA graduates are passionate learners with great clinical and communication skills. We employ health professionals who think innovatively and demonstrate the ability to put theory into practice."

#1 IN SA FOR GRADUATE EMPLOYABILITY

QILT Employer Satisfaction Survey, 2020-22 – Employability Skills Indicator. SA public universities.

WORLD TOP 100 FOR NURSING

Charly Betzold, UniSA Nursing Graduate / Surgical Registered Nurse, Women's and Children's Hospital

WORLD TOP 100 FOR EXERCISE AND SPORT SCIENCE

2023 QS Subject Rankings, Sport-Related Subjects.

STUDY A TOP RANKING NURSING DEGREE

Study one of the world's top nursing degrees at UniSA. Take advantage of our practical approach to learning, including more than 1,000 placement hours in public and private hospitals, and community organisations across South Australia. We also have a unique, simulated hospital and health service environment located on campus, which includes authentic hospital wards, clinical units and community areas. You'll learn under the guidance of practising clinicians and academics and develop the confidence to work in real-world settings.

DID YOU KNOW?

The demand for registered nurses is predicted to grow by 13.9% (approx. 40,400 jobs) over the next five years.

Australian Government National Skills Commission, Employment Outlook – March 2022

MAKE NEW DISCOVERIES

Join the global fight against illness and disease as an aspiring medical laboratory scientist, medical researcher or pharmacist. Our internationally renowned researchers have forged strong collaborations and partnerships with industry, communities, government and research institutions worldwide. This means you'll learn from award-winning researchers at the forefront of their professions, in areas like drug discovery and development, cancer care and medication safety. Study in modern, purpose-built facilities, and gain hands-on experience as you prepare for a career in industry or life-changing research.

FLY HIGH

We've partnered with the Adelaide Football Club to provide our students with industry placements and opportunities to collaborate on research projects. You can apply your learnings in an elite sporting environment, working alongside AFL sport scientists and high performance coaches. There's also opportunities to engage in sports-related research, focusing on how to achieve optimal player performance and apply strategies for injury prevention.

Cintya Dharmayanti, UniSA Pharmaceutical Science and Biomedical Research Graduate, PhD Candidate.

CANCER TREATMENT GETS PERSONAL

UniSA graduate and PhD candidate, Cintya Dharmayanti, is changing the game on how we treat ovarian cancer by developing a new nanoparticle drug delivery system. The innovation aims to improve the delivery of traditional chemotherapy and give new hope to thousands of ovarian cancer patients worldwide. The personalised treatments use advanced drug carriers that are designed to kill cancer cells from the inside out.

While one patient may respond remarkably well to traditional chemotherapy, another patient who is the same age with the same diagnosis and disease progression may show little to no response at all. It's clear that we can't keep applying a 'one size fits all' treatment strategy.

Cintya's inspiring research is one of many innovations at UniSA that are seeking to transform the future of healthcare.

ROBOTICS TO THE RESCUE

Dr Sophie Lefmann is a lecturer at UniSA and is also working with the Women's and Children's Hospital to explore how robotic rehabilitation devices can help children with neurological impairments with walking and arm movement recovery.

Sophie's involvement in research, teaching and clinical practice has allowed her to see first-hand the difference an allied health professional can make in the lives of others, and she brings this experience and insight into the classroom.

MEET YOUR TEACHER

"The children find using the devices fun, and there are a lot of potential physical benefits, so the field is looking promising. The early years of development are a life-changing stage, so being able to help children maximise their potential, in even the smallest of ways, is a privilege."

Dr Sophie Lefmann | Lecturer in Physiotherapy

ABOVE WORLD-CLASS RESEARCH IN HEALTH AND MEDICAL SCIENCES

VIRTUAL CAMPUS

We're one of Australia's largest online education providers, giving our students more choice when it comes to flexible learning. You can study fully online or through a blended mode. Our virtual campus is supported by custom online learning platforms using the latest industry software.

TAKE A VIRTUAL CAMPUS TOUR

unisa.edu.au/virtualcampustours

Nursing and
Midwifery also
available in
Mount Gambier
and Whyalla

HORIZON HOSPITAL AND HEALTH SERVICE / The only one of its kind in South Australia, this is modelled on real-world facilities. Nursing and midwifery students gain vital experience in a clinician-led, simulated hospital environment by engaging with residents of a unique virtual city to develop their knowledge and skills.

Physiotherapy
and Occupational
Therapy also
available in
Whyalla

COMMUNITY CLINICS / Our health clinics located on campus provide students with practical, hands-on experience under the supervision of allied health professionals. Services are available to the public and include high performance and exercise physiology, physiotherapy, podiatry, occupational therapy, speech pathology and midwifery.

**#1 IN SA FOR
CAMPUS FACILITIES**

ComparED (QILT) Student Experience Survey 2020-21, Learning Resources Indicator (Undergraduate and Postgraduate). SA public universities.

ANATOMY LAB / This space is for all students who study anatomy subjects to gain knowledge about the relationships and function of various bones, tissues, organs, ligaments and tendons. Anatomy provides an understanding of how the body works in order to diagnose conditions and explore the right treatments.

HISTOPATHOLOGY AND HAEMATOLOGY LAB / Laboratory medicine students use this facility to study tissue and blood samples, expanding their skills in diagnostic pathology and research. They explore cross-matching for blood transfusions, screening for cancer cells, and to detect genes responsible for disease.

HIGH PERFORMANCE SPORT CENTRE / Exercise and sport science students use state-of-the-art testing and analysis equipment to develop safe exercise programs, which are designed for people with unique needs or to enhance sport performance.

BRADLEY BUILDING / Located at City West Campus, this impressive building is the leading destination for health research and teaching. Pharmacy and pharmaceutical science students learn in purpose-built facilities and laboratories to explore areas like medicine development.

VERT SUITE / Our Virtual Environment Radiation Therapy Training suite is one of only seven facilities of its kind in Australia. The 3D treatment room provides medical radiation therapy students with experience in treating virtual patients using equipment identical to what is used by practitioners in real-life practice.

BE UNSTOPPABLE

with Australia's University of Enterprise

PRACTICAL LEARNING

We offer more than 200 world-class degrees across a wide range of study and career areas. You'll learn in a highly practical environment with a focus on real-world applications. You can also take the opportunity to complete an internship or placement during your studies, learning from experts and building work-ready skills.

TOP RANKING TEACHERS

Make your study experience relevant by learning from highly qualified academics and industry professionals with curriculum informed by the latest insights and trends. Our teachers are also researchers who bring new and emerging findings into the classroom – so you'll have access to incredible knowledge, which will help inform your studies and professional practice.

CONNECTED WITH INDUSTRY

WORLD-CLASS FACILITIES

Study in modern, purpose-built facilities across all six UniSA campuses. Learn with the latest industry-standard tools and technologies that will take you from the classroom to the workplace. This includes state-of-the-art laboratories, community clinics, creative studios, collaborative learning areas and simulation spaces.

POWERFUL PARTNERSHIPS

We collaborate with more than 2,500 companies worldwide to bring our students placement, project, research and work opportunities. Connect with industry during your studies and build your professional networks before you graduate.

GLOBAL OPPORTUNITIES

Become a UniSA Global Citizen through a range of overseas opportunities and virtual experiences. You can travel and complete a student exchange, short-term program, internship, volunteering opportunity or study tour. Or, you can develop your cultural intelligence through interactive online learning, including virtual project work.

REAL RESEARCH

Our research is inspired by challenges. We produce new knowledge that provides real solutions for industry, businesses and the wider community. You'll even explore new concepts and findings in your chosen degree, influenced by our world-class research outcomes.

UniSA ACCELERATE

You can kickstart your UniSA business degree early through the UniSA **ACCELERATE** program. Study up to two courses through UniSA Online while you're in Year 12 and guarantee your place into one of our many business degrees with study credit. You can also choose to count this study towards your SACE Stage 2.

unisa.edu.au/accelerate

LEARN A LANGUAGE

Develop the skills you need to work internationally by studying French, Italian, Japanese or English through a Diploma in Languages. Access the Multimedia Languages Lab at Magill Campus and connect with native speakers from around the world in real-time. Graduate with an additional qualification by studying the diploma alongside your undergraduate degree. Entry criteria apply.

unisa.edu.au/languages

GET CAREER READY

As a UniSA student, you'll have full access to the Career Services team. Their job is to get you career ready before you graduate. They lead a career development program, have active job boards, host workshops and produce online resources – like templates for creating awesome resumes. You can also connect with a career adviser, attend industry events or visit them on campus for on the spot advice.

SUPPORT SERVICES

UniSA Online provides personalised support services over extended hours – including on weekends – so you can get help when you need it. Whether it's for assignments, referencing, administrative or technical support, you'll have access to a team ready to assist you every step of the way.

Access online academic support seven days a week

- Connect with a dedicated Student Adviser
- Access tech support 24/7

unisaonline.edu.au

UPSKILL IN 10 WEEKS

You can study a single course 100% online over 10 weeks to upskill in an area that interests you most or to gain new knowledge that employers are looking for. Explore areas like accounting, marketing, data analytics, psychology and digital design. You can even get study credit towards a full degree.

LINK YOUR LEARNING

UniSA has teamed up with LinkedIn as its exclusive Asia Pacific pilot partner to provide students with the opportunity to complete LinkedIn Learning courses that can be counted towards their UniSA degree. This is a great way to upskill in unique areas like graphic design, data analytics and project management.

DID YOU KNOW?

As a UniSA Online student you still have full access to the facilities, resources, events and support services available across all of our campuses.

BECOME A DIGITAL BUSINESS LEADER

Designed and taught by UniSA's experts and global professional services firm Accenture, the Bachelor of Digital Business is the best of both worlds: an industry-led academic degree. Learn to evaluate business challenges, develop digital solutions, and adapt to rapid tech advancements. Cement your industry relationships with a paid internship, plus you'll be invited to apply to Accenture's exceptional graduate program. No matter how fast technology changes, you'll be one step ahead with a degree designed for the future.

unisaonline.edu.au/digital-business

YOUR PATHWAYS TO ALLIED HEALTH

UnISA has more than 50 years' experience in allied health education, offering the widest range of degrees in South Australia. Some of these degrees are in high demand, but we've got a variety of pathways available to help you reach your chosen career.

I WANT TO BE A...

	Option 1: Direct entry Apply for your preferred degree directly via SATAC.	Option 2: Undergraduate pathways Choose one of the following degrees and complete at least 18 units of study (four courses) and then apply for your preferred degree via SATAC at the next available intake using your competitive Grade Point Average (GPA).	Option 3: Postgraduate pathways Complete one of the following bachelor degrees, then use your competitive Grade Point Average (GPA) to apply for your preferred master's degree via SATAC. A competitive GPA and other entry criteria (including prerequisites) apply.
► PHYSIOTHERAPIST	Bachelor of Physiotherapy (Honours)	Bachelor of Human Movement Bachelor of Health Science (Public Health) Bachelor of Exercise and Sport Science	Bachelor of Human Movement or Bachelor of Exercise and Sport Science + Master of Physiotherapy (Graduate Entry)
► OCCUPATIONAL THERAPIST	Bachelor of Occupational Therapy (Honours)		Bachelor of Human Movement or Bachelor of Health Science (Public Health) or Bachelor of Exercise and Sport Science + Master of Occupational Therapy (Graduate Entry)
► PODIATRIST	Bachelor of Podiatry		
► EXERCISE PHYSIOLOGIST	Bachelor of Clinical Exercise Physiology (Honours)		
► MEDICAL RADIATION PROFESSIONAL	Bachelor of Medical Radiation Science (Medical Imaging) Bachelor of Medical Radiation Science (Nuclear Medicine) Bachelor of Medical Radiation Science (Radiation Therapy)		
► SPEECH PATHOLOGIST	Bachelor of Speech Pathology (Honours)		

HOW TO CHOOSE THE RIGHT PATHWAY...

If you don't get into your preferred degree by direct entry, you need to make sure that you like the alternative pathway degree because that's what you'll be studying and using to potentially get the grades to transfer. Ask yourself questions like:

- ☑ Do I have an interest in this area?
- ☑ Do I like the subjects in this degree?
- ☑ Do the career outcomes match my goals?

If you need help, contact our Future Student Enquiries Team at unisa.edu.au/enquire or on (08) 8302 2376

All pathways are competitive and not guaranteed due to limited places.

Guaranteed Entry for Year 12 Subject Grades are reflective of the top three, 20-credit Stage 2 Tertiary Admission Subjects (TAS). Students also need to achieve a minimum ATAR of 50 and meet any prerequisites or other eligibility criteria.

PROFESSIONAL REQUIREMENTS

CRIMINAL HISTORY SCREENING

All students studying a health-related discipline who complete a placement or activity where interaction with patients/the public is required as part of their degree, must provide evidence of the following:

- A current National Police Certificate (NPC) through SAPOL or their home state police service; and
- A current Working With Children Check (WWCC) through the Department of Human Services (DHS).

Both of these must be valid for the duration of the student's degree. The National Police Check will list disclosable court outcomes, which may prevent a student's involvement in placement opportunities.

IMMUNISATION REQUIREMENTS

To be eligible for clinical placement, students must be screened and provide evidence of their vaccination status. Immunisation is a mandatory requirement across all healthcare placement providers. Non-compliance with the Health Care Workers Immunisation Policy Directive will prevent students from progressing to a placement. Additional vaccination requirements set by the placement provider may apply.

STUDENT REGISTRATION

All students enrolled in a degree leading to professional registration must be registered with the relevant national board. The student registration process is completed by the University to the Australian Health Practitioner Regulation Agency (AHPRA) after enrolment. No fees apply.

Part-time study available

Graduate with honours and prepare for a career as a registered physiotherapist in just four years. Develop the capability to assess, treat and prevent health conditions, enabling people to lead healthy and functional lives. Focus on various areas of practice, including sports, musculoskeletal, cardiorespiratory and neurological conditions. Study courses in human anatomy, human physiology, physiotherapy studies, pharmacology, exercise physiology, and pain sciences. Benefit from more than 45 weeks of practical experience in a range of clinical settings, including our on-campus physiotherapy clinics where you'll learn under the supervision of industry experts. Complete a research stream that focuses on an independent research project, or a professional stream where you'll take part in a group project addressing a real-world challenge. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a physiotherapist with the Physiotherapy Board of Australia. You'll also be eligible for membership with the Australian Physiotherapy Association.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

The Master of Physiotherapy (Graduate Entry) is available for students from other health-related bachelor degrees seeking a pathway into physiotherapy. See page 47.

CAREERS

Registered physiotherapists can work in a variety of settings, including:

Private practice · clinics · sport and exercise services · rehabilitation centres · hospitals · home and community services · disability services · aged care facilities · women's health · paediatric services · research

*Cert IV in Aboriginal and Torres Strait Islander Primary Health Care is accepted for Aboriginal and Torres Strait Islander applicants only.

Study South Australia's only degree in podiatry. Prepare for a career as a registered podiatrist, responsible for diagnosing and treating disorders, injuries and pain of the foot, ankle and lower leg. Develop fundamental knowledge through core courses in human anatomy, human physiology, pain management, pharmacology and biomechanics. Learn about relevant medicine and surgery practice, as well as the physical, biological, and social sciences relevant to working in healthcare. Gain valuable real-world experience by completing clinical hours across industry settings like major hospitals and private practice. Further develop your knowledge and expertise in our on-campus podiatry clinics under the supervision of practising clinicians, as well as in our manufacturing laboratory where you'll learn how to make orthotics. Graduate with the eligibility to apply for registration as a podiatrist with the Podiatry Board of Australia.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

High achieving students may be considered for the Bachelor of Podiatry (Honours) program in their third year of study.

CAREERS

Registered podiatrists can work in a variety of settings, including:

Private practice · clinics · hospitals · community health centres · aged care facilities · children's health services · sports clinics · occupational health services · home-based services

YOU MIGHT ALSO LIKE

Study South Australia's only medical radiation science degree and prepare for a career as a qualified diagnostic radiographer. Learn how to produce high-quality medical images with various technologies and types of radiation to monitor and diagnose injury and illness. Be prepared to work across general radiography practice such as X-rays, fluoroscopy, theatre or emergency imaging. Focus on core courses in anatomy, physiology, pathology and radiation physics during your studies. Practise in fully functioning X-ray suites located on campus, equipped with the latest tools and technologies. Apply concepts of professional practice through 1,400+ clinical placement hours, which begin in your second year. Take part in regular pre-clinical preparation workshops to further extend your skills as you move into advanced areas of practice. After graduation you'll be eligible to apply for general registration with the Medical Radiation Practice Board of Australia (MRPBA).

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

High achieving students may be considered for the Bachelor of Medical Radiation Science (Honours) (Medical Imaging) program in third year.

CAREERS

Medical imaging professionals can work in a variety of settings, including hospitals, private practice, medical equipment companies, defence, and research and development. Through further study or training you may also gain employment in specialist areas such as ultrasound, interventional imaging, magnetic resonance imaging or computed tomography.

YOU MIGHT ALSO LIKE

- Bachelor of Medical Radiation Science (Nuclear Medicine)
- Bachelor of Medical Radiation Science (Radiation Therapy)
- Bachelor of Laboratory Medicine (Honours)

 Part-time study available

Prepare for a rewarding career as a speech pathologist and graduate with honours in just four years. Learn to help people of all ages with swallowing and feeding difficulties as well as communication challenges, including hearing, understanding and producing language, speaking, reading and writing. Work closely to support and empower people with conditions such as developmental delays and disorders, autism spectrum disorder, and neurological conditions like stroke, brain injury and dementia. Study core courses in physiology, applied psychology, anatomy and communication science. Access technologies used for hearing assessments and understanding acoustic signals of speech and voice production. Gain practical, hands-on experience by completing more than 800 clinical placement hours across a range of settings, including hospitals, schools, community services and our on-campus health clinics.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

This program has received Provisional Accreditation with Speech Pathology Australia.

CAREERS

Qualified speech pathologists can work in a range of settings, including: Hospitals · private practice · rehabilitation services · aged care facilities · community services · home-based services · government departments · schools · not-for-profit and NGOs

The Unstoppables

AFL GREAT

Girls across Australia are looking at their TV screens inspired by the rise of women’s football and the AFL’s trailblazing female umpire, Eleni Glouftsis.

Growing up with a passion for the game, this UniSA human movement grad and *UNSTOPPABLE* force made history at 25 by becoming the league’s first woman to officiate as a field umpire, paving the way for the next generation of young girls with big ambitions.

Eleni Glouftsis OAM
AFL Umpire & Physical Education Teacher
Bachelor of Applied Science (Human Movement),
Bachelor of Education (Middle and Secondary)

Part-time study available

Choose a primary stream in Health and Physical Education or Exercise and Sport Science.

Choose a secondary stream in Rehabilitation Sciences, Sports Coaching, Outdoor Education, Health Promotion, Nutrition or Advanced Exercise and Sport Science.

Study the functioning of a healthy human body and the impact it has on a person’s holistic wellbeing biologically, socially and psychologically. Tailor your degree to your interests and career goals through primary streams in Health and Physical Education or Exercise and Sport Science with the ability to choose a secondary study stream in a wide range of study areas. Build strong foundational knowledge in human anatomy, physiology, health and physical activity, motor development and ageing. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics, motor control and sociology. Depending on your course selection, you’ll graduate with the skills to complete client screenings, conduct laboratory and field testing, design and implement exercise and training programs, and interpret scientific research. Learn in dedicated teaching facilities, including our on-campus environmental chamber, along with specialist anatomy, biomechanics and exercise physiology laboratories. You’ll also complete an industry placement during your studies. Package this degree with a Master of Teaching (Secondary) to teach Health and Physical Education to Year 12 and Science to Year 10.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

CAREERS

Depending on your course selection, your career options can include:

Sport development officer · health and wellbeing adviser · sports coach · outdoor education practitioner · community and allied health worker · human movement practitioner · teacher (with further study)

- YOU MIGHT ALSO LIKE**
- Bachelor of Exercise and Sport Science

Honours available

Choose a primary stream in Health and Physical Education or Exercise and Sport Science.

Complete a double degree combining your passion for health and exercise with nutrition. Become an expert in nutrition and food sciences and be ready to improve the health, fitness and overall wellbeing of individuals and communities. Study core courses in human anatomy and physiology, lifespan growth, motor development, fitness and lifestyle management. Develop in-demand expertise in areas such as biomechanics, nutrition theory and practice, microbiology and weight management. Tailor your degree to your interests and career goals through primary streams in Health and Physical Education or Exercise and Sport Science. Learn in modern, purpose-built facilities on campus, including our High Performance Sport Centre and environmental chamber, along with purpose-built exercise physiology laboratories and a dedicated nutrition hub. Gain valuable practical experience through an industry placement. Graduate with the ability to apply for registration with the Nutrition Society of Australia as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of experience. You can also go on to study the Master of Teaching (Secondary) to teach Health and Physical Education and Nutrition to Year 12 and Junior Science to Year 10.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

CAREERS

Study a primary stream in Health and Physical Education.
Choose a secondary stream in Rehabilitation Sciences, Sports Coaching, Outdoor Education, Health Promotion, Nutrition or Advanced Exercise and Sport Science.

Package a degree in human movement with postgraduate studies in education to become a secondary health and physical education teacher. Build strong foundation knowledge in core areas such as human anatomy and physiology, the sociology of health and physical activity, growth and motor development, and group and team psychology. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics and motor learning. Tailor your studies through a wide range of elective courses covering topics such as outdoor education, sports coaching and health promotion. Focus on adolescent learning with the ability to teach key Learning Areas within the Australian Curriculum, including Health and Physical Education to Year 12 and Science up to Year 10. Depending on your final year electives, you may also be qualified to teach Outdoor Education, English, Mathematics, Humanities and Social Sciences, or Languages to Year 12. Benefit from practical learning, completing supervised industry placements totalling more than 60 days across both programs in a range of educational settings.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16. Additional requirements apply for the Master of Teaching (Secondary), visit unisa.edu.au/eds-requirements

Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

CAREERS

Health and physical education teacher · science teacher · sport development officer · outdoor education instructor · sports coach · recreation activities coordinator

Study the only double degree of its kind in South Australia and develop your expertise in the areas of exercise and sport science, psychology, counselling and behavioural research. Study core courses in human anatomy, exercise physiology and counselling skills, and explore the relationship between psychology and physical activity. Develop the skills to enhance the physical and mental wellbeing of individuals, including children, elite athletes and older people. Learn in purpose-built exercise physiology laboratories, along with our on-campus High Performance Sport Centre, biomechanics laboratory and environmental chamber. Embark on more than 140 hours of industry placements across a range of settings, including schools and sporting clubs. Attend classes on campus with the option to study some courses online. Graduate with a degree accredited by Exercise and Sport Science Australia (ESSA) and be eligible for registration as an accredited exercise scientist. This degree is also accredited by the Australian Psychology Accreditation Council (APAC).

Students are required to undertake Criminal History Checks through the Department of Human Services (DHS), obtain a SAPOL National Police Record Check and complete a one-day Safe Environments for Children and Young People course. Some placements may also require students to hold a current driver's licence, and/or additional requirements as requested by the placement provider.

To become a registered psychologist or research psychologist, further study is required.

CAREERS

Strength and conditioning coach · exercise scientist · community development officer · recreational activities coordinator · sport development officer · accredited school or sports counsellor, registered psychologist or research psychologist (with further study)

Study a cross-disciplinary minor, focusing on areas such as Psychology, Legal Studies, Sport Management, Digital Media or Sociology.

Play a critical role in planning, managing and influencing health care policy, and make a real difference to the lives of populations. Build your knowledge and contribute to the research and education around preventing and controlling global health issues such as COVID-19, heart disease, cancer and mental health. Gain real-world experience while you study with more than 200 hours of industry-relevant experience and placement in the public health sector. Plus, choose a minor study area, or a set of elective courses based on your interests. Benefit from a curriculum aligned to the Foundation Competencies for Public Health Graduates in Australia and the Aboriginal and Torres Strait Islander Health Curriculum Framework, giving you the latest industry insights and career-ready skills. You'll also develop skills in planning, managing and evaluating healthcare policy, projects, programs and services. Graduates are eligible for membership with the Public Health Association of Australia (PHAA) and other relevant professional bodies.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

**Enrolled Nurse Certificate IV or Diploma in Nursing both with current Nursing and Midwifery Board (NMBA) registration.*

Become a Registered Nurse and make a positive contribution to the community. Join a highly respected and in-demand workforce on the front line of our healthcare system. Develop the knowledge, clinical skills and attitudes needed for professional practice in a range of settings. Benefit from a strong focus on theory and practical experience, including access to our unique clinician-led hospital and health service on campus, which includes authentic hospital wards, clinical units and community areas. Be prepared to meet healthcare delivery requirements for the 21st century and respond to Australian and international healthcare priorities and trends. Focus on six integrated themes of nursing practice, including safety and quality, cultural safety, evidence-based practice, professional communication, consumers as partners in care, and teamwork. You'll also learn about cultural competence, mental health, primary healthcare and healthy ageing. Embark on 1,000 hours of nursing placements from your first year of study, in clinical settings across South Australia. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

To meet entry requirements, applicants must consider the professional registration requirements, including the English Language Skills standard and complete a declaration stating how they will demonstrate their English language competency, as determined by the NMBA.

Once enrolled, students will be required to meet Fitness to Practice in Clinical Placements requirements. For more information, visit unisa.edu.au/health/ftp

Students in this program must be registered with the relevant national board. This process is completed by the University after enrolment and no fees apply.

"UniSA was a great launchpad for my nursing career. After graduating, I became an agency nurse where I was able to gain experience across many areas, including intensive care, critical care and emergency. I now work in the GEM@HOME team at the Noarlunga Hospital where we triage and support elderly patients, including people living with dementia. It's a very rewarding job, where I get to work with a broader team of community, aged care and disability services, along with other allied health and medical professionals."

Karina Fausto | Nursing Graduate / Clinical Nurse, South Adelaide Local Health Network (SALHN) – GEM@HOME

CAREERS

Registered nurses can work in a variety of healthcare settings, including:
Hospitals · medical clinics · primary health services · community support services · aged care · rehabilitative care · schools · home-based services · drug and alcohol treatment centres · community health organisations · mental health services · international aid agencies · correction facilities

Prepare for a highly rewarding career in maternity care and women’s health as a Registered Midwife. Develop the knowledge and practical skills to support women through pregnancy, labour, birth and postnatal care. Benefit from a strong focus on theory and hands-on experience, including industry placements to prepare you for clinical practice. As an international profession with different birthing preferences all over the world, you’ll learn how political, socio-cultural, economic and technological factors influence midwifery practice. Learn in our clinician-led, simulated hospital and health service on campus, which incorporates a birthing suite, special care nursery and postnatal area, as well as birthing manikins. Complete comprehensive placement hours and be actively involved in 30 births during your studies, along with the pre and post-birth care of at least 100 women. You’ll also follow 15 women through their entire pregnancy, labour, birth and postnatal journeys. Graduate with the academic requirements needed for registration as a midwife with the Nursing and Midwifery Board of Australia (NMBA).

To meet entry requirements, applicants must consider the professional registration requirements, including the English Language Skills standard and complete a declaration stating how they will demonstrate their English language competency, as determined by the NMBA.
Once enrolled, students will be required to meet Fitness to Practice in Clinical Placements requirements. For more information, visit unisa.edu.au/health/ftp

Study South Australia's only degree in pharmacy and prepare for a career as a registered pharmacist. Be equipped with the knowledge and skills to help people get the best outcomes from medicines; and work across a variety of settings, including pharmacies, hospitals, aged care, defence services, rural care, and more. Study a degree accredited by the Australian Pharmacy Council and benefit from a university with more than 50 years’ experience in delivering pharmacy education. Focus on key study areas such as managing common diseases, ethical pharmacy practice, and trialling and regulation of medicines. Learn to dispense medicine and counsel patients in state-of-the-art learning spaces, including a pharmacy practice suite. Access the entire product range found in real-world pharmacies using touchscreen technology that’s the first of its kind in Australia. Complete industry placements in community and hospital-based pharmacy settings, and as part of your honours, you’ll develop advanced skills in research and professional practice. Following graduation, you’ll satisfy the academic requirements for registration as a pharmacist with the Pharmacy Board of Australia (PBA), which is also determined by a period of supervised training.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.
High achieving students may wish to consider transferring into double degree Bachelor of Pharmaceutical Science, Bachelor of Pharmacy (Honours) after they have completed two years of study in this program.

Choose four specialist elective courses that align to your career interests in the areas of biosciences, chemistry or marketing.

Study the only degree of its kind in South Australia. Develop the skills to work in areas such as drug discovery, manufacturing and production, clinical trials, regulatory affairs, and pharmaceutical sales and marketing. Build your understanding of fundamental sciences and the factors influencing the global pharmaceutical industry. You'll then focus specifically on key areas such as pharmaceutical sciences, pharmacology and pharmacokinetics, and drug discovery and development. You can also choose from a range of specialist courses to tailor your studies, covering areas such as research and development, manufacturing and commercialisation (including sales, marketing, regulations and legal requirements). Through elective choices, you can gain advanced knowledge in biosciences, chemistry or marketing. Access purpose-built laboratories on campus and in the Bradley Building, located in Adelaide's BioMed City on North Terrace. You'll also complete an industry project or placement during your degree. On graduation, you'll be eligible for membership with the Royal Australian Chemical Institute (RACI) and other relevant professional bodies such as AusBiotech.

High achieving students may wish to consider transferring into double degree Bachelor of Pharmaceutical Science, Bachelor of Pharmacy (Honours) after they have completed two years of study in this program.

CAREERS

Study fundamental core courses then choose a primary stream in Nutrition or Food Sciences in final year.

Launch a career in the food and nutrition industries, with opportunities to go into scientific and advisory roles. Learn to develop innovative foods, promote and manage diets and lifestyles, and conduct meaningful research for enhanced wellbeing. Explore the fundamental core courses of both nutrition and food sciences in your first two years of study then select one as a formal study stream in your final year, aligned to your interests and career goals. Develop a strong body of knowledge in biology, food chemistry, microbiology, physiology, food sustainability, and food safety and regulation. Study in a dedicated nutrition hub on campus, including a sensory laboratory, microbiology laboratory and fully equipped commercial kitchen. Benefit from our strong links with the food industry and community, and attend field trips to some of South Australia's major nutrition and food providers. Graduates are eligible to apply for professional membership with the Australian Institute of Food Science and Technology (AIFST). Graduates can also apply to the Nutrition Society of Australia for registration as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of experience. Continue your studies through the Master of Teaching (Secondary) to teach Science to Year 10, and Nutrition in Years 11 and 12.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

Prepare for a career as a medical laboratory scientist focusing on diagnostic pathology or research. Learn to play a vital role in the welfare of patients by supporting clinicians in the diagnosis, management and treatment of disease, and develop improved methods for disease detection. Build fundamental knowledge in biochemistry, microbiology, immunology, molecular pathology, haematology and histopathology. Develop the skills to perform a range of diagnostic tests, including cross-matching for blood transfusions, identifying organisms that cause infections and food poisoning, screening for cancer cells, and detecting genes responsible for disease. Gain valuable practical experience in our on-campus laboratories and through industry placements across areas of public and private pathology. In final year, tailor your studies in either a diagnostic or research setting, learning how to manage specimens, perform tests and operate specialist equipment. Graduate with a degree accredited by the Australian Institute of Medical and Clinical Scientists (AIMS) and be eligible for membership. You can also apply for membership with the Australasian Association of Clinical Biochemists (AACB) and Australian Society for Microbiology (ASM).

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

CAREERS

guaranteed		70.00		guaranteed B, B, B	
cut-off 2023		65.00		guaranteed CIV	

-  Part-time study available
-  Honours available

Study the only degree of its kind in South Australia, combining the unique disciplines of outdoor leadership and environmental science. Become a recognised leader in outdoor education, adventure therapy, ecotourism and environmental interpretation. Graduate with diverse knowledge and skills across health and wellbeing, environmental leadership, social justice and sustainable living. Tailor your studies through a major in Ecosystem Sciences or select elective courses in areas like community engagement and sustainability, management, counselling and interpersonal skills, Aboriginal cultures, or biology for education. Benefit from over 400 hours of hands-on, practical experience in a variety of real-world settings, including the opportunity to lead groups in outdoor programs and undertake self-reliant adventure trips. Continue your studies through the Master of Teaching (Secondary) to teach Biology and Environmental Science to Year 12 and Science to Year 10.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

CAREERS

Outdoor education practitioner · community development officer · ecotourism guide · land and natural resources manager · outdoor activation coordinator · youth worker · sustainability adviser · teacher (with further study)

Bachelor of Biomedical Research (Honours)

unisa.edu.au/biomedical-science

	City East Campus		
	On-campus		Intakes: Feb and Jul
	1 year full-time		Research Project

Prerequisites: none.
Assumed knowledge: none

SATAC code	4BH008	Program code	IHBY
------------	--------	--------------	------

Designed for students who have completed a relevant bachelor's degree, this one-year honour's program is focused on furthering your research skills in biomedical, pharmaceutical, biological and chemical sciences. Contribute to the development of new knowledge in a chosen specialisation area. Explore the latest research methodologies, learn to prepare research proposals, and increase your awareness of ethical research practice. Complete an advanced research project during your studies, which demonstrates your ability to collect data, prepare a thesis, reference, publish and present your findings. Work closely with world-class health researchers based in the Bradley Building located in Adelaide's BioMed City on North Terrace and the Centre for Cancer Biology – an alliance between UniSA and SA Pathology. Continue your learning and research through additional postgraduate studies.

CAREERS

Laboratory research assistants and technicians can work in a variety of specialised roles in settings such as research laboratories and institutes, pharmaceutical and biopharmaceutical companies, and the pharmaceutical and laboratories supplies sector.

Entry requirements

- This program is available to students who have successfully completed a relevant bachelor degree in biomedical, pharmaceutical, nutrition or natural sciences or equivalent qualification, and have met the required Grade Point Average (GPA).
- Prior to applying through SATAC, applicants must confirm the availability of a suitable honours supervisor and research project. Enquiries should be sent to CHS-Research@unisa.edu.au

FURTHER STUDY

- Master of Research
- Doctor of Philosophy (PhD)

DEGREE STRUCTURE

FIRST YEAR	Honours Biomedical Research A
	Honours Biomedical Research B

POSTGRADUATE AND RESEARCH DEGREES

Take your career to the next level and develop your knowledge further through postgraduate study.

You can also make a positive and lasting contribution to your field through a research degree.

Master of Occupational Therapy (Graduate Entry)

unisa.edu.au/occupational-therapy

 City East Campus	 Intakes: Feb
 On-campus	 Placement
 2 years full-time	 Commonwealth supported*

SATAC code	4CM107	Program code	IMOG
------------	--------	--------------	------

*see page 61 for more on fees

Designed for students who have completed a health-related bachelor's degree, this program will provide you with the requirements to practise as a registered occupational therapist in just two extra years of study. Learn how to assist people in managing constraints caused by injury or illness, as well as emotional, developmental, environmental, societal, age-related and psychological limitations. Benefit from highly practical learning with more than 1,000 industry placement hours. Develop strong foundation knowledge in occupational science, occupational therapy best practice and human neuroscience, along with critical communication and problem-solving skills. Graduate with a qualification accredited by the Occupational Therapy Council (Australia & New Zealand) Ltd. The program is also approved by the World Federation of Occupational Therapists, and the Occupational Therapy Board of Australia for professional registration as an occupational therapist in Australia.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

CAREERS

Occupational therapists can work in a variety of settings, including:

Hospitals · private practice · mental health services · rehabilitation centres · aged care facilities · home-based services · local council services · government departments · schools · not-for-profit and NGOs

Entry requirements

- Bachelor degree or higher from a recognised higher education institution completed in the last ten years with a minimum Grade Point Average (GPA) of 5.
- Applicants must also have successfully completed set prerequisite courses. For more information, visit unisa.edu.au/occupational-therapy

YOU MIGHT ALSO LIKE

- Master of Physiotherapy (Graduate Entry)

Master of Physiotherapy (Graduate Entry)

unisa.edu.au/physiotherapy

 City East Campus	 Intakes: Feb
 On-campus	 Placement
 2 years full-time	 Commonwealth supported*

SATAC code	4CM106	Program code	IMPE
------------	--------	--------------	------

*see page 61 for more on fees

Designed for students who have completed a health-related bachelor's degree, this program will provide you with the requirements to practise as a registered physiotherapist in just two extra years of study. Develop the capability to assess, treat and prevent human movement conditions, and enable people to lead more healthy and functional lives, as a first contact professional or valued member of an allied healthcare team. Focus on various areas of practice and treatments across sports, musculoskeletal, cardiorespiratory and neurological conditions. Study core courses that explore evidence-based practice, clinical reasoning, pain theory and science, ethics and professional communication. Learn practical skills while completing more than 30 weeks of practical experience in real-world settings, including our on-campus physiotherapy clinics. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a physiotherapist with the Physiotherapy Board of Australia. You'll also be eligible for membership with the Australian Physiotherapy Association.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

CAREERS

Registered physiotherapists can work in a variety of settings, including:

Private practice · clinics · sport and exercise services · rehabilitation centres · hospitals · home and community services · disability services · aged care facilities · women's health · paediatric services · research

Entry requirements

- Bachelor degree or higher from a recognised higher education institution completed in the last ten years with a minimum Grade Point Average (GPA) of 5.5.
- Applicants must also have successfully completed set prerequisite courses. For more information, visit unisa.edu.au/physio-ge

YOU MIGHT ALSO LIKE

unisa.edu.au/physiotherapy

 City East Campus	 Intakes: Jul
 On-campus	 Real-world projects
 0.5 years full-time	 AUD \$15,450* <i>indicative 2023</i>

SATAC code	4GC095	Program code	ICMS
------------	--------	--------------	------

 Part-time study available *see page 61 for more on fees

Designed for qualified physiotherapists, this postgraduate qualification will further your clinical skills in both musculoskeletal and sports physiotherapy in just six months of of full-time study (or part-time equivalent). Learn to assess and manage a wide range of clinical presentations within an evidence-informed framework, requiring advanced biomedical and psychosocial knowledge, clinical examination skills and clinical reasoning. Study this as a standalone qualification or expand your knowledge further by continuing with the Master of Advanced Clinical Physiotherapy, specialising in either musculoskeletal or sports physiotherapy with study credit awarded for successfully completed courses.

CAREERS

This program is designed for registered physiotherapists seeking to further their knowledge and skills working in settings such as:

Private practice · clinics · sport and exercise services · rehabilitation centres · hospitals · home and community services · disability services · aged care facilities

Entry requirements

- Bachelor degree or equivalent professional entry level qualification in physiotherapy from a recognised higher education institution; and
- A minimum of 10 months full-time, or equivalent, physiotherapy practice in a relevant field.

FURTHER STUDY

- Master of Advanced Clinical Physiotherapy (Musculoskeletal)

- Master of Advanced Clinical Physiotherapy (Musculoskeletal)
 - Master of Advanced Clinical Physiotherapy (Sports)

unisa.edu.au/physiotherapy

	City East Campus		Intakes: Jul
	On-campus		Placement
	1 year full-time		AUD \$30,900* <i>indicative 2023</i>

	Musculoskeletal	Sports
SATAC code	4CM187	4CM186
Program code	IMAP	IMAP

 *Part-time study available* **see page 61 for more on fees*

Further your knowledge and expertise in clinical physiotherapy practice, with the ability to specialise in either musculoskeletal or sports physiotherapy. Study core courses in evidence translation and clinical theory and practice, along with key topics such as pain theory and science, and exercise and conditioning. In the Musculoskeletal specialisation, you'll focus on assessing and managing a wide range of patient problems within a biopsychosocial framework. In the Sports specialisation, you'll learn to assess and treat sports-related injuries and develop the ability to conduct pre-season screening and develop prevention management strategies. Complete supervised industry placements and engage with patients in our physiotherapy clinics located on campus. Benefit from flexible learning, with some courses available online, along with part-time study options. The Musculoskeletal degree is accredited by the Musculoskeletal Physiotherapy National Professional Standards Committee of the Australian Physiotherapy Association and graduates are eligible to apply for titling as a Musculoskeletal Physiotherapist with the Australian Physiotherapy Association. The Sports degree is accredited by the Sports and Exercise Physiotherapy National Professional Standards Committee of the Australian Physiotherapy Association and graduates are eligible to apply for titling as a Sports Physiotherapist with the Australian Physiotherapy Association.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

CAREERS

These programs are designed for registered physiotherapists seeking to further their knowledge and skills, working in settings such as:

Private practice · clinics · rehabilitation centres · hospitals · home and community services · disability services · aged care facilities · sport and exercise services

- Entry requirements**
- Bachelor degree in physiotherapy, or equivalent entry-level qualification, from a recognised higher education institution; and
 - A minimum of ten months full-time, or equivalent, physiotherapy practice in a relevant field following completion of the professional entry level qualification; and
 - Met the eligibility requirements for registration as a physiotherapist, or limited registration under supervision, with the Australian Health Practitioner Regulation Agency (AHPRA).

Graduate Diploma in Mental Health

unisa.edu.au/nursing-midwifery

	City East Campus		
	On-campus/online		Intakes: Feb
	1 year full-time		Commonwealth supported*

SATAC code	4GD047	Program code	IGME
------------	--------	--------------	------

 *Part-time study available* **see page 61 for more on fees*

Advance your knowledge as a healthcare professional with postgraduate studies focused on mental health. Gain practical skills needed to assess and deliver care to people experiencing mental illness. Explore the psychosocial and behavioural sciences, co-morbidity and pharmacology within mental health, along with key legal and ethical considerations. Develop professional interviewing and assessment skills, and knowledge of broader support services. Learn from specialist teaching staff and experienced researchers. Study online, and also gain hands-on experience through on-campus workshops. You can also benefit from the flexibility of part-time study.

Applicants with an undergraduate qualification in nursing should also consider the Graduate Diploma in Mental Health Nursing if they wish to work as a mental health nurse.

CAREERS

Mental health professionals can work across a variety of settings, including:

Public and private mental health services · rehabilitation centres · aged care facilities · youth services · community health services

- Entry requirements**
- A relevant bachelor degree or equivalent qualification from a recognised higher education institution.
 - Registered Nurses seeking employment in the area of mental health should apply for entry into the Graduate Diploma in Mental Health Nursing. See page 52.

YOU MIGHT ALSO LIKE

- Graduate Certificate in Perinatal Mental Health
- Graduate Diploma in Mental Health Nursing

FURTHER STUDY

- Master of Health Services Management

DEGREE STRUCTURE

FIRST YEAR	Perspectives in Mental Health
	Theoretical Approaches to Mental Health Practice
	Skills for Recovery Practice in Mental Health
	Consolidation of Mental Health Practice

Students may be required to undertake a combination of on-campus or online study and may need to attend on campus workshops and assessments.

The Unstoppables

SOLE SURVIVOR

Hayley Leake
Pain Researcher
Bachelor of Physiotherapy (Honours),
PhD Candidate

What does it take to outwit, outplay and outlast on Australian Survivor? It was UniSA physio grad and researcher, Hayley Leake's knowledge in pain management that gave her the ultimate edge.

A challenge beast, this *UNSTOPPABLE* force was crowned the sole survivor and continues her doctoral studies in education interventions for young people suffering from chronic pain.

· Palliative Care Nursing	

Students may be required to attend on-campus workshops.

Graduate Certificate in Perinatal Mental Health

unisa.edu.au/nursing-midwifery

 City East Campus	 Intakes: Feb
 Online	 Real-world projects
 1 year part-time	 Commonwealth supported*

SATAC code	4GC091	Program code	ICMH
------------	--------	--------------	------

 Part-time study only *see page 61 for more on fees

Further your qualifications by gaining advanced knowledge in the progressive field of perinatal mental health. Build the professional skills and attitudes needed to provide specialised care and support to women experiencing psychological distress. Develop a deeper understanding of postnatal depression and the impact it has on mothers, their families and wider support networks. Enjoy flexible learning through online and part-time study.

CAREERS

Health professionals specialising in perinatal mental health can work in a variety of healthcare settings, including:

Hospitals · private practice · women's health services · community services · general practice · home-based services

Entry requirements

- Bachelor degree in a health related discipline or equivalent qualification from a recognised higher education institution; or
- Completed hospital based training as a Registered Nurse and/or Midwife.

YOU MIGHT ALSO LIKE

- Graduate Diploma in Mental Health

 *Part-time study available* **see page 61 for more on fees*

Further your nursing qualifications and expertise through postgraduate studies in mental healthcare. Gain an in-depth understanding of the practical skills needed to assess and deliver care to people experiencing mental illness. Gain the ability to design intervention and evaluation strategies for patients from diverse backgrounds. Explore the psychosocial and behavioural sciences, co-morbidities, pharmacology and provision of family support within mental health. Develop professional interviewing and assessment skills, and knowledge of broader support services. Complete 240 hours of industry placement in a healthcare setting during your studies. Benefit from flexible learning through a blend of on-campus and online delivery, and the ability to study part-time.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16. Students must meet the Fitness to Practice in Clinical Placements' requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS

Mental health nurses can work across a variety of settings, including:

Hospital emergency departments · acute inpatient units · rehabilitation services · justice system · community health services

- Entry requirements**
- Employer Sponsored
- Current registration as a Registered Nurse with the Nursing and Midwifery Board of Australia; and
 - A letter of support from an employer confirming a training position within the area of mental health nursing.
- University Placement
- Recognised bachelor degree in nursing or equivalent from a recognised higher education institution; and
 - Current registration as a Registered Nurse with the Nursing and Midwifery Board of Australia; and
 - Current Department for Human Services (DHS) Working With Children Check (WWCC); and
 - A criminal history check issued by an ACIC-accredited provider within the last 12 months.

Advance your nursing career by developing your knowledge, practical skills and understanding of evidence-based practice. Prepare for senior leadership or governance roles in clinical practice, policy, research, education or management. Choose to study a clinical pathway or a research pathway, depending on your professional interests. Explore global issues, trends and practices that impact the delivery of nursing and health services. Learn to identify and investigate questions, issues and challenges that will improve and inform healthcare practice, knowledge and research outcomes. Be supported throughout your studies by world-class researchers, as well as academics and industry-experienced clinicians. Benefit from flexible part-time learning through a blend of on-campus and online delivery. Take your research further by completing doctoral studies following completion of the program.

CAREERS

This program is designed for registered nurses seeking to further their qualifications and can lead to senior roles in:

Leadership · governance · healthcare policy · education · management · research

- Entry requirements**
- Bachelor degree or higher in nursing from a recognised higher education institution;
 - Applicants must hold current registration as a Registered Nurse with the Nursing and Midwifery Board of Australia; and
 - Completed a minimum of one year clinical experience as a Registered Nurse.

Extend your nursing qualifications to the professional level required for endorsement as a nurse practitioner. Learn advanced knowledge and skills in health assessment, diagnosis, investigative procedures, and prescribing and evaluating treatments and medications. You'll also build competencies in designing research relevant to the role, context and client populations. Explore the legal, ethical and professional issues associated with the role of a nurse practitioner in both autonomous and multidisciplinary practice. Complete internship courses where you'll work collaboratively with a clinical support team at your current workplace to assess your clinical competency. Benefit from flexible learning through part-time study and a blend of on-campus and online delivery. Graduate with a qualification accredited by the Australian Nursing and Midwifery Accreditation Council and approved by the Nursing and Midwifery Board of Australia (NMBA). You'll also satisfy the academic requirements for endorsement as a nurse practitioner with the NMBA.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working with Children Check. See page 16. Students must meet the Fitness to Practice in Clinical Placements' requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS

Qualified nurse practitioners can work across both hospital and community settings.

- Entry requirements**
- Applicants must hold a current general registration as a Registered Nurse with the NMBA;
 - Hold a postgraduate qualification from a recognised higher education institution in a relevant clinical field; and
 - Completed a minimum four years' full-time equivalent experience as a Registered Nurse, including two years' full-time equivalent as a Registered Nurse in a clinical field and two years' full-time equivalent at an advanced practice level in the same clinical field.
- Additional criteria apply. Go online for more details.*

Designed for pharmacy graduates and registered pharmacists, this qualification focuses on developing specialised skills in contemporary pharmacy practice. You can complete the UniSA Pharmacy Intern Training Program to become a registered practising pharmacist, or registered pharmacists can use the qualification to gain specialist training and skills in selected areas of pharmacy practice. You'll study advanced training in patient assessment, clinical testing, pharmacotherapeutics, evidence-based medicine, health economics, ethics, law and communication. You'll also be mentored by practising pharmacists and academics who are leaders in their field. Benefit from strong links to internationally-recognised research groups, including the Centre for Cancer Biology. Study online through part-time delivery and come on campus to complete practical workshops.

CAREERS

This program is designed for pharmacists seeking to further their expertise and can lead to specialised careers in:

Hospital and community settings · primary care · drug development · drug regulation · education

Entry requirements

This program is available to both pharmacy graduates that have not yet registered with the Australian Health Practitioner Regulation Agency (AHPRA) and registered pharmacists seeking career development.

Pre-registration

Applicants are required to have:

A bachelor degree in pharmacy or graduate entry level master of pharmacy from a university that is accredited by the Australian Pharmacy Council (APC) in Australia or New Zealand; and obtained or applied for provisional registration through AHPRA.

Registered pharmacists

Applicants are required to be a Registered Pharmacist with AHPRA.

Graduate Certificate in Breast Imaging

unisa.edu.au/medical-radiation

	City East Campus		Intakes: Feb and Jul
	Online		Placement
	1 year part-time		Commonwealth supported*

SATAC code	4GC039	Program code	ICBR
------------	--------	--------------	------

 Part-time study only *see page 61 for more on fees

Study the only accredited program of its type in Australia and New Zealand. Extend your qualifications as a diagnostic radiographer or other relevant health professional with specialist knowledge and skills in breast imaging and sonography. Focus on core courses in ultrasound physics and instrumentation, mammography, breast sonography and industry best practice. Complete supervised training during your studies, complemented by in-depth theoretical learning and a professional workshop in mammography delivered by Breastscreen SA. Enjoy flexible learning with the program offered online and part-time over a 12-month period. Graduates are eligible to apply for full professional accreditation with the Australian Sonographer Accreditation Registry (ASAR) for Breast Sonography, with evidence of scanning experience required.

CAREERS

Breast sonographers can work in a variety of settings in both hospitals and private practice, and can also move into training and development or specialist services.

Entry requirements

- A confirmed training position, within a suitable breast imaging department, that will be supervised by an accredited medical sonographer who is registered with the Australian Sonographer Accreditation Registry (ASAR); and either
- Bachelor degree or higher in an approved Field of Education; or
- Graduate Certificate in Medical Sonography Principles and Theory; or
- Current registration with the Medical Radiation Practice Board of Australia (or overseas equivalent, where accreditation was awarded following completion of a recognised degree).

Approved Fields of Education include Medical Studies, Nursing, Pharmacy, Radiography, Rehabilitation Therapies, Dentistry, Optometry, Human Movement, Paramedical Studies or Health Science.

This program requires the completion of a logbook with supervised ultrasound experience for Breast Sonography. Applicants are responsible for organising their own training position in an ultrasound department in order to acquire the scanning experience.

YOU MIGHT ALSO LIKE

- Graduate Diploma in Medical Sonography – various specialisations
- Master of Medical Sonography – various specialisations

	General	Cardiac	Vascular
--	---------	---------	----------

SATAC code	4CM049	4CM225	4CM224
Program code	IMSO	IMSO	IMSO

 Part-time study only *see page 61 for more on fees

Designed for qualified medical radiation, health science or other allied health professionals, these part-time master's qualifications will extend your knowledge and practical skills in ultrasound imaging. Choose a general qualification or specialise in either cardiac or vascular sonography. Study a combination of theory and practice, where you'll gain advanced technical skills and a strong understanding of key areas such as health science, physics, anatomy and pathology. In the Cardiac specialisation, you'll focus on the cardiovascular system, including the estimation of cardiac pressures and congenital heart disease across 2,000 supervised cardiac ultrasound cases and clinical examinations. In the Vascular specialisation, you'll explore the circulatory system for signs of disease or obstruction, and gain experience from 2,000 supervised vascular ultrasound and associated clinical examinations. In the General stream, you'll complete more than 2,200 practical hours of ultrasound scanning experience under the supervision of practising clinicians. You can also pursue a clinical project in your final year. Benefit from flexible learning with the degrees delivered online with some on-campus workshops. Graduates will be eligible to apply for full professional accreditation with the Australian Sonographer Accreditation Registry (ASAR) under the relevant category (general, cardiac or vascular). Evidence of scanning experience in an Australian or New Zealand clinical setting is required for professional accreditation.

Students will be required to hold a current National Police Certificate and Department of Human Services (DHS) Working With Children Check. See page 16.

CAREERS

Accredited medical sonographers can work in a variety of settings, including hospitals, private or public practices, specialist laboratories or tertiary education providers.

Nested with:

- Graduate Diploma in Medical Sonography (General)
- Graduate Diploma in Medical Sonography (Cardiac)
- Graduate Diploma in Medical Sonography (Vascular)

Entry requirements

Cardiac or Vascular:

- A completed letter of support confirming a training position within a relevant ultrasound department that will be supervised by an accredited medical sonographer who is registered with the Australian Sonographer Accreditation Registry (ASAR); and
- Current registration as a Cardiac or Vascular Sonographer with the Australian Sonographer Accreditation Registry (or overseas equivalent, where accreditation was awarded following completion of a recognised degree); or
- A bachelor degree or higher from a relevant field of education.

General:

- A completed letter of support confirming a training position within a relevant ultrasound department that will be supervised by an accredited medical sonographer who is registered with the Australian Sonographer Accreditation Registry (ASAR); and
- Current registration with the Medical Radiation Practice Board of Australia or as a General Sonographer with the Australian Sonographer Accreditation Registry (or overseas equivalents, where accreditation was awarded following completion of a recognised degree); or
- A bachelor degree or higher from a relevant field of education and completed required prerequisite courses.

 *Part-time study available* **see page 61 for more on fees*

Advance your career and prepare for a wide variety of leadership and management roles across the ageing and healthcare sectors. Study a unique blend of health and business-related courses with a contemporary health management focus. Develop critical skills in operations management, administration, leadership, communication, project management and financial management. Build your knowledge in providing overall strategic direction and management to services and organisations. You'll develop key competencies in designing rigorous quantitative research to inform healthcare knowledge, practice and policy; the ability to influence high-level decision-making; and leading administrative operations such as reporting and budget planning. You may also complete practical experience in the master's program by partnering with industry on a major project targeted at a real-world health management issue. Benefit from a curriculum influenced by world-class research in public health, health services, business and management.

CAREERS

This degree is designed for health professionals seeking roles such as:

Clinical manager · practice manager · aged care manager · health and welfare services manager · medical administrator · hospital administrator · primary health manager

Entry requirements

- Bachelor degree or higher in an approved Field of Education; or
- Graduate Certificate or Graduate Diploma in Health Services Management, from a recognised higher education institution.

Approved Fields of Education include Health, Human Welfare Studies and Services, Behavioural Science, Biomedical Engineering, Public and Health Care Management, Biochemistry and Cell Biology, Genetics, Microbiology or Human Biology. Fields of Education not listed may be considered by the Program Director.

Applicants with a completed Graduate Certificate in Health Services Management or Graduate Diploma in Health Services Management will be eligible for entry as well as credit, based on courses already completed.

Master of Research (Health Sciences)

unisa.edu.au/health-science

Complete a program of health research under the supervision of experienced researchers and in collaboration with industry partners. Develop fundamental skills in research methods, research planning, data analysis and dissemination. Investigate intervention strategies aimed at preventing illness, improving health systems and services, creating effective health solutions, and advancing health equality. Expand your knowledge through a focus on authentic, enquiry-based learning in order to contribute to meaningful research outcomes for the health industry and wider community. Present your research findings through publications and conference presentations. Benefit from the opportunity to work alongside active world-class researchers in areas like exercise, nutrition, activity, pain sciences, rural health and stroke recovery.

Entry requirements

Applicants must satisfy the entry requirements set by the University's Research Degrees Committee. You may be eligible for admission if you have an:

- Honours degree or a bachelor degree with honours; or
- Relevant bachelor degree or equivalent qualification of at least three years with a minimum credit average; or
- Relevant master's degree; or
- No tertiary qualifications, but can demonstrate research capabilities through evidence of professional work experience in the field of proposed study and by relevant quality publications.
- Eligibility for entry into a research degree is also subject to an assessment of the proposed research, supervisor availability, and any University or research-specific eligibility requirements.

Master of Research Doctor of Philosophy (PhD)

unisa.edu.au/researchdegrees

Our research degrees are designed to make a difference. You'll be at the forefront of solving real-world problems, by studying a project-based research degree where you'll partner with end-users to develop solutions for the challenges of today and tomorrow.

Achieve research-based outcomes aimed at improving the health and wellbeing of individuals, groups and communities. Be mentored by some of Australia's leading scientists in world-class facilities, including various laboratories equipped with the latest tools and technologies to support improvement in patient diagnostics and treatment. Connect with our researchers who are focused on preventing illness, improving health systems and services, creating more effective therapies, and advancing health equality.

TOPICS OF RESEARCH

- Cancer Biology
- Epidemiology
- Drug Therapeutics
- High Performance Sport
- Mental Health
- Neuroscience
- Nutrition
- Nursing and Midwifery
- Obesity and Chronic Disease
- Pain Sciences
- Public Health

Entry requirements

A research degree is suitable for someone who has completed a previous degree, normally with a research component. At UniSA, all research degree applications are made to a specific project as listed on our research projects page. Most projects will have additional, project-specific selection criteria. It is also possible to develop your own research project by negotiation. Please contact the Graduate Research Admissions team if you have any questions.

research.degrees@unisa.edu.au

Master of Research

- Bachelor degree (or equivalent) of at least three years in a relevant discipline with a minimum credit average; or
- Honours degree or bachelor degree with honours; or
- Relevant master's degree.

Doctor of Philosophy (PhD)

- Honours degree or bachelor degree with honours of at least class 2A standard in an appropriate discipline; or
- Relevant master's degree.

Alternative entry

- Other applicants may be considered for admission if their previous education, professional experience and published research work is of sufficient quality and relevance to prepare the applicant for a research degree.

EXPLORE OUR RESEARCH PROJECTS

Apply for a research degree and choose from one of our many research projects, or design your own. Scholarships and fee-waivers are available. Conditions apply.

HOW TO UNLOCK YOUR UNSTOPPABLE CAREER

GET THE COMPETITIVE EDGE

In the next five years, more than 90% of new jobs will need post-secondary qualifications like a university degree.

Latest federal government reporting shows that there'll be jobs growth across a wide range of industries and job types, but the most growth will be careers that demand higher skill levels. Professional roles alone will rise by 14.7% between now and 2026.

This means, furthering your education has never been more important. Developing soft skills in communication, computing, cognitive ability and care will also be essential ingredients to your future success.

It's in our DNA to produce unstoppable graduates, and with more than 200 world-class degrees to choose from, we'll help you become a force of the future in Australia's workforce and beyond.

Information Source: Australian Government National Skills Commission, Employment Outlook – March 2022.

PREFERENCE BY PASSION

We know that choosing your preferences can be confusing, but we're here to help. Applications to study at UniSA are made through SATAC and you can select up to six preferences (degrees).

SATAC make offers by working down your preference list, so it's important to preference in order of what you want to study *most*. Don't forget, SATAC will also look at your eligibility criteria (for example, does the degree have any prerequisites?).

There are also some other things to consider when narrowing down your six choices:

1. By preferencing UniSA first, you might also be eligible for guaranteed entry. All you need to do is meet the set Selection Rank, Year 12 subject grades or TAFE/VET qualification (and any other academic criteria).

2. Do you need a back-up option? Alternative pathways offered through UniSA College can be included as part of your preference list.

That's the hard work done!

You'll automatically receive an offer from SATAC for the first preference you're eligible for in the list. It's also good to remember that there are multiple offer rounds in January and February, so don't worry if you miss out on your top pick first go.

Don't just settle, follow your passion – we'll help get you into your preferred degree and you'll be on your way to that unstoppable career.

UniSA STUDENT EXPERIENCE

Orientation is the start of your journey at university. Explore your campus, meet new people, connect with teaching staff, get study advice and enjoy different activities.

Campus Central teams are there to help you with everything from ID cards, to enrolment, fees, student services and any questions you have about your studies.

Support services are available to you throughout your time at university, including study support, personal counselling and peer mentoring, along with access to a range of community clinics located on campus.

USASA is your student association and voice at university. They also organise social activities, coordinate 100+ student clubs and publish our award-winning student magazine.

Career Services will help you prepare for your future career. Connect with one of our expert career advisers, access the online Career Hub for the latest resources and job listings, and attend networking and industry events.

UniSA+ and ASPIRE will help to shape your personal and professional journey through leadership and self-development work while you study, so you can become the best version of yourself.

Student lounges feature open social spaces, study nooks, kitchen facilities, mobile charging stations, lockers, gaming stations and more.

UniSA Sport has 25+ sporting clubs, including rowing, netball, gridiron, rock climbing and even esports!

24-hour security services are available on campus and the free SafeZone app is available for download through the App Store or Google Play.

Accommodation services are available to help you set up a home away from home.

STUDY AT UniSA – THE BASICS

APPLYING WITH YEAR 12 RESULTS

Applicants are required to have successfully completed the South Australian Certificate of Education (SACE) with:

- A competitive Selection Rank (ATAR inclusive of adjustment factors);
- Fulfilment of the degree's prerequisite requirements (where applicable).

Applicants may also be eligible to compete for entry if they have completed the degree's prerequisite requirements and one of the following:

- An interstate or overseas qualification considered by the University as equivalent to SACE; or
- The International Baccalaureate Diploma with a minimum score of 24 points.

ADJUSTMENT FACTORS

Australian high school students applying for university study may be eligible for adjustment factors. These are based on set equity factors and/or subject choices (see below). SATAC will combine them with your ATAR to improve your Selection Rank for entry.

- The Universities Equity Scheme – provides additional points for students coming from specified schools, as well as individuals experiencing socio-economic disadvantage.
- The Universities Language, Literacy and Mathematics Adjustment Scheme – provides additional points for students who successfully complete a language other than English, or specified English and Mathematics subjects.

GUARANTEED ENTRY

There are a few ways to guarantee your place at UniSA:

Year 12 Grades Guaranteed Entry – UniSA offers guaranteed entry based on your three best Year 12 subject grades for most degrees. If you achieve the selection grades and you put us as your first preference, that's it, you're automatically in.

Subjects need to be 20-credit Stage 2 Tertiary Admission Subjects (TAS). Students also need to achieve a minimum ATAR of 50.

Selection Rank Guaranteed Entry – UniSA has set guaranteed entry scores for most of our degrees. This means, that if you achieve that set Selection Rank and you put us as your first preference, you're in. There's nothing more you have to do.

Some degrees also have prerequisites and other eligibility criteria for entry that you'll still have to meet. Application timelines and fees also apply.

TAFE/VET Guaranteed Entry – UniSA offers guaranteed entry based on successfully completed VET qualifications. If your completed VET award meets the set VET Guaranteed Entry, you have met any prerequisites and specific entry requirements, and you have listed the degree as your first preference, you're guaranteed an offer.

ALTERNATIVE PATHWAYS

Entering your chosen degree straight from high school is not the only pathway into UniSA. Applicants may also meet the minimum requirements to apply for entry (via competitive selection) through one of the following:

UniSA College – there are a variety of pathway options offered through UniSA College, including Diplomas, Undergraduate Certificates in University Studies, Foundation Studies, and the Aboriginal Pathway Program. You'll be enrolled as a UniSA student and build the academic skills needed for university study, along with introductory knowledge for your preferred UniSA degree.

Find out more about the full range of UniSA College programs at:

unisa.edu.au/college

STAT – a competitive Special Tertiary Admissions Test (STAT) score, based on 70 multiple choice questions designed to assess your aptitude for tertiary study. A personal competencies statement or relevant employment experience alongside your STAT score may also be considered for some degrees.

TAFE/VET – applicants may be eligible for entry with the completion of an award from TAFE or another Registered Training Organisation at AQF Certificate IV or higher.

SAIBT – There are a range of bridging qualifications offered through the South Australian Institute of Business & Technology.

Tertiary transfer – completion of at least half a year of full-time equivalent study towards an undergraduate degree at a recognised higher education institution. You can apply using your competitive Grade Point Average (GPA).

FEES

All UniSA domestic undergraduate students are in Commonwealth-supported places. Students pay a contribution of their fees depending on their program and the associated contribution band (see table below). Student contributions also depend on the unit value courses. As per the Australian Government guidelines, the student contribution amounts for 2023 are:

Band	Field of education	Student contribution	Student contribution
		For one year of full-time load (1 EFTSL)	For each subject (0.125 EFTSL)
1	Agriculture, english, mathematics, teaching, clinical psychology^, languages and nursing.	\$4,124	\$515
2 (2 & 2A)	Architecture, IT, other health, allied health, creative arts, engineering, science, environmental studies, professional pathway psychology, professional pathway social work and clinical psychology^.	\$8,301	\$1,037
3	Dentistry, medicine and veterinary science.	\$11,800	\$1,475
4 (4A, 4C, 4P, 4S & 4Y)	Law, accounting, administration, economics, commerce, communications, society and culture, professional pathway psychology, professional pathway social work and clinical psychology.	\$15,142	\$1,892

**Some postgraduate programs are Commonwealth-supported, while others are full fee-paying. These details are listed under each program in this guide. For programs under one year full-time study, fees are listed as the whole program. For programs over one year of full-time study, fees are listed based on the cost per annum. This table should be used as a guide only (indicative 2023 only). Total costs can vary depending on the courses you study and the band they fall into. For more information about fees, including eligibility for Commonwealth-supported places and deferring your student contributions through HECS-HELP or FEE-HELP loans, visit unisa.edu.au/fees*
